MEDIA ADVISORY

I-59/20 Bridge Project Weekly Update, in Birmingham  
(CBD) Central Business District Project

BIRMINGHAM – As construction continues in downtown Birmingham for Interstate Improvements, the Alabama Department of Transportation says drivers should expect delays. The following closures will take place weather permitting as follows:

Monday, June 10th, Richard Arrington Jr. Blvd. will close between Rev. Abraham Woods and 9th Avenue for 24/7 for approximately two months for bridge construction.

Detour signs will be in place where necessary. Please keep in mind that all construction plans can change due to weather and other factors. As always, use caution and obey the posted speed limits.

This work is a part of the I-59/20 Central Business District (CBD) Interchange and Bridge Replacement Project.

Motorists are requested to consider using alternate routes, adjust arrival/departure times, observe work zone speed limits and other work zone signs, and use extreme caution in this area. ALDOT thanks motorists for their patience during this Construction Operation to improve Alabama’s roadways.

ALDOT’s mission is to provide a safe, efficient, environmentally sound transportation network across Alabama. For additional information please visit our project website www.5920bridge.com and for traffic alerts and updates follow us on Facebook and Twitter @5920bridge.
