Attn: Mr. James Carlson, PE, Water Division

Re: **FY 2022 MS4 Annual Report**
NPDES Permit No. ALS000006

Dear Mr. Carlson:

Attached is the Fiscal Year 2022 annual report for the ALDOT MS4 Stormwater Management Program (SWMP). This submission is in compliance with Part IV of the ALDOT MS4 permit (NPDES Permit No. ALS000006) reissued on September 30, 2019. The report details the MS4-applicable actions performed by ALDOT and the status of each activity designated by the SWMP Plan (SWMPP) during the period of October 1, 2021, to September 30, 2022. The report applies to the SWMPP versions dated April 27, 2021, and January 10, 2022, respectively, which were in effect during FY 2022. A revision of the SWMPP is being submitted under a separate cover; SWMPP modifications are explained in the annual report.

If you should have any questions concerning the report or wish to discuss any of the content in the report, please contact Dr. Scott Rogers, Environmental Coordination Engineer, at (334) 353-6214.

Sincerely,

Edward N. Austin, PE
Chief Engineer

ENA/KML/SCB/ASA/SWR

**ALABAMA DEPARTMENT OF TRANSPORTATION
MS4 STORMWATER MANAGEMENT PROGRAM
NPDES Permit No. ALS000006**

**ANNUAL REPORT
Fiscal Year 2022**

I. Introduction

A. Background

The U.S. Environmental Protection Agency (EPA) regulates urban stormwater management under the National Pollutant Discharge Elimination System (NPDES). Urban stormwater collects in, flows through, and discharges from a “municipal separate storm sewer system” (MS4). Thus, EPA refers to the mechanism for regulated urban stormwater management as the “MS4 program.” The Alabama Department of Environmental Management (ADEM) carries out the MS4 program at the state level and regulates urban stormwater management for qualifying public entities in Alabama. (The acronym “MS4” can also refer to such a public entity.)

In 2013, ADEM issued to the Alabama Department of Transportation (ALDOT) an individual MS4 permit (NPDES No. ALS000006) covering ALDOT’s MS4-applicable activities throughout Alabama. This MS4 permit was designed specifically for ALDOT and replaced regulatory coverage of ALDOT under MS4 permits issued previously. After a full five-year permit term and an administrative continuation, ADEM reissued this MS4 permit to ALDOT with some modifications on September 30, 2019. (Hereinafter, the 2019 version of the MS4 permit will be referred to as simply “the Permit.”) The Permit went into effect on October 1, 2019, and is intended to stay in effect for a term of five years (i.e., through September 30, 2024).

The Permit applies to areas of the state as specified by Permit item I.A. Requirements of the Permit largely fall under six minimum control measures: Structural Controls Operation, Public Education & Public Involvement (PEPI), Illicit Discharge Detection & Elimination (IDDE), Construction Site Stormwater Runoff Control, Post-Construction Stormwater Management, and Pollution Prevention / Good Housekeeping (PPGH). In addition, the Permit also contains specific MS4 monitoring requirements.

ALDOT developed a stormwater management program (SWMP) to address the requirements of the Permit and other MS4 stormwater management objectives. The document containing details of the SWMP is the “Stormwater Management Program Plan” (SWMPP). The SWMPP explains the ALDOT MS4 stormwater management activities to be conducted over the Permit term, the ALDOT parties associated with particular activities, the goals corresponding to the activities for the Permit term, and the intended timeframes for the completion of activities. The first version of the SWMPP applicable to the term of the Permit was submitted to ADEM on June 30, 2020. Previously, three revisions of the SWMPP (dated January 29, 2021, April 27, 2021, and January 10, 2022, respectively) were prepared. MS4-applicable activities performed by ALDOT during Fiscal Year (FY) 2022 pertain to either the April 2021 version or the January 2022 version of the

SWMPP, depending on when activities took place. However, these revisions were minor as ALDOT has not modified its SWMP in any substantial way since the development of the first SWMPP version, so the importance of an activity's applicability to a given SWMPP version is small. Another minor SWMPP revision (dated January 30, 2023) has been prepared; it will be in effect during the balance of FY 2023.

B. Purpose of the Annual Report

ALDOT provides updates with respect to SWMPP implementation through annual reporting. As required by Permit item IV.A.1, ALDOT is to submit an annual report to ADEM by January 31 of each year the Permit is in effect. Each annual report is to cover the previous fiscal year (i.e., October 1 – September 30). Generally, the material included in the report is governed by items IV.A.4 and IV.B of the Permit.

This document is the annual report covering FY 2022 (i.e., October 1, 2021 – September 30, 2022). MS4-applicable stormwater management actions ALDOT performed during FY 2022 and the statuses of SWMPP-identified activities during FY 2022 are explained in Part II of this report. Part III of this report provides ALDOT's evaluation of its SWMP given actions performed and data collected through the end of FY 2022. In Part IV, the future direction of the SWMP is discussed; the discussion in part addresses modifications made to the SWMPP upon review of FY 2022 activities. Appendices that contain information to supplement Parts II through IV are included in this annual report as well. The appendix structure used in this report is designed to largely mirror that of the SWMPP in order to facilitate connectivity between the SWMPP and this report.

II. Actions Performed & Statuses of Activities during FY 2022

In this section, summaries of FY 2022 actions and statuses are presented for each SWMPP activity category. Emphasis is placed on certain actions and statuses rather than on others, as judged appropriate. A comprehensive list of SWMPP activities with corresponding FY 2022 actions and statuses is provided in Appendix A to supplement the discussion that follows. The list also contains expected tracking data for activities as well as references for finding additional information.

The COVID-19 pandemic continued for the entirety of FY 2022. ALDOT was able to carry out many of its planned FY 2022 MS4 program activities despite the pandemic, but some activities could not be conducted because of public health and employee safety concerns.

A. Stormwater Management Program Plan

ALDOT modified the SWMPP during FY 2022 by preparing the January 2022 revision, as indicated above. Explanations of those modifications are provided in Part IV of this report.

The timely submission of this annual report will satisfy the annual report submission requirement for Calendar Year 2023. Annual reports for the Permit term to date have been submitted on time.

B. Structural Controls Operation

While there were no fully operational BMPs added to the official post-construction BMP inventory during FY 2022, the unofficial inventory developed during FY 2021 continued to be maintained. BMPs on the unofficial inventory will gradually migrate to the official inventory after they become fully operational. Section II.F below discusses post-construction stormwater management actions as well.

C. Public Education & Public Involvement

ALDOT continued its successful anti-litter public awareness campaign in FY 2022. During FY 2022, 105 radio stations and 21 television stations throughout Alabama broadcasted a campaign public service announcement (PSA). One message with PSA-related content was published on the “Drive Safe Alabama” Facebook page; the “Drive Safe Alabama” Facebook account had thousands of followers as of the end of FY 2022. PSA coverage and demographic reach information as well as the message posted on Facebook can be found in Appendix C. Beyond the official public awareness campaign, the ALDOT West Central Region brought additional attention to motorist litter issues in Tuscaloosa County through the media; the press release issued by the West Central Region and a sample article from a media outlet resulting from the press release are provided in Appendix C.

ALDOT also provided ongoing anti-litter public awareness for motorists by means of signage posted on ALDOT roadways throughout the state. During FY 2022, 755 anti-litter signs were active on ALDOT roadways across all ten ALDOT Areas. A breakdown of signs posted by ALDOT Area is given in Appendix C.

ALDOT renewed its agreements with Alabama People Against a Littered State (PALS) and Keep Alabama Beautiful (KALB) such that the respective agreements will be in effect through the end of FY 2023. ALDOT contributed \$294,650 to PALS and \$243,488 to KALB for FY 2022 activities. Activities conducted by PALS and KALB were in line with expectations set by contracts with ALDOT; Appendix C includes activity reports submitted by PALS and KALB that were reviewed by ALDOT. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed up with PALS and KALB to determine if litter control activities are being performed in that area. Regarding the PALS Adopt-a-Mile program specifically, 884 parties were active participants performing litter pickup on a total of 901.08 miles of roadway as of the end of FY 2022; a breakdown by ALDOT Region of roads adopted is provided in Appendix C.

In partnership with ADEM, ALDOT continued to install “trash sculptures” at ALDOT welcome centers. The sculptures are statues of animals containing repurposed plastic water bottle waste and other trash that are intended to raise public awareness of trash impacts on water habitats and ecosystems. During FY 2022, trash sculptures were installed at I-10 welcome centers.

Beyond addressing litter, ALDOT continued activities addressing the other target pollutants (i.e., sediment, herbicide, and chemicals and waste materials) as well during FY 2022. ALDOT carried out its Qualified Credentialed Inspector (QCI) training, vegetation management training,

and typical good housekeeping training for support facility employees. Outcomes of these training activities are discussed below in Section II.E and Section II.G, and Appendix C provides specific information related to those outcomes.

ALDOT participated in and facilitated education activities targeted for youth during FY 2022, though some activities in which ALDOT usually participates could not be held because of the COVID-19 pandemic. For instance, ALDOT could not participate in water festivals for schoolchildren as those events were not held. However, ALDOT personnel were able to give talks on stormwater/environmental topics at Auburn University and serve as judges at the ASCE Gulf Coast Student Symposium. More details are provided in Appendix C.

ALDOT's funding of stormwater management-related university research continued in FY 2022. Seven research projects were actively supported during FY 2022. Appendix C gives a list of research projects funded by ALDOT during and prior to FY 2022; the total ALDOT funding amount for each supported project is provided.

ALDOT maintained significant interaction with the citizens in communities throughout Alabama during FY 2022. Citizen use of ALDOT's online Environmental Concern Submission Form continued to increase, which ALDOT attributes to the FY 2021 Web site revision that provided heightened visibility and accessibility. Sixty-six environmental concerns were submitted by citizens using the Environmental Concern Submission Form during FY 2022, and four additional issues were reported through environmental contact means found on the ALDOT Web site. Details about the citizen reports and follow-up actions can be found in Appendix C.

ALDOT's use of social media to advance public awareness continued to grow during FY 2022. Four ALDOT Regions had Twitter accounts with increasing numbers of followers during FY 2022. Three of the Region Twitter accounts had followers numbering in the thousands, and the fourth account had hundreds of followers. Collectively, the Region Twitter accounts posted multiple stormwater/environmental messages during FY 2022. Also, one Region has a Facebook account with thousands of followers; five stormwater/environmental messages were posted on that Facebook account during FY 2022. In addition, the ALDOT-owned "Drive Safe Alabama" Facebook account with thousands of followers had four stormwater/environmental messages posted on it during FY 2022. Appendix C provides more details about Region social media activities.

Despite the COVID-19 pandemic, ALDOT was able to engage at the local level in important ways during FY 2022. A meeting with the Capital City Plume community outreach group was held. ALDOT participated in collaboration opportunities through involvement with the Baldwin County MS4 Planning Committee as well as maintained its anti-litter collaboration with the City of Mobile and Mobile area stakeholders through the Litter-Free Mobile Task Force. Also, in the vein of supporting local-level anti-litter efforts, the ALDOT Southwest Region participated in a Mobile Bay Causeway litter pickup event. In addition, ALDOT maintained cooperative maintenance agreements with various municipalities and counties so that those local authorities could perform litter pickup on ALDOT property. Additional details about ALDOT's local-level activities are given in Appendix C.

ALDOT continued to be an integral member of the Alabama Stormwater Association (ASA) in FY 2022 by maintaining a comprehensive contact list of Alabama MS4 and other stormwater professionals and by playing a significant role in facilitating a virtual seminar concerning new MS4 permit requirements. Two ALDOT employees served on the ASA board of directors during FY 2022. ALDOT's involvement in ASA is further detailed in Appendix C.

ALDOT participated in the environmental-oriented efforts of several professional organizations during FY 2022. Employees represented ALDOT as members of International Erosion Control Association (IECA), the American Society of Civil Engineers, the Alabama Chapter of the Soil and Water Conservation Society, and other organizations. Of note, an ALDOT employee served as the IECA MS4 Management Subcommittee Chair and hosted an MS4 green infrastructure orientation webinar during FY 2022. ALDOT participation in professional organizations is further explained in Appendix C.

Also, with respect to professional collaboration, ALDOT continued its dialogue with The Ray, a Georgia-based nonprofit aiming to promote and support roadside green infrastructure and other sustainability measures. Previously, ALDOT asked Auburn University to join the dialogue to allow for more robust, three-way collaboration. During FY 2022, representatives from ALDOT, Auburn University, and The Ray met at an ALDOT welcome center to generate ideas for innovative vegetation management at the welcome center. More details of the dialogue established are given in Appendix C.

Regarding additional education opportunities for ALDOT personnel, ALDOT employees participated in at least 20 professional educational events (e.g., conferences, seminars, workshops) during FY 2022. Appendix C provides a table with these events listed and the ALDOT attendance information for each event.

D. Illicit Discharge Detection & Elimination

During FY 2022, ALDOT continued its review of the major outfall inventory and continued the major outfall dry-weather screening applicable to the Permit term. Outfalls on inventory in the Gadsden, Baldwin County, and Mobile MS4 areas as well as at the Gadsden District Office, Mobile Area Office / Mobile District Office, and Tunnel Office were reviewed; no major outfalls were added to or removed from the inventory. (However, it was discovered during FY 2022 that Mobile Area Office / Mobile District Office were inventoried and screened during the previous MS4 permit term but were not reported in previous SWMPP versions or annual reports. The SWMPP has been corrected as explained below in Section IV.) All accessible major outfalls reviewed were also screened. A summary of inventory and screening activities relevant to the Permit can be found in Appendix D.

Two possible illicit discharges were reported by citizens using the Environmental Concern Submission Form during FY 2022. Details about the concern submissions can be found in the environmental concerns log given in Appendix C. These possible illicit discharges were addressed in accordance with the SWMPP.

E. Construction Site Stormwater Runoff Control

In FY 2022, ALDOT continued to oversee Construction General Permit coverage and compliance as described in the SWMPP. There were 26 active, permitted construction projects in MS4 areas during FY 2022. Those projects are listed in a table provided in Appendix E.

ALDOT received one concern report relating to construction site stormwater runoff control during FY 2022, but that concern was not related to ALDOT construction activity. More details about the concern are given in the environmental concerns report log in Appendix C.

As noted in Section II.C above, QCI training was conducted during FY 2022. ALDOT facilitated QCI recertification for 378 employees and 126 other individuals over four virtual sessions as well as provided the means for 48 employees to obtain initial QCI certification. More information about QCI training is provided in Appendix C.

Validating the culture of proficient construction stormwater management that ALDOT has developed, ALDOT was awarded in September 2022 the first Clear Water Alabama Award of Excellence for its erosion and sediment control stewardship in the US-98 corridor project.

F. Post-Construction Stormwater Management

As noted above in Section II.B, the unofficial inventory developed during FY 2021 continued to be maintained, even though no fully operational BMPs were added to the official post-construction BMP inventory during FY 2022. BMPs on the unofficial inventory will gradually migrate to the official inventory after they become fully operational.

G. Pollution Prevention / Good Housekeeping

Eighteen support facilities were inspected during FY 2022, and the deficiencies noted during inspections were resolved or are in the process of resolution in accordance with facility SPCC Plans. The facility inspections performed and deficiencies observed during inspections are summarized in a table included in Appendix G. No significant revision of the ALDOT-wide support facility SPCC program was made during FY 2022, and no individual facility SPCC Plan was significantly revised.

With respect to support facility good housekeeping training, sessions covering SPCC, universal waste, GHS, and other related topics were conducted at ALDOT support facilities during FY 2022. Appendix C provides a table that indicates the dates of sessions held at specific support facilities for particular types of training along with the number of employees attending each session.

Regarding transportation facility PPGH, applicable maintenance activities (i.e., litter pickup, snow and ice control, drainage structure maintenance, erosion control, and herbicide treatment and surveillance) continued to be performed in manners intended to reduce the potential for negative stormwater runoff impacts during FY 2022. Of note, full-width litter pickup was performed on 1,628.77 shoulder miles throughout Alabama, and 3,801 instances of spot litter

pickup occurred as indicated by completed work reports. Other total activity work amounts are given in a table in Appendix G.

As noted above in Section II.C, vegetation management training continued throughout FY 2022. Eleven sessions of the vegetation management training course were held for 272 ALDOT and 113 non-ALDOT participants in all. Details about individual vegetation management training course sessions are provided in a table in Appendix C. Agendas for this training (for Calendar Years 2021 and 2022) are also provided in Appendix C. Six vegetation management training newsletters were distributed during FY 2022. In addition, a total of 38 employees over four sessions held during FY 2022 participated in the “Review for Commercial Applicator Examination” course.

H. MS4 Monitoring

In FY 2022, ALDOT continued field implementation of the MS4 monitoring visual observation strategy. Two dry-weather observations and one wet-weather observation were conducted at all six selected monitoring locations in accordance with the visual observation strategy developed. Observation outcomes continued to indicate that runoff flow paths on ALDOT property are well-vegetated overall and do not experience noteworthy erosion. Thus, the monitoring efforts have produced no evidence that ALDOT is a significant contributor to the pollution of waters for which sediment or turbidity is a pollutant of concern. More details about the MS4 monitoring activities conducted during FY 2022 are provided in Appendix H.

III. Evaluation of the Stormwater Management Program

The proficiency that ALDOT has demonstrated in conducting MS4 activities during the first three years of the Permit term (i.e., FY 2020, FY 2021, and FY 2022) indicates that ALDOT is experiencing sustained SWMP success which began in the previous MS4 permit term and has carried over to the current term. Progress made in implementing the SWMPP during FY 2022 has been encouraging, despite unavoidable obstacles resulting from the COVID-19 pandemic.

ADEM conducted a comprehensive audit of ALDOT’s SWMP during FY 2021. As of the writing of this annual report, ALDOT has not received any official assessment or rating information with respect to the audit from ADEM, but verbal feedback from ADEM representatives provided at the conclusion of the audit suggested that ALDOT’s SWMP would be rated very favorably and that few, in any, modifications of the ALDOT SWMPP would be requested. ALDOT considers this feedback further validation of the sustained success of the SWMP.

ALDOT’s evaluation of its MS4 program based on the accomplishments of the first three years of the Permit term follows.

A. Overall Program Compliance Status

Actions expected by either the Permit or the SWMPP to be performed during FY 2022 were performed by ALDOT when possible. The COVID-19 pandemic prevented some activities from

taking place and reduced the amounts of other activities performed, but the pandemic caused no unmitigated compliance issues during FY 2022.

B. Major Findings Resulting from the Program

The ALDOT PEPI program continues to be robust. The anti-litter public awareness campaign, anti-litter signage, and fully-deployed watershed boundary signage are strategically targeting citizen motorists at a large scale. The accomplishments of PALS and KALB demonstrate the importance of ALDOT's ongoing support of external anti-litter campaigns to supplement ALDOT's own anti-litter efforts. ALDOT's online exposure and communication via social media with the public continue to increase. The major revision of the ALDOT Web site during FY 2021 was a significant step forward in terms of functional online connection with citizens, as evidenced by the remarkable uptick in citizens using the Environmental Concern Submission Form. ALDOT continues to connect with citizens and with other MS4s at the local level through partnerships such as the Litter-Free Mobile Task Force and through participation in organizations like the Alabama Stormwater Association. The established QCI training and vegetation management training conducted by ALDOT continues to be set up to provide both employees and non-employees training well-regarded by the stormwater professional community.

Findings from environmental concerns submitted by citizens, major outfall screening, and good housekeeping on ALDOT property continue to indicate no major or widespread deficiencies in ALDOT MS4 stormwater management practices. The visual observation strategy for MS4 monitoring is, to date, providing additional support that ALDOT's stormwater management practices are sufficient in preventing pollutants of concern from entering natural waters.

C. Program Strengths & Weaknesses

Well-established, MS4-applicable activities continue to be noteworthy strengths of the ALDOT SWMP. In particular, education of employees, education of the public, involvement with the public, construction stormwater management, PPGH for transportation facilities, and IDDE-motivated major outfall inventory and screening are typically conducted in highly proficient manners and usually achieve expected outcomes or even outcomes beyond those that are required by the Permit. PPGH procedures for ALDOT support facilities continue to be implemented smoothly overall under the formalization that took place during the previous MS4 permit term.

Field-testing of the post-construction stormwater management BMP inspection procedures began in FY 2021, and that field-testing suggested that the BMP inspection procedures are viable for assessing the condition of a given BMP and prescribing maintenance to improve the BMP's performance. More testing is needed and will be conducted to determine if the inspection procedures are adequate for the broad spectrum of BMPs that will be fully operational in time.

Field implementation of the visual observation strategy for MS4 monitoring has shown promise. ALDOT already sees the advantages of examining monitoring locations from a "big picture" perspective rather than trying to discern ALDOT's contribution or lack of contribution to

receiving water pollution based on noisy numerical data. ALDOT will continue to assess the viability of the new monitoring approach throughout the Permit term.

D. Overall Program Effectiveness

No evidence has emerged to refute ALDOT's prior assessment that its established SWMP practices are meeting MS4 regulatory requirements as well as ALDOT's stormwater management objectives in a sustained manner. Since the SWMP has not changed substantially in recent years or over different MS4 permit terms, ALDOT is not expecting a different assessment as the Permit term advances, but ALDOT will continue to collect data in future years and draw reasonable conclusions, as appropriate.

IV. Future Direction of the Program

At this point in the Permit term, ALDOT has no reason to develop a major revision of the June 2020 version of the SWMPP given the sustained success of the ALDOT MS4 program. However, relatively minor SWMPP modifications are needed occasionally, which is why two revisions of the SWMPP were prepared during FY 2021, one revision was prepared during FY 2022, and another revision is being submitted with this annual report. Modifications made in the January 2022 revision of the SWMPP were discussed in the FY 2021 annual report. The SWMPP modifications made since the January 2022 revision are the following:

- updates of statuses of activities in light of FY 2022 outcomes,
- updates of ALDOT MS4 point-of-contact information because of personnel reassignments that occurred,
- inclusion in Appendix C of ALDOT-PALS and ALDOT-KALB agreements that went into effect at the beginning of FY 2022,
- inclusion in Appendix D of a map depicting the locations of major outfalls at the Mobile Area Office / Mobile District Office first inventoried and screened during the previous MS4 permit term (though those inventory and screening outcomes were mistakenly unreported, as indicated above in Section II.D) and then reviewed and screened again during FY 2022, and
- corrections of any detected inadvertent misstatements, grammatical issues, and aesthetic issues.

ALDOT will modify the SWMPP again appropriately as other needs arise.

Appendix A:

Supplemental Material for Section II.A

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

**ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary**

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
Stormwater Management Program Plan					
II.A.1; II.A.2; II.C.1; II.C.2	Stormwater Management Program Plan (SWMP)	State Design Engineer	Develop SWMP. Revise SWMP as needed throughout Permit term.	SWMP developed. Three revisions (dated 01/29/2021, 04/27/2021, and 01/10/2022, respectively) submitted during the Permit term. Another revision (dated 01/30/2023) will be submitted concurrently with this report.	All citations of the SWMP below refer to the 04/27/2021 or the 01/10/2022 version, as applicable. See Part IV for explanations of modifications found in the 01/30/2023 version of the SWMP.
IV.A.1; IV.A.2; IV.A.4; IV.B	MS4 annual reports	State Design Engineer	Compile and submit to ADEM an annual report for the previous fiscal year by January 31 of every year during which Permit is in effect.	Annual report for FY 2022 compiled and submitted to ADEM on time. All annual reports submitted on time during Permit term.	
Structural Controls Operation					
II.B.1.b.1; II.B.1.c; II.B.1.d.1	Inventory & map of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory forms. Update inventory with fully operational structural BMPs. Develop map depicting structural BMP locations; update map as structural BMPs become fully operational.	No significant revision of electronic inventory form during FY 2022. No BMPs on official inventory, but unofficial inventory maintained during FY 2022.	See SWMP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
II.B.1.b.2; II.B.1.b.3; II.B.1.c; II.B.1.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist (inspection form) for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form during FY 2022.	See SWMP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.1.b.3; II.B.1.b.4; II.B.1.b.5; II.B.1.c; II.B.1.d.1; II.B.1.d.2	Maintenance of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection maintenance. Stabilize eroded areas of structural BMPs as needed. Remove sediment and debris from structural BMPs as needed. Track maintenance work reports completed for each structural BMP.	Maintenance procedures implemented.	
Public Education & Public Involvement					
II.B.2.a; II.B.2.c.1	Implementation of ALDOT Public Education & Public Involvement (PEPI) program	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Computer Services Bureau Chief; Region Engineers	Implement PEPI program in areas served by the ALDOT MS4. Adjust program as needed.	Program implementation ongoing. No major program adjustments during FY 2022.	See SWMP (c. 3) for a description of the PEPI program.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a; II.B.2.c.2	Mechanism(s) to provide public with stormwater management information & opportunities for involvement	State Design Engineer; Computer Services Bureau Chief; Region Engineers	Maintain stormwater management content on the ALDOT Web site. Post stormwater/environmental messages online via Twitter, as appropriate. Track the number of MS4-applicable Twitter messages posted.	ALDOT Web site (including environmental-oriented pages) maintained during FY 2022. Stormwater management content published on Web site and updated as necessary. 4 ALDOT Regions had Twitter accounts during FY 2022. The 3 older Region Twitter accounts had numbers of followers in the thousands as of the end of FY 2022; the newest account had hundreds of followers. Region Twitter accounts posted multiple stormwater/environmental messages during FY 2022. 1 Region had a Facebook account with thousands of followers in FY 2022; the account posted 5 stormwater/environmental messages. The "Drive Safe Alabama" Facebook account posted 4 stormwater/environmental messages during FY 2022.	See App. C for "ALDOT Miscellaneous Community Outreach Activities: Fiscal Year 2022" for Twitter and Facebook activity summaries. See SWMPP (App. C) for a sample of typical ALDOT stormwater/environmental Twitter messages.
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.2; II.B.2.d	Publish SWMPP & MS4 annual reports online	State Design Engineer; Computer Services Bureau Chief	Publish SWMPP and annual reports on the ALDOT Web site.	Versions of SWMPP when in effect and previous annual report (for FY 2021) published on the ALDOT Web site during FY 2022.	Web site location of SWMPP and annual report as of the end of FY 2022: https://www.dot.state.al.us/programs/ms4.html
II.B.2.b.1; II.B.2.c.2	Mechanism to engage public in the development of SWMPP	State Design Engineer; Computer Services Bureau Chief	Encourage citizens to express concerns about ALDOT's SWMP through the Environmental Concern Submission Form (accessible through the ALDOT Web site).	Environmental Concern Submission Form in use to receive citizen concerns; citizen use continued to increase during FY 2022. Encouragement to express SWMP concerns provided on ALDOT Web site.	Web address of form as of the end of FY 2022: https://www.dot.state.al.us/programs/EnvironmentalConcernForm.html
II.B.2.b.2	Identification of potential pollutants to be targeted by PEPI program	Media & Community Relations Bureau Chief; State Design Engineer; State Construction Engineer; State Maintenance Engineer; Materials & Tests Engineer; Region Engineers	Identify potential pollutants.	No change in potential pollutants (litter, sediment, herbicide, and chemicals & waste materials) identified.	See SWMPP (s. 3.2) for discussion regarding pollutant identification.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Coordination with anti-litter organizations to support litter awareness campaigns & litter pickup activities	State Maintenance Engineer	Maintain agreement with at least one organization throughout Permit term. Track funding of anti-litter organizations (for PSAs, brochures, litter pickup logistics, etc.). Review activities conducted by anti-litter organization(s) supported. Track participation metrics (i.e., applications, participant totals, miles adopted) while an ALDOT-Alabama PALS agreement is in effect.	Agreements with Alabama PALS and Keep Alabama Beautiful renewed during FY 2022 and maintained. \$294,650 contributed to PALS during FY 2022. \$243,448 contributed to Keep Alabama Beautiful during FY 2022. Activity information sent by PALS and KALB for FY 2022 reviewed. Activities conducted by PALS and KALB were in line with contract expectations. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed up with PALS and KALB to determine if litter control activities are being performed in that area. During FY 2022, ALDOT processed 58 applications made by parties to participate in the PALS Adopt-A-Mile program. At the end of FY 2022, 884 parties were participating in Adopt-A-Mile, and 901.08 miles had been adopted.	See App. C for PALS and Keep Alabama Beautiful agreements that went into effect at the beginning of FY 2022. SWMPP (App. C) for all PALS and Keep Alabama Beautiful agreements. See App. C for details of PALS and Keep Alabama Beautiful FY 2022 activities and listings of route segments adopted through the PALS Adopt-A-Mile program.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Facilitation of an ALDOT anti-litter public awareness campaign	Media & Community Relations Bureau Chief	Continue implementation of the ALDOT public awareness campaign centered around anti-litter PSA. Track TV and radio ads with campaign content produced, social media posts related to campaign, and press releases related to campaign.	PSA strategy continued into FY 2022. Anti-litter PSA broadcasted by 105 radio stations and 21 TV stations throughout Alabama during FY 2022. 1 message with PSA-related content posted on "Drive Safe Alabama" Facebook account.	See App. C for PSA coverage and demographic reach information as well as message posted on "Drive Safe Alabama" Facebook account.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage with anti-litter messaging for motorists	State Maintenance Engineer	Maintain sign designs and guidelines for sign placement. Track total anti-litter signs deployed in each ALDOT Area.	Sign designs and placement guidelines maintained. 755 anti-litter signs active during FY 2022. Signs distributed among all 10 ALDOT Areas.	See App. C for "ALDOT Active Anti-Litter Signage: Fiscal Year 2022."
II.B.2.b.3; II.B.2.b.4.a.iii; II.B.2.c.2; II.B.2.c.3	Mechanism for citizen reporting of stormwater management-related concerns	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track reports received from the Environmental Concern Submission Form.	Environmental Concern Submission Form maintained. 66 issues reported via Environmental Concern Submission Form during FY 2022. 4 additional issues reported using environmental contact means found on the ALDOT Web site. Citizen reporting continued to increase during FY 2022. Concerns submitted addressed appropriately.	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2022."
II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage notifying motorists of watershed boundaries	State Maintenance Engineer	Maintain watershed boundary sign designs and guidelines for sign placement. (Deployment depends on availability of ADEM funding.) Track signs deployed.	Deployment of signs completed prior to FY 2022. Upon completion of deployment, 34 signs in total had been posted at the boundaries of 10 watersheds.	
II.B.2.b.4.a.iv	Support of environmental restoration activities	State Design Engineer	Track support (funding, logistics, insight, etc.) of environmental restoration activities.	No support given so far during the Permit term.	
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Construction stormwater awareness program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 48 employees underwent initial QCI certification in FY 2022. 4 sessions of QCI recertification training were facilitated during FY 2022; these sessions had 378 ALDOT and 126 non-ALDOT attendees for recertification purposes in total.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2022" and "ALDOT QCI Recertification Training: Fiscal Year 2022."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	11 sessions of vegetation management training (with 272 ALDOT and 113 non-ALDOT participants in all) facilitated during FY 2022. 4 sessions of the "Review for Commercial Applicator Examination" course (with 38 employee participants in all) held during FY 2022. 6 newsletters distributed during FY 2022.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2022," for "ALDOT Vegetation Management Training Course: Fiscal Year 2022," and for session agendas for CYs 2021 and 2022. See SWMPP (App. C) for example newsletter.
II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2022, 15 sessions of SPCC training, 15 sessions of universal waste training, 14 sessions of GHS training, 1 sessions of hazardous materials training for Area coordinators, and 1 session of wastewater management-related training were facilitated. In all, 261 employees participated in SPCC training, 261 employees participated in universal waste training, 247 employees participated in GHS training, 1 employee participated in the hazardous materials training for Area coordinators, and 1 employee participated in the wastewater management-related training.	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2022."
II.B.2.c.3	Support & funding of academic research projects	Research & Development Engineer	Track particular projects actively supported by ALDOT and amounts of funding provided for those projects.	7 projects actively supported during FY 2022.	See App. C for "ALDOT Stormwater Management Research: Fiscal Year 2022."
II.B.2.c.3; II.B.2.c.4; II.F.1.b	Efforts to coordinate or collaborate with other MS4s	State Design Engineer; State Maintenance Engineer; Region Engineers	Track ALDOT coordination or collaboration with other MS4s.	During FY 2022, ALDOT participated in multiple activities intended to promote coordination or collaboration between ALDOT and other MS4s.	See App. C for "ALDOT MS4 Coordination Activities: Fiscal Year 2022."
II.B.2.c.4	Participation in professional educational events (e.g., conferences, seminars, workshops) in which employees participate	Training Bureau Chief	Track events with ALDOT participation.	ALDOT participated in at least 20 events during FY 2022.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2022."
II.B.2.c.4	Youth education activities with ALDOT participation	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; Region Engineers	Track activities with ALDOT participation.	ALDOT personnel participated in multiple environmental-oriented youth education activities during FY 2022 (though these activities were fewer in number than usual due to COVID-19 pandemic).	See App. C for "ALDOT Youth Education Activities: Fiscal Year 2022."
II.B.2.c.4	Internal MS4 awareness mechanisms for employees	State Design Engineer; State Construction Engineer; State Maintenance Engineer	Track mechanisms employed.	ALDOT facilitated multiple activities to promote internal MS4 awareness during FY 2022.	See App. C for "ALDOT Internal MS4 Awareness Activities: Fiscal Year 2022."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.2.c.4	Significant participation in environmental-related efforts of applicable professional organizations	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Region Engineers	Track efforts of professional organizations in which ALDOT participated.	ALDOT participated with multiple professional organizations in various ways during FY 2022.	See App. C for "ALDOT Participation with Professional Organizations: Fiscal Year 2022."
II.B.2.c.4	Participation in community outreach meetings	Media & Community Relations Bureau Chief	Track meetings with ALDOT participation.	ALDOT participated in 1 Capital City Plume meeting during FY 2022.	See App. C for "ALDOT Community Outreach Group Meetings: Fiscal Year 2022."
Illicit Discharge Detection & Elimination					
II.B.3.a.1; II.B.3.b.4	Updating of MS4 major outfall inventory & maps	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Update major outfall inventory after ad hoc outfall identification efforts. Update existing maps annually with major outfalls added to inventory.	Inventory review conducted for Gadsden, Baldwin County, and Mobile MS4 areas as well as for Gadsden District Office, Mobile Area Office / Mobile District Office, and Tunnel Office during FY 2022. No major outfalls added to inventory. (However, it was discovered during FY 2022 that Mobile Area Office / Mobile District Office were inventoried during the previous MS4 permit term but were not reported in SWMPP or annual reports.)	See App. D for "ALDOT Major Outfall Inventory & Screening Summary."
II.B.3.a.2	Implement non-stormwater discharge policies & procedures	State Maintenance Engineer	Implement policies and procedures.	Implementation of established policies and procedures ongoing.	
II.B.3.a.3; II.B.3.b.3	IDDE training for ALDOT personnel	State Maintenance Engineer	Develop training program. Conduct training once per calendar year.	IDDE inventory and screening activities delegated to consultant to date; consultant handles training internally. ALDOT field personnel received general IDDE orientation by attending the annual Maintenance Management Meeting and through other training offerings.	See SWMPP (s. 4.7) for discussion regarding IDDE training.
II.B.3.a.4; II.B.3.b.2	Dry-weather screening of major outfalls	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Screen each major outfall at least once during Permit term. If an outfall is located within a "priority area," screening will be conducted at a frequency appropriate for specific conditions. If a flow is observed during outfall screening, source tracing/identification and reporting procedures will be implemented. Track major outfalls screened during each fiscal year.	All accessible major outfalls screened in the Gadsden, Baldwin County, and Mobile MS4 areas as well as at the Gadsden District Office, Mobile Area Office / Mobile District Office, and Tunnel Office during FY 2022. No possible illicit discharge issues observed.	See App. D for "ALDOT Major Outfall Inventory & Screening Summary."
II.B.3.a.5	Source tracing procedure for possible illicit discharges	State Maintenance Engineer	Implement source tracing procedure.	Implementation of established tracing procedure ongoing.	See SWMPP (s. 4.4) for discussion regarding tracing procedure.
II.B.3.a.6	Indicator monitoring strategy for evaluating possible illicit discharges	State Maintenance Engineer	Implement indicator monitoring strategy.	Implementation of established monitoring strategy ongoing.	See SWMPP (s. 4.4) for discussion regarding monitoring strategy.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.3.a.7	Procedures to notify ADEM of possible illicit discharges originating from sources adjacent to the ALDOT MS4	State Maintenance Engineer	Implement notification procedures.	Implementation of established notification procedures ongoing.	See SWMPP (s. 4.6) for discussion regarding reporting procedures.
II.B.3.a.8	Mechanism for citizen reporting of possible illicit discharges	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns.	Environmental Concern Submission Form in use to receive citizen concerns.	
II.B.3.b.5	Recordkeeping of possible illicit discharges reported / discovered	State Design Engineer	Track reports processed and follow-up actions taken.	2 reports of possible illicit discharge received via Environmental Concern Submission Form. Possible illicit discharges investigated, addressed, and tracked in accordance with SWMPP.	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2022."
Construction Site Stormwater Runoff Control					
II.B.4.a.1; II.B.4.b.1	Procedures to require Construction General Permit coverage for ALDOT construction sites	State Construction Engineer; State Design Engineer	Implement procedures.	Procedures incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented.	See SWMPP (ss. 5.3 & 5.4) for discussion regarding procedures.
II.B.4.a.2; II.B.4.b.2	Contract requirements for erosion & sediment control on ALDOT construction sites	State Construction Engineer	Implement requirements.	Requirements continue to be implemented in contracts with ALDOT roadway construction contractors.	See SWMPP (s. 5.4) for discussion regarding requirements.
II.B.4.a.3	Internal policies for proper permit coverage of ALDOT-contracted construction activities	State Construction Engineer; State Design Engineer; State Maintenance Engineer	Implement policies.	Policies for ALDOT-contracted roadway construction activities incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented. Policies for third-party construction on ALDOT property developed and incorporated implicitly into Forms MB-05 and MB-07 (State Maintenance Engineer) continue to be implemented.	See SWMPP (ss. 5.3, 5.4, & 5.7) for discussion regarding policies. See SWMPP (App. D) for Forms MB-05 and MB-07.
II.B.4.a.4; II.B.4.d.1	Mechanism for citizen reporting of construction site discharge concerns	State Design Engineer; Computer Services Bureau Chief; State Construction Engineer	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track concerns received from the Environmental Concern Submission Form and follow-up actions.	1 concern related to construction site stormwater runoff control submitted during FY 2022. (Concern not related to ALDOT construction activity.)	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2022."
II.B.4.a.5; II.B.4.b.3	Inspection of ALDOT construction sites at appropriate frequencies to evaluate BMP use & maintenance	State Construction Engineer	Implement inspection procedures.	Implementation of procedures detailed in ALDOT Construction Manual and Standard Specifications for Highway Construction ongoing.	See SWMPP (s. 5.4) for details regarding the inspection procedures.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.4.a.6; II.B.4.b.4; II.B.4.d.2	Construction stormwater BMP training program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 48 employees underwent initial QCI certification in FY 2022. 4 sessions of QCI recertification training were facilitated during FY 2022; these sessions had 378 ALDOT and 126 non-ALDOT attendees for recertification purposes in total.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2022" and "ALDOT QCI Recertification Training: Fiscal Year 2022."
II.B.4.a.7; II.B.4.b.5	Referral of unauthorized construction activity to ADEM	State Maintenance Engineer	Implement referral policy.	Implementation of established referral policy ongoing. No referrals made during FY 2022.	See SWMPP (s. 5.7) for discussion regarding policy.
II.B.4.a.8	Policy for site plan reviews & erosion/sediment controls to satisfy Alabama Handbook technical standards	State Construction Engineer	Implement policy.	Policy for ALDOT roadway construction activities incorporated into ALDOT Construction Best Management Practices Plan template continues to be implemented.	See SWMPP (s. 5.3) for discussion regarding policy.
II.B.4.c.2	List of construction sites in MS4-regulated areas	State Construction Engineer	Maintain list with updates as needed annually.	List updated for FY 2022. (26 permitted projects in MS4 areas during FY 2022.)	See App. E for "ALDOT MS4 Active Construction Projects (Transportation Facilities): Fiscal Year 2022."
Post-Construction Stormwater Management					
II.B.5.a.1; II.B.5.b.1	Post-construction program with specific stormwater management goals	State Design Engineer	Implement program.	Implementation of program, including "GFO 3-73: Post-Development Stormwater Management" and design guidance components, ongoing.	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management," "Determining Runoff for Small Storm Events," and "Post-Development Stormwater Risk Assessment."
II.B.5.a.2; II.B.5.a.4; II.B.5.b.1; II.B.5.b.3	Implementation of BMPs (including LID/GI practices) to mimic site predevelopment hydrology to design standard on ALDOT-constructed sites	State Design Engineer	Implement post-construction BMPs on ALDOT-constructed sites.	Implementation of BMPs ongoing. (Projects let for construction bidding on or after 04/01/2015 must be carried out in accordance with GFO 3-73.)	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.3; II.B.5.b.2	LID/GI SOP for ALDOT-constructed facilities	State Design Engineer	Implement SOP.	SOP (GFO 3-73) implementation ongoing.	See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.5	Implementation of management policies (inspection & maintenance) for post-construction BMPs at new ALDOT-constructed facilities	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP inspection and maintenance policies.	Policies implemented.	See SWMPP (ss. 6.5-6.6) for discussion regarding inspection and maintenance policies. See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.5.a.6; II.B.5.b.4; II.B.5.c.2; II.B.5.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form during FY 2022.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.5.b.5; II.B.5.c.3	Post-construction BMP operation & maintenance	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP O&M procedures. Track maintenance work reports completed.	Maintenance procedures implemented.	
II.B.5.c.1	Inventory of post-construction BMPs (let for bidding after April 2015)	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory form. Update inventory with fully operational BMPs.	No significant revision of electronic inventory form during FY 2022. No BMPs on official inventory, but unofficial inventory maintained during FY 2022.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
Pollution Prevention / Good Housekeeping					

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.6.a.1; II.B.6.b.1; II.B.6.c.1	Inventory of support facilities with pollution potential	Materials & Tests Engineer	Update inventory as needed annually.	No modification of inventory during FY 2022.	See SWMPP (App. G) for "ALDOT MS4 Support Facilities."
II.B.6.a.2; II.B.6.b.2; II.B.6.c.2; II.B.6.d.1	Support facility PPGH inspection program	Materials & Tests Engineer	Implement program to inspect support facilities on inventory annually that include checklists and correction procedures. Update program as necessary. Report inspection outcomes.	No significant updates to program during FY 2022. 18 facility inspections during FY 2022. Inspection findings addressed in accordance with SPCC Plans.	See SWMPP (s. 7.2) for discussion regarding program. See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See App. G for "ALDOT MS4 Support Facility Annual Inspections: Fiscal Year 2022."
II.B.6.a.3; II.B.6.b.3; II.B.6.c.3	Good housekeeping SOPs for support facilities	Materials & Tests Engineer	Implement SOPs. Update SOPs as necessary.	Implementation of established SOPs ongoing. No significant updates to SOPs during FY 2022.	See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See SWMPP (s. 7.2.2) for discussion regarding SOPs.
II.B.6.a.4; II.B.6.a.7.d; II.B.6.b.4; II.B.6.d.2	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2022, 15 sessions of SPCC training, 15 sessions of universal waste training, 14 sessions of GHS training, 1 sessions of hazardous materials training for Area coordinators, and 1 session of wastewater management-related training were facilitated. In all, 261 employees participated in SPCC training, 261 employees participated in universal waste training, 247 employees participated in GHS training, 1 employee participated in the hazardous materials training for Area coordinators, and 1 employee participated in the wastewater management-related training.	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2022."
II.B.6.a.5; II.B.6.a.6; II.B.6.a.8; II.B.6.b.5; II.B.6.c.4	Trash management program	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement program. Deploy trash receptacles at rest areas for motorists and at ALDOT support facilities for employees. Track maintenance work for full-width litter pickup (shoulder miles cleaned) and spot litter pickup (work reports completed) on roadways. (Additional roadway litter pickup done under contract or interjurisdictional agreement and tracked through other mechanisms.)	Trash receptacles continue to be deployed at rest areas and ALDOT support facilities. During FY 2022, 1,628.77 shoulder miles cleaned and 3,801 spot litter pickup work reports completed.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2022." See SWMPP (s. 7.3.2) for discussion regarding how roadway litter pickup work activities are performed.
II.B.6.a.7; II.B.6.b.6; II.B.6.c.5	Support facility spill prevention & response program	Materials & Tests Engineer; Region Engineers	Implement program. Update program as necessary.	Implementation of general ALDOT spill prevention and response program ongoing; no significant modifications during FY 2022. No significant revision of SPCC Plans for individual support facilities during FY 2022.	See SWMPP (s. 7.3) for overview of assessment procedure.
II.B.6.a.8	Miscellaneous transportation facility maintenance with measures for potential pollution reduction	State Maintenance Engineer	Conduct annual condition assessments of roadway features with respect to stormwater management performance-related attributes. Track maintenance work using pollution reduction methods for snow and ice control (work reports completed), cleaning minor drainage structures (structures inspected/cleaned), repairing minor drainage structures (work reports completed), and erosion control (work reports completed). (Herbicide treatment, spot herbicide treatment, and herbicide treatment surveillance addressed in work associated with Pesticides General Permit.)	Condition assessments continue to be conducted according to established procedure. Maintenance work activities conducted throughout FY 2022; work amounts tracked in accordance with SWMPP.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2022." See SWMPP (s. 7.3) for discussion regarding how activities are performed.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2022 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2022	Supplemental Information
II.B.6.d.2	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	11 sessions of vegetation management training (with 272 ALDOT and 113 non-ALDOT participants in all) facilitated during FY 2022. 4 sessions of the "Review for Commercial Applicator Examination" course (with 38 employee participants in all) held during FY 2022. 6 newsletters distributed during FY 2022.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2022," for "ALDOT Vegetation Management Training Course: Fiscal Year 2022," and for session agendas for CYs 2021 and 2022. See SWMPP (App. C) for example newsletter.
MS4 Monitoring					
II.D.2; II.D.3; II.D.4; III.A.1; III.A.6	Determination of the ALDOT MS4's potential as a practical source of POCs for 303(d) waters, TMDL waters, & receiving waters generally	State Design Engineer; State Maintenance Engineer	Assess ALDOT potential impacts with respect to various POCs on 303(d) waters, TMDL waters, and receiving waters generally in MS4-regulated areas. Reassess ALDOT impact as needed considering collected monitoring data. Forego monitoring with respect to POCs of which the ALDOT MS4 is not a practical source.	Assessment outcome of ALDOT-relevant POCs being siltation and turbidity continued to stand during FY 2022.	See SWMPP (s. 8.3) for discussion regarding assessment.
II.D.3; II.D.4; III.A.1	Determination of the effectiveness of ALDOT stormwater management practices in controlling POC discharges to meet applicable 303(d) & TMDL requirements	State Design Engineer; State Maintenance Engineer	Demonstrate that stormwater management practices employed are controlling any POC discharges to ALDOT-applicable 303(d) and TMDL waters sufficiently; use monitoring data in the demonstration for TMDLs. Adjust practices as needed.	Overall effectiveness of practices supported by monitoring observation data collected during FY 2022.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2022."
III.A.1; III.B	Assessments of the overall effectiveness of stormwater management practices with respect to stormwater management goals	State Design Engineer; State Maintenance Engineer	Conduct annual assessments of practices based on monitoring data collected. Adjust practices as needed in response to assessment.	Overall effectiveness of practices supported by monitoring observation data collected during FY 2022.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2022."
III.A.2; III.A.4; IV.B	Development & implementation of monitoring strategy	State Design Engineer; State Maintenance Engineer	Develop monitoring strategy. Update strategy as needed annually. Track monitoring activities.	Field implementation of monitoring strategy continued during FY 2022. Wet-weather and dry-weather observations conducted at all 6 monitoring locations in accordance with monitoring strategy.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2022." See SWMPP (ss. 8.4-8.5) for discussion regarding monitoring strategy.
III.A.3	Analysis of monitoring data	State Maintenance Engineer	Analyze monitoring data collected.	Data from all observations conducted during FY 2022 analyzed.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2022."
III.A.5	Coordination of monitoring with other MS4s	State Maintenance Engineer	Coordinate with other MS4s as appropriate.	No explicit coordination with other MS4s needed for monitoring so far in the Permit term.

Drive Safe Alabama

June 28 · 🌐

The state's costs to clean up roadside litter reached \$6.8 million statewide in 2019.

[#TrashCostsCash](#)

ALABAMA DEPARTMENT OF TRANSPORTATION

FOR IMMEDIATE RELEASE

June 28, 2022

Litter problems persist in Tuscaloosa

TUSCALOOSA – Fifty-one tons – the weight of approximately seven adult elephants and the equivalent of 18 filled dump trucks. That amount is how much the Alabama Department of Transportation’s litter crew picked up off state routes in Tuscaloosa County from May 2021 through May 2022.

The crew, equipped with all-terrain vehicles, gathered litter primarily within metro Tuscaloosa, though they occasionally extended their route to the county line. ALDOT first implemented the group in late 2018 with the sole responsibility of picking up litter.

ALDOT spent \$7.24 million on litter cleanup throughout the state in fiscal year 2021, money which could be better used to build and maintain roads and bridges.

“Litter continues to be an issue in our beautiful state,” said Wallace McAdory III, West Central Region engineer. “If more people took time to properly dispose of their trash, we wouldn’t have the problem we have today. I urge everyone to please take better care of our community and dispose of their litter properly.”

Litter harms the environment and has a negative impact on safety while diminishing the natural beauty of the state. According to the U.S. National Park Service, a tin can takes 50 years to decompose, while a plastic bottle takes 450 years to break down.

There are many ways for residents to keep Alabama beautiful:

- Dispose of trash properly.
- Never throw anything out of the vehicle window.
- Carry a small trash bag in the vehicle.
- Properly secure loads when hauling loose items.

ALDOT partners with Keep Alabama Beautiful, People Against a Littered State (PALS) and the Alabama Law Enforcement Agency to help keep Alabama litter-free.

ALDOT's West Central Region includes Bibb, Chilton, Fayette, Greene, Hale, Lamar, Marion, Perry, Pickens, Sumter, Tuscaloosa, Walker and Winston counties.

'Litter continues to be an issue': ALDOT picks up 51 tons of trash in a single Ala. county

ALDOT litter cleanup (ALDOT)

By WBRC Staff

Published: Jun. 28, 2022 at 10:55 AM CDT

BIRMINGHAM, Ala. (WBRC) - Between May 2021 and May 2022 the Alabama's Department of Transportation reports picking up 51 tons of trash off state routes in Tuscaloosa County. That's the equivalent of 18 dump trucks full.

Equipped with all-terrain vehicles, ALDOT crews gathered litter primarily within metro Tuscaloosa, though they occasionally extended their route to the county line. ALDOT first implemented the group in late 2018 with the sole responsibility of picking up litter.

ALDOT litter cleanup (wbrc)

ALDOT says it spent \$7.24 million on litter cleanup throughout the state in fiscal year 2021, money which could be better used to build and maintain roads and bridges.

"Litter continues to be an issue in our beautiful state," said Wallace McAdory III, West Central Region engineer. "If more people took time to properly dispose of their trash, we wouldn't have the problem we have today. I urge everyone to please take better care of our community and dispose of their litter properly."

Alternatives to littering include:

- Dispose of trash properly.
- Never throw anything out of the vehicle window.

AGREEMENT

ALABAMA PALS (People Against a Littered State)

AND

STATE OF ALABAMA DEPARTMENT OF TRANSPORTATION

THIS AGREEMENT is made and entered into by and between the Alabama PALS (People Against a Littered State), hereinafter referred to as PALS, and the Alabama Department of Transportation, hereinafter referred to as (ALDOT), for the purposes expressed herein whereas, the parties desire to engage in public promotion of the ALDOT Adopt-a-Mile program. Now, therefore, the parties, in consideration of the premises herein, do agree as follows:

Alabama PALS will:

- (1) Oversee and promote the Alabama PALS City and County Chapters Network.
- (2) Produce quarterly newsletters for Adopt-a-Mile.
- (3) Produce Adopt-a-Mile Brochures with applications.
- (4) Print, label, mail and distribute Adopt-a-Mile quarterly newsletters and brochures.
- (5) Producing public service announcements for the Adopt-a-Mile Program in accordance with the total yearly budget and services listed below:

Total Yearly Budget for Public Service Announcements \$25,000.00

- a) Filming and Editing of .30 PSA (Beta Format)
- b) In Town Travel
- c) Out of Town Travel (1 day)
- d) Purchase & Copying of three (3) ¾" Format Tapes
- e) Purchase & Copying of two (2) VHS Format Tapes
- f) Seven (7) DVD Copies (TV)
- g) One Hundred and Eighty (180) CDs for Radio
- h) Forty-four (44) Beta SP Copies (TV)
- i) Seven (7) DVD Pro Copies (TV)
- j) MP3 Copy for ABA (for AA Web Page) – Allowance for additional Copies for Chapters, etc.
- k) Three (3) Month Contract with Alabama Broadcaster's Association

- (6) Notify all Adopt-a-Mile participants of PALS statewide events such as Statewide Spring Cleanup.
- (7) Submit quarterly itemized invoices, along with all supporting documentation, covering the actual costs of providing public promotion of the ALDOT Adopt-a-Mile Program. Invoices should be submitted to: Maintenance Engineer, Dept. of Transportation, 1409 Coliseum Blvd., Montgomery, AL 36110.

(8) Provide two full-time employees to be fully supported by Alabama PALS. These employees will serve as liaisons to ALDOT to ensure that the program is fully serviced to provide exposure statewide, as well as ensuring that maximum compliance of the program is serviced, including the following:

- a) State Adopt-a-Mile Director.
- b) State Adopt-a-Mile Coordinator.
- c) These two employees shall also:
 - 1) Oversee the maintenance and compliance of miles adopted through the Alabama Adopt-a-Mile program.
 - 2) Perform annual site visits, in-person or through the County PALS Chapters, of one-third ($\frac{1}{3}$) of all known current recorded Adopt-a-Miles on federal and/or state routes to determine which groups and individuals are currently maintaining their respective miles. This will result in all Adopt-a-Mile locations being inspected at least once in every three-year period. Produce, distribute and maintain records for all miles that are inspected in each county. This list should be provided at least quarterly to ALDOT.
 - 3) Keep records of miles that are not being maintained and contact “adoptees” to determine if the group or individual wishes to remain in the Adopt-a-Mile program. In the next two newsletters PALS will include that ALL Adopt-a-Mile participants must provide to PALS current information including address, phone number, approximate number of participants, and whether they wish to continue participation in the Adopt-a-Mile program no later than May 31, 2022. All participants who fail to notify PALS by this date will be declared inactive. PALS must notify ALDOT in its July quarterly report of all inactive participants for sign removal.
 - 4) Provide list to ALDOT quarterly of miles that are not being maintained on a regular basis.
 - 5) Provide a list quarterly of all Adopt-a-Mile signs that need to be removed for failure to comply with the requirements of the program.
 - 6) Recruit new “adoptees” for miles where signs have been removed.

Programs Coordinated:

Adopt-a-Mile
Adopt-a-Stream
Statewide “Don’t Drop It On Alabama” Spring Cleanup
Alabama Coastal Cleanup
Annual Awards Program

(9) Providing a written report quarterly to ALDOT of the PALS activities to include:

- a) Listing of new participants & miles adopted
- b) Listing and date of contacts made
- c) Listing of groups terminating participation
- d) Report of statewide mailings
- e) Listing of all public service announcements that ran including which stations and dates and times

(10) Obtain or fabricate signs that meet ALDOT specifications for signage for local routes and provide signs for adopted county routes. These signs should be shipped at the lowest United States Postal Rate to the District Office listed on the Adopt-a-Mile application.

(11) Review Adopt-a-Mile applications to ensure that they are in final form before submitting them to ALDOT District Office.

(12) Maintain the Adopt-a-Mile database and provide at least quarterly to ALDOT or upon request at the same time providing the quarterly report.

(13) Provide safety vests for all individuals participating in the Adopt-a-Mile litter campaign. PALS will be responsible for informing all Adopt-a-Mile groups that all participants are required to wear these safety vests at any time they are picking up trash on the right-of-way. This notification must take place no later than January 1, 2022.

ALDOT will:

(14) Oversee the Adopt-a-Mile program.

(15) Process the Adopt-a-Mile applications.

(16) Erect Adopt-a-Mile signs on State routes in accordance with the ALDOT Adopt-a-Mile program.

(17) Provide litterbags for Adopt-a-Mile participants as required.

(18) Provide removal and disposal of litter collected by Adopt-a-Mile participants as required.

(19) Reimburse Alabama PALS a maximum of two hundred and ninety-five thousand dollars (\$295,000.00) for each fiscal year in accordance with the proposed budget listed below:

<u>Salaries</u>	<u>Budgeted Amount</u>

Alabama PALS agrees that all promotional materials and programs must receive final approval of ALDOT prior to distribution or implementation.

Alabama PALS agrees that all reimbursed expenses will be for those expenses solely expended for the public promotion of the ALDOT Adopt-a-Mile program.

(20) It is agreed that the terms and commitments contained herein shall not be constituted as a debt of the State of Alabama in violation of Article 11, Section 213 of the Constitution of Alabama 1901, as amended by Amendment Number 26. It is further agreed that if any provision of this Agreement shall contravene any statute or Constitutional provision of amendment, either now in effect of which may, during the course of this Agreement, be enacted, then the conflicting provision in the Agreement shall be deemed null and void.

(21) If the Agreement term is to exceed more than one fiscal year, then said Agreement is subject to termination in the event that funds should not be appropriated for the continued payment of the Agreement in subsequent fiscal years. In the event of proration of the fund, from which payment under this Agreement is to be made, Agreement will be subject to termination. This Agreement can be terminated by either party upon thirty days written notice to the other party.

(22) In the event of any dispute between the parties, senior officials of both parties shall meet and engage in a good faith attempt to resolve the dispute. Should that effort fail and the dispute involves the payment of money, a party's sole remedy is the filing of a claim with the Board of Adjustment of the State of Alabama. For any other disputes arising under the terms of this Agreement which are not resolved by negotiation, the parties agree to utilize appropriate forms of non-binding alternative dispute resolution including, but not limited to, mediation. Such dispute resolution shall occur in Montgomery, Alabama utilizing where appropriate, mediators selected from the roster of mediators maintained by the Center for Dispute Resolution of the Alabama State Bar.

(23) Alabama PALS, its employees, agents, successors, assigned, contractors, or subcontractors shall defend, indemnify and hold harmless the State of Alabama, Alabama Department of Transportation and their officials, employees, contractors, servants, or agents, in both their official and individual capacities, from and against any and all claims, damages, losses, actions, causes of actions, losses or expenses of any nature whatsoever, regulatory actions, administrative actions, quasi-administrative or quasi-judicial actions or procedures, State, Federal or otherwise, of any nature whatsoever, whether known or unknown, including but not limited to compensatory damages, punitive damages, damages for any injury to person or property, tangible or intangible, or any form of monetary or compensatory relief declaratory or injunctive relief, or any form of relief or remedy of any nature whatsoever, whether known or unknown, or attorney fees, costs, or expenses, caused by or rising out of, resulting from or in any way related to the performance of any work, conduct or activity performed or failed to be performed by the Alabama PALS in connection with the performance of any of the provisions of this Agreement.

(24) By entering into this agreement, Alabama PALS is not an agent of the State, its officers, employees, agents or assigns. Alabama PALS is an independent entity from the State and nothing in this agreement creates an agency relationship between the parties.

(25) The Alabama PALS and its employee(s) will not be subject to the provisions of, nor entitled to, the benefits of the State merit law or State employee benefits, including State employee health insurance.

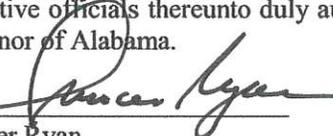

(26) The Alabama PALS will permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the State of Alabama Department of Transportation to be pertinent to ascertain compliance with its instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Alabama PALS shall so certify to the State of Alabama Department of Transportation and shall set forth what efforts he has made to obtain the information.

(27) By signing this contract, the contracting parties affirm, for the duration of the agreement, that they will not violate federal immigration law or knowingly employ an unauthorized alien within the State of Alabama. Furthermore, a contracting party found to be in violation of this provision shall be deemed in breach of the agreement and shall be responsible for all damages resulting therefrom.

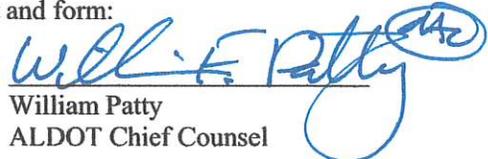

(28) In compliance with Act 2016-312, the Contractor is not currently engaged in, and will not engage in, the boycott of a person or an entity based in or doing business with a jurisdiction with which this state can enjoy open trade.

(29) THIS AGREEMENT is in effect for the period beginning October 1, 2021 and ending September 30, 2023.

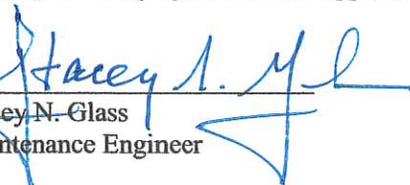

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their respective officials thereunto duly authorized, the Agreement to be effective on the approval date by the Governor of Alabama.

By: 
Spencer Ryan
Director, Alabama PALS

This agreement has been legally reviewed as to content and form:

By: 
William Patty
ALDOT Chief Counsel

Funding for this project has been approved and obligated.

By: 
Stacey N. Glass
Maintenance Engineer

APPROVED

By: 
John R. Cooper
Transportation Director

The foregoing Agreement is hereby approved by the Governor of Alabama, on the 5th day of August, 2021.

Kay Ivey
Governor of Alabama

**Specifics as Related to Contract October 1, 2021-September 30, 2023
First Quarter Reporting Period 10/01/2021 – 12/30/2021**

The contract for 2019-21 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in July 2019, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of December 31, 2019) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (see **attachments**) for Adopt A Mile and Adopt a Stream programs during the Fourth Quarter of 2020-21. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2021 Alabama PALS Statewide Governor's Awards Program

Due to COVID19 restrictions, The in person 2020 Alabama PALS Governor's Awards was cancelled.

PALS changed the procedure for 2020 Governor's Awards Program due to Covid-19. Changes were made, Alabama PALS scheduled the presentation of all awards on a local basis or by Zoom conference for all winning nominations. Awards were presented at County Commissions, City Council, schools etc. meetings.

The 2021 Governors Awards Program was held on November 17, 2021. Over 250 leaders, volunteers, city and county representative attended the 2021 Alabama PALS Governors Awards program. 31 awards were presented.

New Adoptees and Miles Adopted 10/01/21-12/30/21 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly reports.

Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

Margaret continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Office Correspondence

Margaret remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

Proposal for Updating Adopt A Mile Procedures

PALS met with Stacey Swindle in late September to discuss the need to have all AAM documents and applications accepted with signatures for E-Sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-signature, therefore eliminating documents having to be mailed, and eliminating paperwork for ALDOT engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web based data base for the Adopt A Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacey Swindle is working with PALS to move both of these proposals forward.

The 2021 “Don’t Drop It On Alabama” Statewide Cleanup

The 2021 Spring Cleanup rann the entire month of April 2021, with some counties extending their respective cleanups into May and June 2021. PALS will continue to work with the Association of County Commissions to continue cleanups in a 67 counties.

To date, over 655 tons have been reported as picked up during the 2021 cleanup effort. Reports are still being received and PALS will work with each city, county or volunteer group cleanup to give them additional time to participate if needed.

The 2022 “Don’t Drop It On Alabama” Spring Cleanup is scheduled for April 2022.

Materials and supplies for the 2022 Spring Cleanup have been ordered and will warehoused for distribution beginning March 15, 2022.

Materials and Supplies Furnished for 2022 Spring Cleanup

150,000 Large Trash Bags w/ PALS Corporate Sponsors and Partners Logo’s
2022 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt A Mile brochures
Adopt A Stream brochures
Alabama Clean Campus Program brochures
Adopt an Area brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS/ALDOT Public Service Announcement (2021 ABA Totals Emailed to Stacey Swindle)

The NEW 2021 PALS/ALDOT PSA ran from June -August 2021. The 3 month contract with the Alabama Broadcasters Association is for the months of June– August 2020.

The 2021 NEW PSA received air time on Radio and Television slots for the 3 month period and received over \$ 244,000 worth of statewide air time for the \$ 25,000 investment.

As in past years, air time and scheduling reports from the Alabama Broadcasters Association will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti littering PSA on the PALS webpage and Facebook page.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

Adopt a Mile Inspections

This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

The AAM inspections focused on the Central Zone for 2021 and began in April 2021. The inspections were completed in May 2021 and all updated data has been entered. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

Materials Furnished for 2021 AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways

List of all adopted miles in each Central Zone County (state/federal)

List and contacts of ALDOT offices in South Zone

HI VIZ Vehicle Safety Lights

HI VIZ Safety Vests

PALS/ALDOT Inspection program magnetic vehicle signs

Vehicle furnished by Paul Claborn (Albertville, AL)

Prepaid Gas Cards for Intern

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly reports.

Over 50 new applicants have received signs during the period January 1, 2022-June 30, 2022, the fastest growing period to date.

Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

PALS continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Office Correspondence

PALS remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

Proposal for Updating Adopt A Mile Procedures

PALS met with Stacey Swindle in late September to discuss the need to have all AAM documents and applications accepted with signatures for E-Sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-signature, therefore eliminating documents having to be mailed, and eliminating paperwork for ALDOT engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web based data base for the Adopt A Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacey Swindle is working with PALS to move both of these proposals forward.

PALS met with Stacey Swindle on July 7, 2022 to discuss new wordage on all new AAM applications, as well as moving ahead with proposed DOCUSIGN use on Adopt A Mile applications in the future. Upon final approval, PALS will make all necessary changes to have all forms and applications emailed to ALDOT engineers using DOCUSIGN to aid in the elimination of paperwork, as well as to speed up the application process for volunteer groups.

The discussion also included the use and purchase of ALDOT spec safety vests for volunteer use during cleanups held on US and State highways. PALS will order the ALDOT spec vests moving forward.

During the meeting, Todd Jones with ALDOT updated the attendees of the positive attributes of going to a web based data base for the Adopt A Mile program. The project will move forward with input from PALS and ALDOT, and the new data base should be completed by early Summer of 2023.

The 2022 “Don’t Drop It On Alabama” Statewide Cleanup

The 2022 Spring Cleanup ran April 2022, with some counties extending their respective cleanups into May and June and July 2022. PALS will continue to work with the Association of County Commissions to continue cleanups in 67 counties.

Over 450 tons have reported as picked up during the 2022 cleanup effort to date, with several counties completing cleanup efforts in July. Reports are still being received and PALS will work with each city, county or volunteer group cleanup to give them additional time to participate if needed.

The 2023 “Don’t Drop It On Alabama” Spring Cleanup is scheduled for April 2023.

Materials and supplies for the 2022 Spring Cleanup were distributed in March 2022.

In 2022, the Alabama Community College Systems partnered with local communities to extend the cleanup all ACCS campuses and respective communities

Materials and Supplies Furnished for 2022 Spring Cleanup

150,000 Large Trash Bags w/ PALS Corporate Sponsors and Partners Logo's

PALS/ALDOT Public Service Announcement (2021 ABA Totals Emailed to Stacey Swindle/ALDOT)

The 2022 PALS/ALDOT PSA will run from July 15th -October 15th 2022. The 3 month contract with the Alabama Broadcasters Association is for the months of July- August 2022.

The 2021 NEW PSA received air time on Radio and Television slots for the 3 month period and received over \$ 244,000 worth of statewide air time for the \$ 25,000 investment.

As in past years, air time and scheduling reports from the Alabama Broadcasters Association will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti littering PSA on the PALS webpage and Facebook page.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

2022 Adopt a Mile Inspections

This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

The AAM inspections focused on the North Zone for 2022 and began in March 2022. The inspections were completed in late June 2022 and all updated data will be entered into data base.. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

Materials Furnished for 2022 AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways

List of all adopted miles in each Central Zone County (state/federal)

List and contacts of ALDOT offices in South Zone

HI VIZ Vehicle Safety Lights

HI VIZ Safety Vests

PALS/ALDOT Inspection program magnetic vehicle signs

Vehicle furnished by Paul Claborn (Albertville, AL)

Prepaid Gas Cards for Intern

PALS/Adopt A Mile Newsletter (included)

The Winter PALS/Adopt A Mile Newsletter was completed and mailed statewide in early January 2022. PALS has the statewide in e-letter form online at alpals.org.

The PALS/Adopt A Mile Newsletter is mailed to all Adopt A Mile, Adopt A Stream, Adopt An Area, Spring Cleanup participants, Clean Campus schools, Coastal Cleanup Captains, PALS members and PALS County Chairmen etc.

The total mailing is approximately 5,600. Applications for all "adopta" programs are included in each newsletter and are processed in the PALS office for adoption. Adopt a Mile reporting forms are also included in the newsletter.

The 2022 Summer Newsletter will be mailed statewide by in early July 2022.

The Alabama Coastal Cleanup

The 2021 Alabama Coastal Cleanup was held September 18 and 19th 2021. Materials Distribution Day was held at 5 Rivers Delta Center in Spanish Fort on September 15th, 16th and 17th 2021. 30 zones participated and over 4,500 volunteers participated, picking up approx.. 44,000 lbs. of litter and recyclable plastics and aluminum.

The 2022 Alabama Coastal Cleanup is scheduled for September 17, 2022 and will mark Alabama's 35th year Anniversary of participating in the International Coastal Cleanup.

Alabama PALS provides all cleanup supplies and materials for 31 Coastal Zones.

12,000 Large Heavy Duty Trash Bags

Recycling Bags

Tee shirts for Volunteers, Zone Captains, staff etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 Zones

Alabama's Coastal Cleanup

Get the Trash out of the Splash!

On Saturday, September 17, 2022, thousands of volunteers will head towards the beaches, lakes, and streams of Alabama to remove trash and debris on land and under the water. Volunteers of all ages will form the largest one-day volunteer event in the state on behalf of clean oceans and waterways — Alabama's Coastal Cleanup.

During last year's cleanup, many dedicated volunteers braved rainy weather and were able remove 26,336 pounds of debris. We are proud of our volunteers and look forward to a successful 2022 cleanup!

Pollution prevention is the key

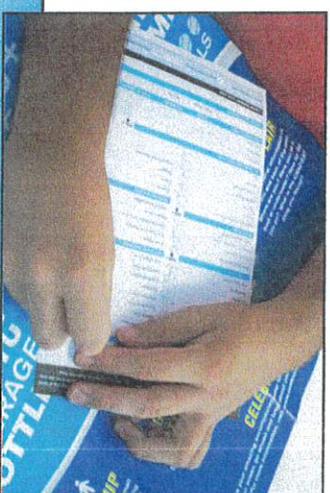

Alabama's Coastal Cleanup isn't just about pollution cleanup — it's also about pollution prevention. The event focuses on educating and empowering people to become a part of the marine debris solution.

What makes the Alabama Coastal Cleanup unique is its data collection component.

Volunteers record specific types of marine debris being found, allowing Ocean Conservancy, sponsor of the International Coastal Cleanup, to compile, analyze and track this data year-by-year and make discoveries about the behaviors that cause the debris.

The final information is used to educate the public, business, industry, and government officials about the problem. We believe understanding the problem is the key to finding long-lasting solutions.

The Alabama Coastal Cleanup is coordinated by

Over the past 34 years...

--105,785 volunteers have participated in the Alabama Coastal Cleanup.

--6,509 miles of coastline have been cleaned.

--1,734,224 pounds of debris have been removed.

visit www.alabamacoastalcleanup.com or call 251-624-1216

Marine debris is dangerous

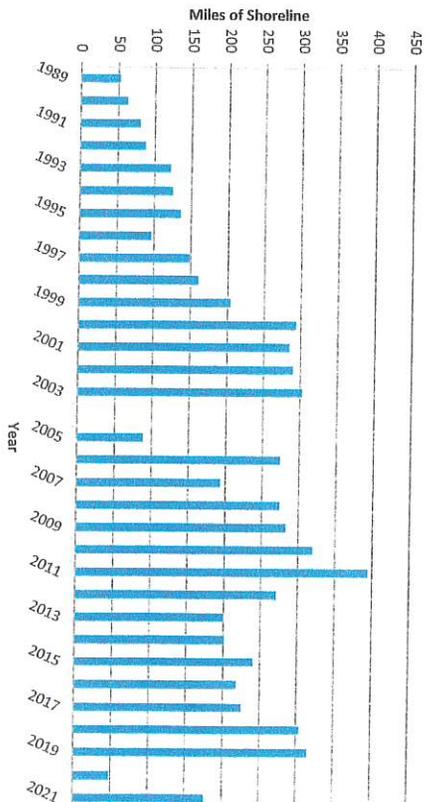

Marine debris negatively impacts coastal and marine animals. Animals may become entangled in discarded fishing gear, or they could ingest debris. For example, a plastic sandwich bag floating in the ocean can easily be mistaken for a jellyfish, a favorite food of sea turtles. If ingested, the results could be fatal. Ending marine debris will help us all protect marine-life.

Ten things you can do to help prevent marine debris

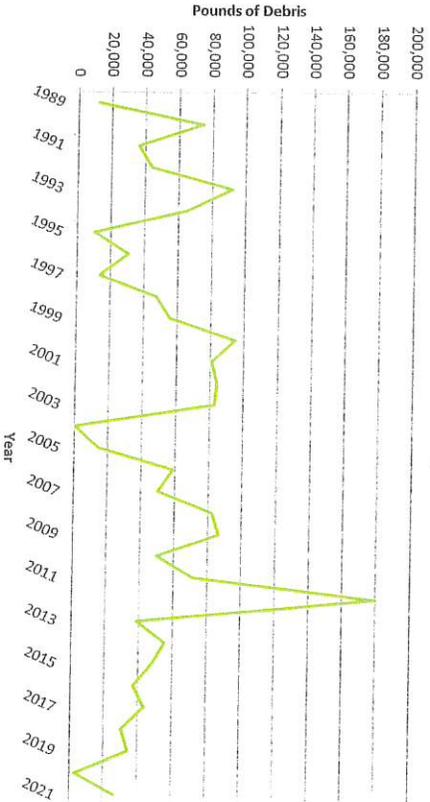

1. Join Alabama's 35th Annual Coastal Cleanup on September 17th.
2. Clean up your trash, even when not near the water. A vast majority of trash in our waterways comes from land-based activities. Even trash discarded miles inland can make it to the ocean, carried by the rain and the winds.
3. Retrieve your monofilament fishing line. Don't leave fishing line in the water and remove others' when you find it, but be careful not to tug on snagged lines that could be caught on important habitat below the surface. ALWAYS be aware of hooks that may be left on the line.
4. Contain and properly clean spills when boating. Use oil-absorbent rags or even diapers to clean spills. Ocean Conservancy's Good Mate program can provide you with plenty of tips for reducing impact when on the water.
5. Recycle used motor oil and oil filters. Your local gas station should have facilities for recycling these materials. Never pour oil, paint, antifreeze, or other household chemicals into an open sewer.
6. Better yet, find alternatives to household chemicals. Don't use fertilizers, pesticides, and herbicides that can wash into open waters. Use lemon juice, vinegar, and baking soda for household cleaning.
7. Become a storm drain sentry. Stencil your local drains to remind people where the things they dump there end up...and of the potential consequences.
8. Use reusable cloth bags for groceries. Take them with you when you shop to reduce the number of plastic bags you use. In addition to being ugly, plastic bags can be harmful to marine wildlife when mistaken for food.
9. Properly dispose of used batteries and electronics. Use your local recycling center. Electronics leach harmful chemicals into the environment. Once there, these toxic pollutants can affect the environment for decades.
10. Contact your elected representatives. Let them know you care about the effects of marine debris and that you are watching what they do to stop it. Then, vote for candidates who support of marine debris prevention and are good stewards of our ocean.

**Specifics as Related to Contract October 1, 2021-September 30, 2023
Fourth Quarter Reporting Period 07/01/2022 – 09/30/2022**

The contract for 2021-23 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in June 2021, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of December 31, 2019) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (**see attachments**) for Adopt A Mile and Adopt a Stream programs during the Third Quarter of 2021-22. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2021 Alabama PALS Statewide Governor's Awards Program

The 2021 Governors Awards Program was held on November 17, 2021. Over 250 leaders, volunteers, city and county representative attended the 2021 Alabama PALS Governors Awards program. 31 awards were presented.

The 2022 Governor's Awards are scheduled for November 16, 2022.

New Adoptees and Miles Adopted 07/01/22-09/30/22 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly reports.

Over 50 new applicants have received signs during the period January 1, 2022-June 30, 2022, the fastest growing period to date.

Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

PALS continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Office Correspondence

PALS remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

Proposal for Updating Adopt A Mile Procedures

PALS met with Stacey Swindle in late September to discuss the need to have all AAM documents and applications accepted with signatures for E-Sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-signature, therefore eliminating documents having to be mailed, and eliminating paperwork for ALDOT engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web based data base for the Adopt A Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacey Swindle is working with PALS to move both of these proposals forward.

PALS met with Stacey Swindle on July 7, 2022 to discuss new wordage on all new AAM applications, as well as moving ahead with proposed DOCUSIGN use on Adopt A Mile applications in the future. Upon final approval, PALS will make all necessary changes to have all forms and applications emailed to ALDOT engineers using DOCUSIGN to aid in the elimination of paperwork, as well as to speed up the application process for volunteer groups.

The discussion also included the use and purchase of ALDOT spec safety vests for volunteer use during cleanups held on US and State highways. PALS will order the ALDOT spec vests moving forward.

During the meeting, Todd Jones with ALDOT updated the attendees of the positive attributes of going to a web based data base for the Adopt A Mile program. The project will move forward with input from PALS and ALDOT, and the new data base should be completed by early Summer of 2023.

Todd Jones/ALDOT gave an update of web based website for Alabama PALS through an email to Stacey Swindall and PALS staff in August 2022, stating that project had begun and target date would be Spring/Summer 2023.

Christy Waddell, State Adopt A Mile Coordinator has implemented several new items for maintaining compliance, updates and correspondence with current and future Adopt A Mile participating groups. One is a brochure (enclosed) that will be sent to each adoptee upon their 2 year anniversary with the program. This will indicate if the group still intends to actively participate, or be removed from the active roll. Christy is also working to identify additional miles from past years that are not actively participating or are in need of new and updated signage.

The 2022 "Don't Drop It On Alabama" Statewide Cleanup

The 2022 Spring Cleanup ran April 2022, with some counties extending their respective cleanups into May and June and July 2022. PALS will continue to work with the Association of County Commissions to continue cleanups in 67 counties.

Over 550 tons have reported as picked up during the 2022 cleanup effort to date, with several counties completing cleanup efforts in July. Reports are still being received and PALS will work with each city, county or volunteer group cleanup to give them additional time to participate if needed.

The 2023 “Don’t Drop It On Alabama” Spring Cleanup is scheduled for April 2023.

Materials and supplies for the 2022 Spring Cleanup were distributed in March 2022.

In 2022, the Alabama Community College Systems partnered with local communities to extend the cleanup all ACCS campuses and respective communities

PALS/ALDOT Public Service Announcement (2021 ABA Totals Emailed to Stacey Swindle/ALDOT)

The 2022 PALS/ALDOT PSA will run from July 15th -October 15th 2022. The 3 month contract with the Alabama Broadcasters Association is for the months of July– August 2022.

The 2021 NEW PSA received air time on Radio and Television slots for the 3 month period and received over \$ 244,000 worth of statewide air time for the \$ 25,000 investment.

As in past years, air time and scheduling reports from the Alabama Broadcasters Association will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti littering PSA on the PALS webpage and Facebook page.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

2022 Adopt a Mile Inspections

This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

The AAM inspections focused on the North Zone for 2022 and began in March 2022. The inspections were completed in late June 2022 and all updated data will be entered into data base. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

Materials Furnished for 2022 AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways

AGREEMENT

**BETWEEN KEEP ALABAMA BEAUTIFUL (KALB)
AND
THE STATE OF ALABAMA
DEPARTMENT OF TRANSPORTATION (ALDOT)**

This agreement is made and entered into by and between the State of Alabama, (acting by and through the Alabama Department of Transportation), hereinafter referred to as ALDOT; and Keep Alabama Beautiful, hereinafter referred to KALB, for the purpose of providing public promotion of the ALDOT anti-litter program.

A. KALB agrees to provide the following:

1. Oversee and promote the KALB affiliate network
2. Create and maintain a KALB online presence with a website
3. Develop and maintain a social media presence via Facebook and Twitter
4. Coordinate and notify all KALB affiliates of statewide events including the Great American Cleanup
5. Organize and implement programs to increase awareness to reduce littering
6. Develop and hold public education events
7. Submit quarterly itemized invoices with all supporting documentation, covering actual costs of providing public promotion of the KALB Program
8. Provide two part-time employees to be paid by KALB. These employees, along with KALB's Director (State Leader), will serve as liaisons to ALDOT to ensure that the program is fully serviced to provide exposure statewide, as well as ensuring that maximum compliance of the program is serviced including the following:
 - a) Keep Alabama Beautiful Director
 - b) Keep Alabama Beautiful Affiliate Coordinator
9. The employees listed in Section 8 shall also:
 - a) Oversee the Keep Alabama Beautiful education and cleanup events
 - b) Perform annual site visits to KALB affiliates
 - c) Keep records of all KALB cleanup events and education events to include specifics on number of volunteers, volume of litter collected, volume of recyclables collected, list of material collected for recycling, number of education events held, number of volunteers assisting with education events, number of adult attendees, number of student attendees. These lists shall be submitted on a collective statewide basis, unless otherwise requested by ALDOT.

- d) Provide quarterly updates to ALDOT on new KALB affiliates and any KALB affiliates that become inactive
 - e) Recruit new KALB affiliates to maximize the number of cleanups across the state and increase the awareness and education programs parameters
10. Provide a written quarterly report to ALDOT of KALB activities to include:
- a) List of cleanups held, volumes of litter collected, number of volunteers, list of partner organizations
 - b) List of education events held, number of volunteers, list of partner organizations, number of attendees
 - c) List of new KALB affiliates, inactivated affiliates, etc.
 - d) List of all public service announcements that air to include air schedules
 - e) List of all billboard messages and locations
11. Provide safety vests for all individuals participating in cleanup events and participating in other KALB activities where litter will be removed. KALB will also be responsible for informing all participants that safety vests should be worn when they are picking up litter. KALB is also responsible for making sure that KALB affiliates are aware that Hold Harmless documents should be signed and maintained by KALB affiliates holding cleanup events.

B. ALDOT agrees to provide the following:

- 1. Oversee KALB oversight and promotion of the affiliate network
- 2. Provide litterbags for KALB participants as required
- 3. Provide removal and disposal of litter collected by KALB participants as required
- 4. Reimburse KALB a maxim for the fiscal year in accordance with the proposed budget listed below:

Salaries

KALB State Director	\$ 41,000
KALB Coordinator	\$ 9,000

Travel (Actual Expenses)**

State Director	\$ 6,500
Coordinator	\$ 500

Other (Actual Expenses)**

Statewide Cleanup Materials, Storage, Supplies, & Shipping	\$ 80,000
Promotion*	\$ 98,000

Public Service Announcements*	\$ 5,000
<u>Safety Vests</u>	<u>\$ 10,000</u>
Total Yearly Budget	\$ 250,000

*KALB agrees that all promotional materials and programs must receive final approval of ALDOT prior to distribution or implementation.

**KALB agrees that all reimbursed expenses will be for those expenses solely expended for the public promotion of the ALDOT anti-litter program.

C. Funds shall not be constituted as a debt:

It is agreed that the terms and commitments contained herein shall not be constituted as a debt of the State of Alabama in violation of Article 11, Section 213 of the Constitution of Alabama 1901, as amended by Amendment Number 26. It is further agreed that if any provision of this Agreement shall contravene any statute or Constitutional provision of amendment, either now in effect of which may, during the course of this Agreement, be enacted, then the conflicting provision in the Agreement shall be deemed null and void.

D. Termination due to Insufficient funds:

1. If the Agreement term is to exceed more than one fiscal year, then said Agreement is subject to termination in the event that funds should not be appropriated for the continued payment of the Agreement in subsequent fiscal years.
2. In the event of proration of the fund, from which payment under this Agreement is to be made, Agreement will be subject to termination.
3. This Agreement can be terminated by either party upon thirty days written notice to the other party.

E. Dispute Resolution:

In the event of any dispute between the parties, senior officials of both parties shall meet and engage in a good faith attempt to resolve the dispute. Should that effort fail and the dispute involves the payment of money, a party's sole remedy is the filing of a claim with the Board of Adjustment of the State of Alabama. For any other disputes arising under the terms of this Agreement which are not resolved by negotiation, the parties agree to utilize appropriate forms of non-binding alternative dispute resolution including, but not limited to, mediation. Such dispute resolution shall occur in Montgomery, Alabama utilizing where appropriate, mediators selected from the roster of mediators maintained by the Center for Dispute Resolution of the Alabama State Bar.

F. Hold Harmless:

KALB, its employees, agents, affiliates, successors, assigned, contractors, or subcontractors shall defend indemnify and hold harmless the State of Alabama, Department of Transportation and their officials, employees, contractors, servants, or agents, in both their officials, employees, contractors, servants, or agents, in both their

official and individual capacities, from and against any and all claims, damages, losses, actions, causes of actions, losses or expenses of any nature whatsoever, regulatory actions, administrative actions, quasi-administrative or quasi-judicial actions or procedures, State, Federal, or otherwise, of any nature whatsoever, whether known or unknown, including but not limited to compensatory damages, punitive damages, damages for any injury to person or property, tangible or intangible, or any form of monetary or compensatory relief declaratory or injunctive relief, or any nature whatsoever, whether known or unknown, or attorney fees, costs, or expenses, caused by or rising out of, resulting from or in any way related to the performance of any work, conduct or activity performed or failed to be performed by KALB in connection with the performance of any of the provisions of this Agreement.

G. Non-Agent Clause:

By entering into this agreement, KALB is not an agent of the State, its officers, employees, agents or assigns. KALB is an independent entity from the State and nothing in this agreement creates an agency relationship between the parties.

H. Merit Law:

KALB employees and affiliates will not be subject to the provisions of, nor entitled to, the benefits of the State merit law or State employee benefits, including State employee health insurance.

I. Information and Reports:

KALB will permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the ALDOT to be pertinent to ascertain compliance with its instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, KALB shall so certify to ALDOT and shall set forth what efforts he has made to obtain the information.

J. Certificate of Compliance with ACT 2016-312:

In compliance with Act 2016-312, the Contractor is not currently engaged in, and will not engage in, the boycott of a person or an entity based in or doing business with a jurisdiction with which this state can enjoy open trade.

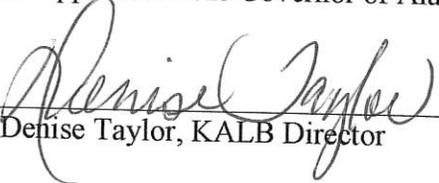

K. Immigration Clause:

By signing this contract, the contracting parties affirm, for the duration of the agreement, that they will not violate federal immigration law or knowingly employ, hire for employment, or continue to employ an unauthorized alien within the State of Alabama. Furthermore, a contracting party found to be in violation of this provision shall be deemed in breach of the agreement and shall be responsible for all damages resulting therefrom.

L. Period of Agreement:

THIS AGREEMENT is in effect for the period beginning October 1, 2021 and ending September 30, 2023.

IN WITNESS WHEREOF, the parties hereto cause this agreement to be executed by those officers, officials, and persons thereunto duly authorized, and the agreement is deemed to be effective on the date stated hereinafter as the date of the approval of the Governor of Alabama.

BY: 
Denise Taylor, KALB Director

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

The radio portion of “Trash Talk” continued airing with emphasis on sports focused stations. Paid radio commercials for “Trash Talk” totaled 153 during AM sports talk shows. “Trash Talk”, voiced by Greg McElroy and Cole Cubelic, was highlighted during the Mc & Cubelic Show on WJOX 94.5FM. The spot also aired on other stations as a PSA during the time period. The video component of “Trash Talk” with a football theme began airing via digital and cable stations as well as on streaming channels. The annual “Thankful” campaign also aired on strategically selected cable and streaming channels with a diverse viewership. More than 2613 cable commercials aired during portions of November and December.

Our collaboration with Alabama Media Group placed digital placards/videos during football season and basketball season promos for Auburn University and The University of Alabama. To increase awareness of Keep Alabama Beautiful we included sports sponsored videos which performed very well. This time period continued the multi-platform creative produced in 2020 “Keep It in the Car” and included “Trash Talk”.

Metrics for the 3-month period are below.

Impressions: 1,907,653

Views: 746,283

Interactions: 19,648

Shares: 2,090

Actual Time Viewed: 1,534,017 minutes / 25,567 hours (equivalent of 5,056,656 :30-second commercials)

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

Keep Alabama Beautiful participated in the Alabama League of Municipalities Meeting held in Tuscaloosa to promote municipality participation in year-round litter prevention programs and cleanup events across the state. Conversations were held with more than 500 representatives. Litter prevention initiatives will begin in 10 new cities/towns before the end of September. Digital billboards, "Keep It In The Car" campaign, were placed in Tuscaloosa to include the week of the ALM Meeting with the partnership logo.

Public Service Announcements aired on iHeartMedia stations across the state during April-June to coincide with Keep America Beautiful's Annual Great American Cleanup program. The creative produced in 2020 used for this was "Keep It In The Car" and "Keep It In The Boat".

Our collaboration with Alabama Media Group placed digital placards/videos with their coverage of the NFL draft and basketball coach interviews for Auburn University and The University of Alabama. To increase awareness of Keep Alabama Beautiful we included sports sponsored videos which performed very well. This time period continued the multi-platform creative produced in 2020 "Keep It in the Car" and "Trash Talk".

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

During the 4th Quarter 27 digital billboards were placed around the state using creative from 2020, "Keep It In The Car" campaign with Keep Alabama Beautiful's logo and ALDOT's logo and the partnership statement. The litter prevention message appeared in locations chosen for high visibility. Below is the detail for number of time message was delivered per month in each city, per LAMAR.

August:

Mobile = 556,120 impressions

September

Mobile = 434,806 impressions

Montgomery = 3,369,230 impressions

Birmingham = 1,552,086 impressions

Tuscaloosa = 1,963,416 impressions

September Total Impressions = 7,319,538

Total Impressions August & September = 7,875,658.

Public Service Announcements continued in to air on iHeartMedia stations across the state during July-September. The creative produced in 2020 "Keep It In The Car" and "Keep It In The Boat" were used.

Keep Alabama Beautiful had a presence at music and art festivals to increase litter prevention awareness in several cities during July - September including; BOOM Days in Fort Payne, Weiss Lake Music Festival in Cherokee County, Foothills Music Festival in Jasper. Festival attendees were given reusable litter bags to keep in their vehicles to encourage keeping trash in their vehicles until it can be disposed of in a trash can. Keep Alabama Beautiful supplied cleanup tools to the City of Birmingham/Keep Birmingham Beautiful and surrounding cities that were competition venues during World Games.

With a grant provided by the American Beverage Association and Alabama Beverage Association, Keep Alabama Beautiful has been able to place recycling receptacles in high volume pedestrian traffic areas in Birmingham, Decatur and Oxford. Not only will these encourage recycling, it will help to reduce overflow of trash receptacles, in those areas, which often results in increased litter on sidewalks and roadways.

Reusable litter bags have also been distributed at partner convenience stores to interested customers. Store owners/employees thank customers for keeping our roadways clean by putting trash in the bags until it can be placed in trash cans.

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

**ALDOT Youth Education Activities:
Fiscal Year 2022***

Activity	Date(s)	Notes
ASCE Gulf Coast Student Symposium	03/31/2022 - 04/02/2022	ALDOT employees served as judges for civil engineering-inspired undergraduate student competitions. Environmental/water resources-related competitions included "Sustainable Solutions," "Hydraulics," and "Environmental." Held at Auburn University.
Bay Bites 2022	08/27/2022	ALDOT Southwest Region personnel participated in the festival hosted by the Mobile Baykeeper Youth Advisory Council Leadership Committee. The festival was intended to promote awareness regarding water quality and environmental health issues and raise funds for Mobile Baykeeper's work. Many youth of various ages in attendance.
Guest Lecture: Auburn University	03/17/2022	ALDOT employee spoke at a graduate-level seminar about ALDOT's MS4 program and environmental engineering career opportunities at ALDOT. Approximately 15 students in attendance.
Guest Lecture: Auburn University	03/18/2022	ALDOT employee spoke to an undergraduate-level civil engineering class about the environmental issues and challenges ALDOT experiences and methods ALDOT employs to manage them. Approximately 30 students in attendance.

* Many youth education activities in which ALDOT typically participates were not held due to the COVID-19 pandemic.

**ALDOT Stormwater Management Research:
Fiscal Year 2022**

Project No.	Project Title	Research Partner	Total ALDOT Funding	Active during FY 2022?
931-080	GIS-Based Environmental Long-Term Monitoring Web Portal Phase III	Univ. of Alabama	\$88,469	Yes
931-074	Unmanned Arial Systems for Determining Vegetative Establishment on ALDOT Construction Sites	Auburn Univ.	\$199,976	Yes
931-072	Designing and Evaluating Infiltration Swales for Retaining and Infiltrating Roadway Stormwater Runoff	Auburn Univ.	\$299,634	Yes
931-054	Geotechnical Health Monitoring and Assessment of Landslides	Auburn Univ.	\$233,602	Yes
931-053	Implementation of OMS-Based Scour Prediction and Real-Time Monitoring of Scour Processes for Alabama Bridges	Auburn Univ.	\$222,390	Yes
931-017	Best Practices for Construction Site Stormwater Treatment Using Flocculants	Auburn Univ.	\$283,593	Yes
931-016	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation on Various Soil Types and Slope Gradients	Auburn Univ.	\$286,778	Yes
930-962	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation	Auburn Univ.	\$383,526	No
930-954	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$130,282	No

930-869	Evaluation of Sediment Barriers Using Large-Scale Techniques	Auburn Univ.	\$459,755	No
930-863	Evaluation of High-Rate Settling Technology for Sediment Control in Roadway Construction Sites	Auburn Univ.	\$357,770	No
930-853R	Evaluation of Inlet Protection Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,550	No
930-841R(S)	Monitoring the Coastal Processes in the Vacinity of Little Lagoon Pass	Univ. of South Alabama	\$441,194	Yes
930-837R	Monitoring and Predicting the Effects of Post-Construction Stormwater Runoff from Roadways in Watersheds	Auburn Univ.	\$228,561	No
930-826R	Evaluation of ALDOT Ditch Check Sediment Control Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,101	No
930-811R	Vegetated Filter Strip Performance Evaluation for Cost-Effective Roadway Runoff Treatment in Alabama	Univ. of South Alabama	\$114,187	No
930-784	Maintain Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$42,050	No
930-767	Agronomic Solutions for Establishment of Roadside Vegetation	Auburn Univ.	\$86,068	No
930-751	Techniques for Establishing Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$50,000	No
930-678	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$251,244	No
930-655	Development of a Test Facility to Evaluate the Optimal Design of BMPs for Managing Environmental Problems at Construction Sites	Auburn Univ.	\$347,693	No
930-486	Mapping, Control and Revegetation of Cogongrass on ALDOT Rights-of-Way	Auburn Univ.	\$225,640	No

**ALDOT Environmental Concerns Log:
Fiscal Year 2022**

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
10/04/2021	Sequencing of roadside mowing and litter pickup.	<i>Multiple</i>	Multiple Interstate segments	Citizen Report	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. Informed citizen that ALDOT continues to work toward optimizing litter pickup timing. (Citizen submitted multiple reports during FY 2022.)
10/04/2021	"There are trees on this stretch, with limbs hanging low over all lanes. They look as if they could fall and cause injury at any time. Concern for citizens injury with the all the rain and the approaching freezing rain period, should the limbs break. Can these limbs be cut way back from this stretch of highway?"	Jefferson	Leeds; I-20 at Exit 140	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
10/05/2021	"While pumping gas the pump malfunctioned and spilled over 2 gallons of gas all over the ground. When I told the attendant of the problem he told me all the pumps are broken."	St. Clair	Springville; Marietta Rd	Environmental Concern Submission Form	Illicit Discharge	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
10/13/2021	Excessive litter.	Mobile	Mobile; I-65 near Dauphin St	Citizen Report	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple litter-related reports for this location during FY 2022.)
10/15/2021	"Is a kidney failure patient at the facility that I am in right now has been assigned a transportation service. With that service it has signs everywhere that you should wear your Mask because of the coronavirus. A passenger has been told several times by the driver and Dialysis leaders. I am very concerned with this Since I am in line to get a transplant evaluation. My suggestion that he not ride the bus until he decides he can wear his mask."	Coffee	Enterprise; Salem Rd	Environmental Concern Submission Form	Non-Environmental	Advised citizen to notify appropriate authority.
10/25/2021	"Why not re open the rail and have a computer train going from Montgomery to Birmingham? A lot of the infrastructure is already in place. It would create jobs and ease CO2 emissions."	<i>N/A</i>	<i>N/A</i>	Environmental Concern Submission Form	Sustainable Infrastructure	Delegated to proper ALDOT representative.
10/25/2021	"The roadways and interchange ramps for I 459 and I 65 in the Hoover/Birmingham area are frequently heavily littered. Although they receive occasional litter pickups, the collections do not appear to keep up with the extent of the problem. More frequent and more extensive litter maintenance is needed as well as greater law enforcement of this problem."	Jefferson	Birmingham; I-65 at I-459	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
10/26/2021	"During the recent floods, a storm drain junction located at our office suffered a catastrophic failure. This is a junction of two storm drains that is enclosed in a square brick enclosure. A corner of the enclosure blew out due to extreme water volume. Part of the brick is gone and two of the sides are bowed out. We contacted the City of Pelham and they informed us that the storm drain did not fall under their purview. Is this something that Shelby County would deal with?"	Shelby	Pelham; AL-261 at Wooddale Dr	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
10/28/2021	"Stormwater runoff ditches drain directly into the Bon Secour river near CR with little or no runoff management. This runoff gets dirtier the more the city is developed. Nearly any amount of rain turns the water brown for days. This impacts everyone who lives or works on or near the river. In addition to reporting a concern, I am hoping to make contact with someone who can help me find information regarding specific steps that can be taken to help control the growing urban runoff problem. Thanks for your time and consideration."	Baldwin	Foley; AL-59 near CR-12	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. Advised citizen to notify appropriate authority with respect to issues off of ALDOT right-of-way.
11/16/2021	"Around 4:50PM tonight, during rush hour, I was heading west on 565 just about to pass where north memorial would merge onto 565 west and there was a big chunk of debris in the far left lane. I could not avoid it or I would've crashed into the wall to the left, or into the car next to me to the right. It has damaged my car and need someone to call me immediately. I can't even drive it at the moment and I have to get to work."	Madison	Huntsville; I-565	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
11/18/2021	"Litter is excessive. "	Shelby	Alabaster; I-65	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
11/23/2021	Excessive litter.	Mobile	Mobile; AL-163 near I-10	Citizen Report	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple litter-related reports for this location during FY 2022.)
11/23/2021	"Litter and bags of garbage. Highway 31 North before you get on the on-ramp to I-459 N"	Jefferson	Birmingham; I-459 at US-31	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Dumping	Delegated to and addressed by proper ALDOT representative.
12/06/2021	Runoff originating on or near I-459 suspected as cause of flooding of nearby neighborhood.	Jefferson	Hoover; I-459	ADEM	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. (Cause of flooding determined to be improper drainage devices for neighborhood.)

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
12/10/2021	"CA Langford co is not controlling dust and mud from their quarry. Silica dust is a hazard to the public living and traveling through this area. The mud on the highway is a hazard to the public traveling through this area not to mention the damage being done to personal vehicles"	Marshall	Guntersville; Warrenton Rd	Environmental Concern Submission Form	Air Quality	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority. (Citizen submitted multiple concerns for this location during FY 2022.)
12/13/2021	"Flooding has been an issue in the past, and it seems like it is beginning. I was worried driving through the intersection and the storms have just began for the day."	Jefferson	Hoover; Stadium Trace Pkwy	Environmental Concern Submission Form	Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/05/2022	"Dumping/Litter"	DeKalb	Albertville; CR-18	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Dumping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/11/2022	"We live next to a sewer pumping station. Since it has been operating our ditch never dries up. Not even in hot summer when it used to dry up. The state dug ditches on the opposite side of the road and they are draining but ours is not draining and has a black, foul smelling mud all year round. We have to cut the ditch and it doesn't seem like something we need to be standing in. "	Mobile	Coden; AL-188	Environmental Concern Submission Form	Illicit Discharge	Delegated to proper ALDOT representative.
01/14/2022	"Excessive trash, decaying deer from Northport to Gordo. Our beautiful countryside looks terrible. Yes, people shouldn't litter. Alabama needs a anti-litter campaign. I've been through 4 states recently, & see nothing like down this state highway. Please come & pick up litter down our highway."	Tuscaloosa	Northport; US-82	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Dumping	Delegated to and addressed by proper ALDOT representative.
01/18/2022	"Excessive mud stays on road. "	Bibb	Centerville; AL-219	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Dumping	Delegated to and addressed by proper ALDOT representative.
01/26/2022	"Chrysler minivan with license plate CKX6501 from DeKalb county Georgia littering cigarette butts while driving down the highway. Interstate 2010 miles east of Aniston."	Calhoun	Anniston; I-20	Environmental Concern Submission Form	Improper Dumping	Delegated to proper ALDOT representative. Advised citizen to notify law enforcement.
02/10/2022	"I got behind a spray truck and before I realized it (the signs only said "Road Work Ahead") I apparently inhaled some chemical. I need to know what chemicals were used in case I need to follow up with a doctor. Currently my eyes and throat are burning and I have a headache which is not normal."	Cleburne	Heflin; AL-46	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (No evidence found of improper herbicide application.)
02/14/2022	"it's a huge crater that broke my rim took a chunk out of it and busted the tire. I can provide pictures and or video if need be. I need to be compensated for all of it plus towing fees. "	Montgomery	Montgomery; Alabama River Pkwy	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
02/16/2022	"After tree-trimming and mulching our right of way, we received 7 inches of rain resulting in our culvert being stopped up from the debris left in the ditch. I contacted our local ALDOT office and someone came and removed the debris from the culvert. However the sand, mulch and debris left in the ditch will create the same problem when it rains again. All of the rain water will come into my yard. The equipment used eliminated the ditches on both sides. We would like for someone to come and recreate the ditches, removing the debris which would help the water flow. Any help from you would be greatly appreciated."	Lee	Opelika; AL-169	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
02/19/2022	"Trucks spraying herbicide last week. Now grass is brown. I would like to know what chemical they are spraying and at what concentration."	Sumter	near Tombigbee River	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (No evidence found of improper herbicide application.)
02/22/2022	"Significant erosion which poses a safety concern where vehicles pull into parking lot/drive. Also, the culvert is 80% clogged with dirt/debris."	Limestone	Athens; AL-127	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
02/28/2022	"There is an excessive amount of trash and road debris on the sides, medians, and grassy exit areas of the interstate. Could someone please remove all the litter? "	Lee	I-85	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
03/06/2022	"This area needs more frequent pick up for litter. In particular, the embankments near Stadium Trace Village are not being properly maintained by the businesses in that area."	Jefferson	Hoover; AL-150	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple reports for this general location during FY 2022.)
03/06/2022	"Exits 10 and 13 on I 459 and the surrounding highway are frequently heavily littered. They need regular attention in all directions."	Jefferson	Hoover; I-459 at Exit 10	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
03/07/2022	"It is a huge mess of litter. Looks like years of garbage being tossed on the side of the highway. I saw an ALDOT crew collecting litter today along 69 closer to Dodge City. Maybe they can do the area I mentioned above please?"	Cullman	Bremen; AL-69	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.

Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
03/25/2022	"There is a low area that connects to the Highway 431 southbound side of drainage that is allowing MILLIONS of gallons of stormwater drainage to flow through many private properties. I don't believe that the water should go through this canal but should continue its northbound route down the highway. We currently have over 10 millions of gallons of standing water that spans over 30 acres. The city of New Hope is showing minimum effort in this situation. If we could somehow ensure that the stormwater drainage from Highway 431 does not drain into that low lying area but rather continues its normal drainage route it would prevent MILLIONS of gallons of water from flooding out these properties. Please help. If this continues, 40-50 acres of wooded areas will become stagnant swamps, mosquito breeding grounds, and a huge health concern. As of right now it has already begun. This Would be an easy fix. Thankyou and I hope the message gets to the right person."	Madison	New Hope; near US-431	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. (Determined mitigation needs outside of ALDOT jurisdiction.)
03/30/2022	"There is a culvert under Vance Blocton Road that someone is trying to tie in there own covert into the states covert. When he does this it will cause erosion and wash out the Vance Blocton Road and Flood the whole Area to include Vance Blocton Road and Terry Lane."	Bibb	Vance; Terry Ln	Environmental Concern Submission Form	Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. No action taken.
03/30/2022	"Driveway on East side of AL 251 at new house has bright white lights that look like anDriveway on East side of AL 251 at new house has bright white lights that look like an oncoming vehicle on the wrong side of the roadway (East side of road). The lites are always on. Please get the lights turned off, dimmed or even some other color."	Limestone	Athens; near AL-251	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
03/31/2022	I am requesting information for an elderly friend. She lives right on AL HWY 69N and has a neighbor with piles of junk in their yard which comes all the way out to the road. When my friend pulls out of her driveway, it is very difficult for her to see the oncoming traffic. Several times, she has almost been involved in an accident because she can't see to pull out into the highway safely. Can you tell me whom she should contact to report this issue and hopefully get some help? Thank you so very much.	Cullman	near AL-69	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/05/2022	"This concern algae growing on stagnant water from lack of drainage due to run-off down the slope at Alabama Hwy 77 to Shoreline Circle into Neely Henry Lake area of the Coosa River."	Etowah	Southside; AL-77	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
04/08/2022	"Debris, large trees, lumber, trash and brush is stuck under the bridge on hwy 48 East obstructing water passage, hazardous to wildlife as well as an eyesore to the natural surroundings. "	Randolph	Wedowee; AL-48	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/11/2022	"After bridge repair work, there is standing water causing large tree to fall"	Jefferson	Graysville; US-78	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/14/2022	"Daher Aerospace is hauling batteries, oxygen and other hazardous materials in trucks that are not permitted or licensed to haul the material on the interstate. Drivers they are using to haul the material do not have the proper credentials to be carrying it. It has been ongoing over 2 years. They are moving the material from their Irvington warehouse to Brookley Field in Mobile."	Mobile	Mobile; I-10	Environmental Concern Submission Form	Materials Management	Relayed to appropriate ALDOT personnel.
04/14/2022	"Tree from state owned property was felled by recent storm and is now partially blocking drainage ditch impeding a full flow of storm water. "	Montgomery	Montgomery; I-85	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/15/2022	"The under road drain on the west end on my property is backing up resulting in a large portion of my yard to flood. This has introduces snakes, other insects that can cause harm to my pets and others. it has also impact my ability to maintain n grass from growing wild. recently spent thousands of dollars clearing that portion of the yard with water not draining being counter productive. this has been called in previously with no response from DOT."	Baldwin	Robertsdale; US-90	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/19/2022	"I am concerned that the wetland laws are being violated. The lot has been demolished of its trees. Loads of fill dirt have been brought in. It was being dredged of water Easter Sunday, the equipment was even running that day, removing the water. I did not see any permits."	Baldwin	Orange Beach; near AL-180	Environmental Concern Submission Form	Vegetation Management; Improper Dumping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/20/2022	"Silver wood subdivision has a culvert running under state highway 181 and it is dumping so much water onto my property. I have spent thousands on rock, soil, etc to keep my driveway from washing out. It has eroded my yard to the point I'm losing trees due to roots exposed, my driveway is cracking and dirt is washing away under it. My utility lines are starting to be exposed as well. I am researching my rights and about to retain a lawyer because I can no longer afford to fight this losing battle. I am hoping can be done along the Highway to divert the massive amount of water being dumped on my property. I would appreciate if someone could come check this situation out and let me know if something can be done "	Baldwin	Fairhope; AL-181	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. (Determined mitigation needs outside of ALDOT jurisdiction.)

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
04/20/2022	"Ecosouth truck hauling debris, large and excessive chunks of foam flying from load, covering the roadway, no way to avoid debris."	Washington	Wagarville; US-43	Environmental Concern Submission Form	Materials Management	Delegated to proper ALDOT representative.
05/04/2022	"Ditch dirt bank is being eroded on one side. Danger of concrete ditch collapsing."	Choctaw	Butler; AL-10	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
05/10/2022	"Cogon grass infestation."	Lawrence	Moulton; AL-24 near CR-460	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple reports regarding cogongrass in the general location during FY 2022.)
05/15/2022	"am curious about the mowing on the side of the highways. Last week we drove 59 from bham to Fort Payne and were surprised and pleased to see so much milkweed growing naturally along the side of the highway."	St. Clair	Birmingham; I-59	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to proper ALDOT representative.
05/26/2022	"There are chicken parts from a processing plant that are dumped here or possibly leaked from the truck carrying them. This is an ongoing problem. We have been aware of this isThere are chicken parts from a processing plant that are dumped here or possibly leaked from the truck carrying them. This is an ongoing problem. We have been aware of this issue for many months since first time we used this exit. It has never gotten any better. The horrid smell lingers in your car just from taking the exit. "	Sumter	Cuba; I-20	Environmental Concern Submission Form	Materials Management	Delegated to proper ALDOT representative.
05/31/2022	"I am concerned that the State of Alabama is trying to seize 20 acres and four homes...for the WAH Project, which will result in displacing eleven people. This destruction will harm a family and a community who have cultivated their land over seven generations and 100 years.... "	Houston	Dixons Mills; near US-43	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
06/02/2022	"A hole is in a culvert pipe right off bellingrath road and seems to be getting bigger there are some big trucks that use the drive and this might cause a problem if the culvert fails"	Mobile	Mobile; Bellingrath Rd	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
06/06/2022	"Debri has been pilling up next to the road for nearly a month now and more has just been dumped again this weekend. There is also debri pilled near the many junk vehicles as well. Note there are two different debri piles on the same area"	Mobile	Theodore; AL-193	Environmental Concern Submission Form	Improper Dumping	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
06/11/2022	"the recent development and clearing of a well know flood plain,flood zone is currently being washed out and caused massive erosion on my property and the 44thousand kva power transmission line that crosses it alabama power co has told me they would b using my driveway to access since the county widened hwy 12 and incorrectly regraded the surface and is washing out there access and my property. The hillside across the rd is also sliding into the road and crossing it onto other people property.we live less than a mile from the biggest sink hole in the state. this is a catastrophe in the making and noone here seems to care."	Shelby	Montevallo; CR-12	Environmental Concern Submission Form	Sustainable Infrastructure	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
06/23/2022	"I am emailing you because there is a broken down trailer full of rubbish and household debris on the side of the road about 500' southbound past Evonic on Rangeline Rd."	Mobile	Theodore; AL-193	Environmental Concern Submission Form	Improper Dumping	Delegated to and addressed by proper ALDOT representative.
07/05/2022	"Cars parked on hiway right of way. Vehicle no running that's not operational and the county is aware but will not care to take action. Junk by the highway. A real eye sore and hazard."	Washington	Bigbee; CR-31	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
07/16/2022	"Overgrown grass. Can't see to pull out of county road 1 onto hwy 5. Someone is going to get killed"	Bibb	Brent; AL-5	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
07/18/2022	"Hog feces dumped on road ways...."	Calhoun	Attalla; AL-77	Environmental Concern Submission Form	Improper Dumping	Delegated to and addressed by proper ALDOT representative.
07/18/2022	"Over growth of weeds on top of hill off Whisper Wood Dr. "	Jefferson	Hoover; AL-150	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
07/19/2022	"There is a 'ditch' at the road near my house that apparently has a pipe going under the Highway for drainage. This area has not been maintained in a very long time. There is excessive vegetation growing there to the point i dont think it is useful. People throw items in the ditch as they drive by. It is a hazard. This needs to be cleaned up and modified so that it is no longer a hazard. This ditch does not need to be there. A smaller area for drainage would be more appropriate."	Macon	Alliance; US-29	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
07/21/2022	"Culvert has been damaged and causing significant erosion"	Franklin	Russellville; AL-243	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
07/27/2022	"the grasses along the highway and in the medians need trimming. It would be hard to pull over and exit your vehicle because of the high grass. Also street lights need to be added to that section of highway for visibility"	Dale	Wicksburg; US-84	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
07/29/2022	"Individuals are parking and storing multiple commercial/industrial propane tanker trucks for a corporate propane company in a residential neighbourhood. This action is in direct violation of 49 CFR §397.7 and extremely dangerous. Neighbours have expressed concern through multiple avenues. This requires immediate attention."	Lee	Opelika; CR-422	Environmental Concern Submission Form	Materials Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
08/09/2022	"Serious Flooding after rain storms that affects multiple offices on Holloway Park. Water rising up to car doors, pooling around business office foundations, A/C units are under water. City of Montgomery can only clean so much of the ditch out and report that the rest of the ditch on state property is also clogged and causing the flooding."	Montgomery	Montgomery; I-85 near Exit 6	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
08/16/2022	"trash on the exit and trash on the entrance ramp needs to be cleaned"	Jefferson	Fairfield; I-20/59	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
08/26/2022	"The ditch in front of my house is stopped up with debris and a tree blocking the drain. The ditch is backing up into my yard. With the rain we have had this we had water all the way up to my steps and I'm my carport from the ditch. It's been overflowing for 2 weeks now."	Mobile	Grand Bay; AL-188	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
08/30/2022	"the side wall is collapsing on a storm drain that leads into a pond . possible future erosion issues."	Montgomery	Montgomery; Glades Ct	Environmental Concern Submission Form	Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
08/30/2022	"The water is disgusting, smells and taste like chemicals. white particles floating in the water I have had to buy numerous gallons of water from the store i don't even want to shower in the water coming from the city its nasty and i mean nasty its not safe to drink and what prompted me was as we were using tap water that's supposed to be safe I encountered kidney issues they doctor said change your water intake and i did problem solved , the city of Dothan is killing their residents."	Houston	Dothan; 3rd Ave	Environmental Concern Submission Form	Drinking Water Quality	Location and issue outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.

ALDOT Environmental Concerns Log:
Fiscal Year 2022

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
08/31/2022	"Construction entrance has excessive run off, and has blocked pipe installed underneath which causes significant flooding when it rains."	Jefferson	Leeds; AL-25	Environmental Concern Submission Form	Construction Site Management	Delegated to and addressed by proper ALDOT representative. (Construction site was not an ALDOT site.)
09/07/2022	"Increased illegal dumping trash and graffiti. This is a major on going concern."	Jefferson	Birmingham; near US-280	Environmental Concern Submission Form	Improper Dumping	Delegated to and addressed by proper ALDOT representative.
09/09/2022	"There is several trees on the power lines . Looks as if several other trees are about to fall into the road."	Lauderdale	Florence; CR-139	Environmental Concern Submission Form	Transporation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
09/22/2022	"The grass has grown so high that lower height cars can not see traffic coming north up State Road 1."	Calhoun	Oxford; I-20 at Exit 191	Environmental Concern Submission Form	Transporation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
09/28/2022	"The row was just mowed. It looks SO MUCH BETTER. It was really needing that for a while. BUT, it unfortunately exposed a lot of litter. Litter along this stretch is a constant problem."	Elmore	Wetumpka; AL-111	Environmental Concern Submission Form	Transporation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.

**ALDOT Community Outreach Group Meetings:
Fiscal Year 2022**

Date	Group	COG Attendees	ALDOT Attendees	Other Attendees*	Total Attendees	Purpose
09/19/2022	Capital City Plume**	5	1	4	10	Review of Capital City Plume project after 3 years of monitoring. (Project updates during FY 2020 and FY 2021 were conducted via electronic communication due to the COVID-19 pandemic.)

* Can include facilitators and consultants of ALDOT.

** The Capital City Plume is a project managed by the Downtown Environmental Alliance, of which ALDOT is one of seven members.

**ALDOT Miscellaneous Community Outreach Activities:
Fiscal Year 2022**

Activity	Notes
Collaboration with The Ray	ALDOT and The Ray have discussed innovative green infrastructure and vegetation management practices that The Ray could assist ALDOT in implementing on its roadways and at rest areas / welcome centers. ALDOT asked Auburn University to join the discussions in order to provide for more robust, three-way collaboration. Representatives from ALDOT, Auburn University, and The Ray met at the I-85 welcome center on 11/05/2021 to generate ideas for vegetation management at the welcome center.
Earth Day Mobile Bay	ALDOT Southwest Region participated in the event held on 04/22/2022.
Partners for Environmental Progress Cause to Clean	ALDOT Southwest Region participated in the Mobile Bay Causeway litter pickup event on 05/14/2022.
Social Media Outreach: Facebook	ALDOT Southwest Region has a Facebook account with approximately 4,800 followers as of the end of FY 2022. 5 environmental-oriented messages were posted on the account during FY 2022. In addition, the ALDOT-owned Drive Safe Alabama Facebook account (with approximately 2,100 followers as of the end of FY 2022) posted 4 environmental-oriented posts during FY 2022.
Social Media Outreach: Twitter	4 ALDOT Regions had Twitter Accounts as of the end of FY 2022: Southwest Region (approximately 7,100 followers), West Central Region (approximately 2,800 followers), East Central Region (approximately 1,700 followers for the account focused on I-59/20 improvements), and the Southeast Region (approximately 230 followers). Regions use Twitter, in part, to share environmental-oriented messages; Southwest Region and West Central Region both posted 2 messages during FY 2022.
Welcome Center "Trash Sculptures"	ALDOT continued to partner with ADEM in the installation of "trash sculptures" (statues of animals containing repurposed trash like plastic water bottles) at ALDOT welcome centers to raise public awareness of trash impacts on water habitats / ecosystems. During FY 2022, trash sculptures were installed at I-10 welcome centers.

**ALDOT MS4 Coordination Activities:
Fiscal Year 2022**

Activity	Notes
Alabama Stormwater Association	2 ALDOT employees are on the ASA board of directors; ALDOT has participated in all board of directors meetings since ASA establishment. ALDOT was integral in the planning of a virtual seminar held on 12/02/2021 during which MS4s from throughout the state and various other stormwater professionals collaborated and gained focused stormwater management knowledge. Also, ALDOT maintained the ASA stormwater professionals contact list, which allowed for better coordination among stormwater professionals.
Baldwin County MS4 Planning Committee	ALDOT Southwest Region participates in Baldwin County MS4 Planning Committee collaboration opportunities. During FY 2022, ALDOT and rest of the committee began considering partnerships for watershed restoration efforts.
Cooperative Maintenance Agreements with Municipalities & Counties	ALDOT has established cooperative maintenance agreements with various municipalities and counties. Agreements include ones with City of Huntsville, City of Montgomery, and Etowah County. A key component of most agreements is litter pickup. An agreement typically authorizes the city or county in question to perform litter pickup on ALDOT property, allowing ALDOT and the city or county to work jointly and more efficiently in watershed protection.
Local Emergency Planning Committee: Tuscaloosa County	ALDOT is a member of the LEPC along with other Tuscaloosa-area MS4s. Tuscaloosa Area personnel participate in LEPC meetings. Coordination regarding Pollution Prevention / Good Housekeeping is performed with other MS4s as part of LEPC work.
One Clean Mobile Partnership / Litter-Free Mobile Task Force	Partnership between ALDOT Southwest Region and City of Mobile established in FY 2016 continued during FY 2022. (In August 2021, the One Clean Mobile Partnership was incorporated into the more comprehensive Litter-Free Mobile Task Force.)

**ALDOT Participation with Professional Organizations:
Fiscal Year 2022**

Organization	Activity	Notes
Alabama Chapter of the Soil and Water Conservation Society	Membership	Some ALDOT personnel are members.
Alabama Erosion and Sediment Control Partnership	Assistance in event facilitation	An ALDOT representative participates in the planning of Clear Water Alabama annually. An ALDOT employee was on the planning committee for Clear Water Alabama 2022.
American Association of State Highway and Transportation Officials	Membership; Leadership roles; Participation in meetings	Some ALDOT employees are members of the Committee on Construction. Some ALDOT personnel participated in conference calls, webinars, and conferences.
American Society of Civil Engineers	Membership; Leadership roles; Participation in meetings	ALDOT employees participate actively in the Alabama Section and in the branches that comprise the Alabama Section. Multiple ALDOT employees serve in leadership roles in the branches. With respect to the Alabama Section, an ALDOT employee serves as Region 5 Governor, and another serves as Secretary / Treasurer. Additionally, an ALDOT employee served on the Alabama Section ASCE Infrastructure Report Card - Stormwater committee.
International Erosion Control Association	Membership; Leadership roles; Participation in meetings; Assistance in event facilitation	Some ALDOT personnel are members and attend conferences. An ALDOT employee serves as chair of the MS4 Management Subcommittee and hosted an MS4 green infrastructure orientation webinar in Nov. 2021.

**ALDOT Internal MS4 Awareness Activities:
Fiscal Year 2022**

Activity	Date(s)	Notes
Internal MS4 Coordination Memorandum	10/21/2021	Memo sent to MS4-participating ALDOT offices to request review of their MS4 program-related activities, coordinate annual report data collection, provide updates regarding progress toward meeting SWMPP goals, and to remind them about upcoming MS4 program activity deadlines.
Stormwater Coordinators Meeting	11/09/2021	Facilitated by ALDOT Construction Bureau. Meeting of ALDOT construction stormwater coordinators assigned to Construction Bureau and field offices.

Supplemental Material for Section II.D

ALDOT Major Outfall Inventory & Screening Summary

ALDOT Major Outfall Inventory & Screening Summary

Last Updated: September 30, 2022

MS4 Area	Major Outfalls on Inventory	Major Outfalls Screened	Possible Illicit Discharges at Major Outfalls	Other Possible Illicit Discharges	Inventory & Screening Outcomes
Anniston	16	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Auburn/Opelika *	5	5	0	0	No non-stormwater discharges observed during screening. Completed.
Baldwin County	16	0	0	0	No non-stormwater discharges observed during screening. Completed.
Decatur	16	16	0	0	No non-stormwater discharges observed during screening. Completed.
Dothan	16	16	0	2	1 major outfall removed from inventory. (Outfall no longer exists due to re-development work.) No new non-stormwater discharges observed during screening. 2 non-stormwater discharges reported during the previous MS4 permit term observed again. Completed.
Florence	14	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Gadsden	35	35	0	0	No non-stormwater discharges observed during screening. Completed.
Huntsville	57	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Jefferson/Shelby County	138	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Mobile	42	42	0	0	No non-stormwater discharges observed during screening. Completed.
Montgomery	28	28	0	0	No non-stormwater discharges observed during screening. Completed.
Phenix City *	6	6	0	1	No new non-stormwater discharges observed during screening. 1 non-stormwater discharge reported during the previous MS4 permit term observed again. Completed.
Tuscaloosa	34	34	1	1	Damaged sewer line observed near 1 major outfall that had been investigated previously and addressed in accordance with IDDE procedures specified in SWMPP. Non-stormwater discharge observed at 1 minor outfall; discharge appeared to be wash water originating from a nearby carwash business; discharge addressed in accordance with IDDE procedures specified in SWMPP. Completed.
<i>ALDOT Support Facilities **</i>	25	16	0	0	All (3) Dothan District Office major outfalls screened; no non-stormwater discharges observed. All (3) Central Office Complex / Montgomery Area Office / Montgomery District Office major outfalls screened; no non-stormwater discharges observed. All (3) Tuscaloosa Area Office / Tuscaloosa District Office major outfalls screened; no non-stormwater discharges observed. All (2) Gadsden District Office major outfalls screened; no non-stormwater discharges observed. All (4) Mobile Area Office / Mobile District Office major outfalls screened; no non-stormwater discharges observed. 1 of 2 Tunnel Office major outfalls on inventory screened; no non-stormwater discharge observed; other Tunnel Office major outfall on inventory <u>no longer accessible</u> because now located on private property.
PERMIT TERM TOTAL	448	198	1	4	

* The number of major outfalls on inventory for this MS4 Area given in previous annual reports was inaccurate due to a transcription error. The number given in the table is the correct number.

** Major outfalls identified at Central Office Complex / Montgomery Area Office / Montgomery District Office, Tusculumbia Area Office / Tusculumbia District Office, Huntsville District Office, Birmingham Area Office / Birmingham District Office, Calera District Office, Gadsden District Office, Tuscaloosa Area Office / Tuscaloosa District Office, Dothan District Office, and Tunnel Office. Major outfalls (4 total) also identified at Mobile Area Office / Mobile District Office, added to inventory, and screened during previous MS4 permit term, though ALDOT unaware of oversight in reporting these outfalls in SWMPP and annual reports until FY 2022. Major outfall tally for ALDOT support facilities updated to include 4 additional outfalls.

ALDOT MS4 Transportation Facility Maintenance:
Fiscal Year 2022

**ALDOT MS4 Support Facility Annual Inspections:
Fiscal Year 2022**

Facility Name	Inspection Date(s)	Summary of Observed Deficiencies
Central Office Complex	06/14/2022; 06/17/2022	See attachment.
Huntsville District Office	08/23/2022	8700-12 and Tier II not submitted to ADEM. 3-Year Overfill Prevention (ADEM 559) not completed. Safety data sheets not located for products requested.
Gadsden District Office	08/22/2022	Scrap tires stored outside. Fuel station fill ports contained rainwater accumulation. 3-Year Overfill Prevention (ADEM 559) not completed.
Tuscumbia Area Office Tuscumbia District Office	08/05/2022	No environmental concerns.
Birmingham Area Office Birmingham District Office	04/13/2022	Annual UST testing not completed. 30-Day Walkthrough not produced. Automotive batteries not dated with accumulation start date. Unknown and unlabeled chemicals found.
Calera District Office	04/13/2022	UST 0.2 gal/hr leak rate test not available for Jan-Mar 2022. Annual UST testing not completed.
Anniston District Office	04/21/2022	8700-12 not submitted to ADEM.
Tuscaloosa Area Office Tuscaloosa District Office	09/22/2022	Waste batteries stored for more than one year. AST inspections not produced. Unlabeled herbicide sprayers found.
Speigner District Office	03/15/2022	No environmental concerns.
Montgomery Area Office Montgomery District Office	06/17/2022	See attachment (labeled "ALDOT Southeast Region – Montgomery").
Dothan District Office	02/09/2022	No environmental concerns.
Mobile Area Office Mobile District Office	09/29/2022; 09/30/2022	No environmental concerns.
Tunnel Office	09/30/2022	No environmental concerns.

Appendix H:
Supplemental Material for Section II.H

MS4 Monitoring Activity Summary:
Fiscal Year 2022

**MS4 Monitoring Activity Summary:
Fiscal Year 2022**

Monitoring Location	Dry-Weather Observation Dates	Wet-Weather Observation Dates	Key Observation Outcomes & Notes
US-431 at Brier Fork (Flint River), Madison County	04/21/2022; 07/21/2022	09/01/2022	During 04/21/2022 observation, noted that one ditch segment needed maintenance; local ALDOT office notified and given maintenance recommendations; maintenance later performed.
US-431 at Beaverdam Creek, Madison County	04/21/2022; 07/21/2022	09/01/2022	During 07/21/2022 observation, the ALDOT State Agronomist advised on making vegetative cover on front slopes more resilient; as a result, more vegetation present on the slopes over time.
AL-152 at Three Mile Branch, Montgomery County	05/19/2022; 07/08/2022	09/12/2022	During all observations, sediment deposits in the stream attributed to upstream sources were seen; the location was generally well-vegetated.
AL-110 at Jenkins Creek, Montgomery County	05/19/2022; 07/08/2022	09/12/2022	During all observations, sediment deposits in the stream attributed to upstream sources were seen; the location was generally well-vegetated.
US-90 at Halls Mill Creek, Mobile County	04/28/2022; 08/16/2022	07/13/2022	During all observations, sediment deposits in the stream attributed to upstream sources were seen; the location was generally heavily vegetated. During the 08/16/2022 observation, noted that transients encamped under the bridge had relocated riprap; will monitor for any sediment control impacts in future observations.
US-98 at D'Olive Creek, Baldwin County	04/28/2022; 08/16/2022	07/13/2022	During all observations, sediment deposits in the stream attributed to upstream sources were seen; the location was generally well-vegetated.
Observation Outcomes Analysis			Observation outcomes for all monitoring locations over two years indicate that runoff flow paths on ALDOT property are well-vegetated overall and do not experience noteworthy erosion. Thus, there is no evidence that ALDOT is a significant contributor to the pollution of waters for which sediment or turbidity is a pollutant of concern. ALDOT's general maintenance approach appears to be effective, though ALDOT makes continual efforts to improve the effectiveness of erosion and sediment control measures.
