Comments or Suggestions:

One item of special importance to us is the identification of sites on our projects where contamination may have occurred due to the storage, handling, or disposal of hazardous materials. It is important that we identify such sites prior to acquiring right-of-way. Otherwise, taxpayers may incur responsibility for the cleanup of any such contamination. We appreciate any information given us on sites adjacent to this project where the following materials may have been stored, handled, spilled/leaked, or disposed of: plating waste, solvents and petroleum products, dry cleaners fluids, fertilizers, pesticides, foundry waste, paints, or other suspect materials. We especially appreciate help in identifying old gasoline station sites.

Please give any comments you have concerning hazardous wastes:

Please complete and return comment sheet to the following address by August 1, 2021. Southeast Region
Alabama Department of Transportation
299 Elba Highway
Troy, AL 36081

You may also submit your comments by voicemail (334) 807-8786
