PORTABLE TRAFFIC SIGNAL

WORK AREA

MATTING

TYPICAL PLACEMENT OF ADVANCE WARNING SIGNS/RUMBLE STRIPS/PORTABLE TRAFFIC SIGNAL
FOR MAINTENANCE OPERATION AT THE WORK AREA

GENERAL NOTES

1. All signs required for the lane closure shall be temporary mounted.
2. The color of the portable rumble strips shall be black or orange. Use 1 array per approach. Each array shall consist of 4 rumble strips.
3. Portable rumble strips shall not be placed in sharp horizontal or vertical curves nor shall they be placed through the intersection ovals or on bridge decks.
4. If the portable rumble strips become out of alignment they shall be replaced with new rumble strips. The color of the new replacement shall be black or orange.
5. The lane closure shall not extend any further than approximately 500' in length. As operations progress, the engineer in charge shall move the portable traffic signal location to meet this mileage requirement.
6. The portable rumble strips and signs shall be removed after the completion of that day's operation.
7. Portable rumble strips and portable traffic signals shall be installed as per manufacturer's recommendations.
8. Portable traffic signals shall be used in pairs at each approach to the work zone.

FOR INTERSECTING SIDE ROADS WITHIN WORK AREA

NOTE: THE W20-1 SIGN TO BE USED ON INTERSECTING ROADS SHALL BE RED OR ORANGE. IN ALL THE TEMPORARY MOUNTED W20-1 SIGN SHOWN ON THE SIDE ROAD, WILL NOT BE REQUIRED IF ONE IS ALREADY POST MOUNTED ON THE SIDE STREET.

TWO LANE HIGHWAY, ONE LANE CLOSURE
