

# Public Information

## Project Number: IM-I020(365)

Resurfacing on I-20 from the East End of the Bridge over 1st Avenue North to the East End of the Bridge over SR-4(US-78) at Exit 140, including the permanent closure of the I-20 Exit Ramp (130B) to 1st Avenue North

*The East Central Region of the Alabama Department of Transportation proposes to permanently close the I-20 Exit #130B Ramp to 1st Avenue North to improve traffic operations and motorists safety along Interstate 20 East.*

### Project Description

The proposed project will involve resurfacing and re-striping approximately 10 miles of I-20. Additionally, the exit ramp from I-20-E to 1st Avenue North (Exit #130B) will be permanently closed. Permanently closing the exit ramp will accommodate a third travel lane on I-20 Eastbound from the end of the bridge over 1st Avenue North for approximately 1250 feet, eliminating the existing merge movement. Travelers needing access to 1st Avenue may use I-20/59 (Exit # 129—Messer Airport Highway) or I-59 (Exit # 131—Oporto Madrid Blvd)
