ALDOT Seeks Input on State Planning & Research Annual Work Program, PART I, Proposed Statewide Transportation Planning Activities

MONTGOMERY – The Alabama Department of Transportation is inviting the public to give input on its draft State Planning & Research (SPR) Annual Work Program, Part I. This program is developed and updated annually in cooperation with Federal Highway Administration (FHWA).

ALDOT's SPR Work Program, Part I, consists of statewide transportation planning activities that the Department will administer. The work program includes proposed planning projects by various Bureaus within the Department. Each project includes a description of the purpose of the project, proposed activities, and cost estimates by activity or task for the upcoming fiscal year.

For more information about the draft SPR Annual Work Program, Part I and to participate and give feedback, visit:
