

SPECIFICATIONS

Montgomery Area Micro-surfacing seal

Autauga, Bullock, Butler, Dallas, Elmore, Lee, Lowndes, Macon, Montgomery & Russell Counties.

1.0 CONTRACTOR REQUIREMENTS – GENERAL

- 1.1 Pursuant to section 34-8-1(a) of the Code of Alabama, each contractor must submit with their bid, proof of licensing through the Alabama State Board of Licensing for General Contractors, with approved maximum bid limits sufficient to cover the bid related to this specification. Failure to comply will be cause for rejection of the bid. A copy of the vendor's current year's license will expedite the evaluation process.

******APPLIES TO BIDS IN EXCESS OF \$50,000.00 ONLY!******

- 1.2 Each contractor should submit with their bid, proof of liability insurance in the minimum amount of \$1,000,000 per occurrence, \$2,000,000 aggregate. Each contractor should further provide proof of workman's compensation insurance sufficient to satisfy all legal requirements of the State of Alabama. Failure to provide this documentation with the bid package will delay the bid evaluation process.
- 1.3 OMIT.
- 1.4 All documentation MUST be submitted prior to award of the purchase order. All insurance certificates and bond instruments shall indicate State of Alabama, Department of Finance, and Division of Purchasing as certificate bond holder.
- 1.5 Due to the nature of this project, award will be made on an "All or None" basis to the recommended vendor who, during the course of our bid evaluation, is found to be the lowest responsible bidder. Each vendor will indicate a "per item" unit price in the appropriate blank in the text of the requisition. Award will be made adding together all unit item costs for a total bid.

2.0 WORK SCOPE

- 2.1 All work shall be done in compliance with applicable sections of the Alabama Department of Transportation Standard Specifications for Highway Construction, Current Edition, Alabama Department of Transportation Standard Drawings, and the MUTCD. The materials used shall be chosen from the Materials, Sources, and Devices with Special Acceptance Requirements Manual.
- 2.2 The traffic control scheme shall be submitted to the District Administrator three (3) days prior to starting work for his review. The successful bidder will contact the District Administrator three (3) days prior to initiating work to coordinate any work to be performed by State Forces.
- 2.3 The quantity stated in this solicitation is an estimate only for comparative purpose and in no way obligates the department to any specific quantity of purchases. Actual maintenance requirements may be less than or greater than the estimated quantity as shown for each item. All quantities and dimensions are estimated and should be field verified by contractor.
- 2.4 The contractor will be responsible for all traffic control measures. Attention is drawn to the fact that this work will be performed under traffic conditions requiring special care to expedite the work and prevent undue hazardous conditions. The contractor will be responsible for all traffic control devices specified in the (MUTCD) and Chapter VI of the most current edition of the Standards and Guides for Traffic Controls for Street and Highway Construction, Maintenance, Utility, and Incidental Management Operations.
- 2.5 The contractor will be responsible for insuring that all employees wear appropriate safety apparel in accordance with the latest edition of the MUTCD and in accordance with the standards of ANSI/ISEA 107-2010 or ANSI/ISEA 107-2015 Class 2.
- 2.5 The contractor shall furnish and place, without extra compensation, all warning and directional signs and/or equipment required to direct, control, and protect the traveling public while marking and striping operations are in progress. The striping equipment shall be operated in a manner to cause the least disruption to the normal traffic flow.
- 2.7 Effective period will be 12 months from date of award, with option to renew for a second, third, fourth, and fifth 12-month period.
- 2.8 The contractor shall indemnify and save harmless the State of Alabama, the Department of Transportation, the officers and employees from all suits, actions, or claims of any character brought because of any injury or damages received or sustained by any person, persons, or property due to the operation of the said contractor.

3.0 PERFORMANCE REQUIREMENTS

- 3.1 Bid price shall include all materials, hardware, supplies, tools, equipment, labor, transportation and other necessary incidentals required for the completion of the work in an approved and satisfactory manner.
- 3.2 If required, on-site storage of job materials and/or equipment is to be coordinated with the District Administrator prior to the beginning of work. The security of any material and/or equipment left on-site will be the responsibility of the contractor.
- 3.3 The performance of any work under these specifications will not be deemed complete until the contractor has satisfactorily removed all debris and cleaned up the work site. At no time during the performance of work will materials, debris, or trash be allowed to accumulate in such a manner as to endanger the safe performance of the work or the safety of the traveling public.
- 3.4 For placement of Pavement Surfacing (MICRO-SURFACING SEAL COAT) in Autauga, Elmore, Macon, Bullock, Montgomery, Lowndes, Butler, Dallas, Lee, and Russell counties are requested by the Area Maintenance Engineer or his designee. Locations and width/lengths for the placement of the pavement surfacing will be specified at the direction of the Area Maintenance Engineer. Contractors shall begin work within 14 calendar days of notification by the Area Maintenance Engineer or his designee and work shall be completed in a timely manner per move-in.
- 3.5 The contractor should exercise every precaution to document all markings and legends, so as to reinstall these items to their original state.
- 3.6 The contractor must keep one travel lane open at all times.

4.0 PAYMENT

- 4.1 Unit of payment will be in accordance with the basis of pavement as specified by the Alabama Department of Transportation specifications, regulations, and operating procedures for each item of work listed in this solicitation. Invoices are to be submitted and processed after final acceptance of the work.
- 4.2 Pavement surfacing will be performed as directed and will be measured by counting separately the number and area of each pavement surfacing area.
