

Roadside Tolling for the I-10 Mobile River Bridge and Bayway Projects
Potential Proposers
May 1, 2023

This notification is to inform potential Proposers of a change that will be forthcoming in the Request for Qualifications and Proposals (RFQ/RFP) for the Roadside Tolling for the I-10 Mobile River Bridge and Bayway Projects (the Project) regarding prequalification. The Alabama Department of Transportation (ALDOT) is revising the RFQ/RFP to be consistent with the following information about the prequalification process for the Project:

Any firm on the proposer's team that is anticipated to perform design services as part of this project must be prequalified with ALDOT through its prequalification process for design services. The Proposer or any Principal Participant, Major Participant, or subcontractors will not be asked to be prequalified for construction. If the Proposer or any Principal Participant will not be responsible for performing design services, then the Proposer or Principal Participant may be asked by ALDOT to provide information as to its ability to do business in the State of Alabama and its financial solvency after the delivery of the Proposal and prior to the shortlist date.

The RFQ/RFP will be updated to reflect this change.

ALDOT's Authorized Representative for these Projects is:
