

Addendum with Q & A for TRFP - Construction and Materials Management System (CAMMS) bid.

1. **Q** - I did want to ask for a quick clarification regarding the mandatory pre-proposal conference scheduled for January 20, 2026, at 10:00 AM at the ALDOT offices in Montgomery. We noted that the solicitation specifies the conference as mandatory and in person. Given travel considerations, I wanted to ask whether ALDOT has considered offering a virtual attendance option for the pre-proposal conference, or if the decision is final that attendance must be in person to satisfy the requirement. If the conference is mandatory and in person, could you also advise on the anticipated duration of the meeting to help with travel planning?

A - The pre-proposal conference remains mandatory and in-person. Any representative from the potential bidding firm may attend. We anticipate the pre-proposal conference will last two hours.

2. **Q** - How do we go about registering for the pre-proposal conference?

A - The mandatory in-person pre-proposal conference does not require registration. Bidders will sign in onsite prior to the meeting.
