\*NOTE: The Mesa System is approved for wall heights up to 50 feet only and at abutments for wall heights up to 35 feet only.

<sup>1</sup>NOTE: The Landmark™ System should be limited to a height of 35 feet. Abutment walls should not be used without deep foundation support. Block USA should also provide, on a yearly basis, current proof of licensure with Anchor to manufacture the wall system.

<sup>2</sup>NOTE: The Tricon™ System should be limited to a height of 35 feet. Abutment walls should not be used without deep foundation support.
