ALABAMA 2040 STATEWIDE TRANSPORTATION PLAN

PUBLIC & STAKEHOLDER MEETINGS

The Alabama Department of Transportation (ALDOT) is holding the first round of public and stakeholder meetings for the Statewide Transportation Plan (SWTP) update. The SWTP summarizes the current conditions of Alabama’s transportation system and its needs and priorities for the next 25 years. It addresses all modes of travel for passengers and freight—roadways and bridges, transit, bicycle/pedestrian, rail, aviation, and waterways. It identifies system needs, evaluates investments in infrastructure and maintenance, and compares historic and anticipated funding levels against needs. The resulting plan establishes the programs, policies, and strategies that will be the focus of the State’s efforts through 2040.

Come learn about the SWTP and provide your input.

Open House 5:00-6:30 pm; Presentation at 5:30 pm
