

# PUBLIC INVOLVEMENT

## PROJECT NO. RACR-069-000-041

### REPLACEMENT OF CONCRETE PAVEMENT ON US-11 AT LOWER COALING, MIDDLE COALING, HAGLER COALING, AND ED STEPHENS TUSCALOOSA COUNTY, ALABAMA

This project is located in Tuscaloosa County, north of Coaling, AL, along US-11 (SR-7).

The project proposes the replacement of concrete pavement along US-11 at Lower Coaling Rd, Middle Coaling Rd, Hagler Coaling Rd, and Ed Stephens Rd. The implementation of this new concrete pavement at these four sites will improve traffic flow along US-11 as a whole.

The project corridor is approximately 1.7 miles long in total.

In addition, new turn lanes will be added/modified at each of the four locations in order to further improve traffic flow/ease of access to each side road.
