## **Updated detour for Northern Boulevard and Jackson Ferry Road ALDOT project**

**MONTGOMERY, Ala.** – The Alabama Department of Transportation is modifying the detour set in place for Jackson Ferry Road at Northern Boulevard.

Motorists on Northern Boulevard intending to turn on North Jackson Ferry Road will need to exit at Lower Wetumpka Road and follow the detour signs to Forbes Drive to access Jackson Ferry Road.

Motorists on Northern Boulevard intending to turn on South Jackson Ferry Road will need to exit at Sixth Street and turn onto North Court Street and left onto Jackson Ferry Road.

All motorists turning on Northern Boulevard from North Jackson Ferry Road will utilize the Lower Wetumpka entrance ramps and those coming from South Jackson Ferry Road will utilize the Sixth Street entrance ramps.

One lane in both directions of Northern Boulevard will remain open throughout the project.

Motorists should expect delays, plan accordingly, and be mindful of people and equipment in and around the work zone.

Know before you go. ALDOT suggests utilizing [ALGOTraffic.com](http://ALGOTraffic.com) or the ALGO Traffic app when planning a commute.

The project that includes concrete pavement, traffic signs, and traffic striping began Monday, September 19 and is expected to be complete by Summer 2023.
