Alabama Department of Transportation

Reverse Laning of Interstate 65

North Terminus Team Leaders Checklist

(Applies to Locations 26, 27, and 28)

Location		Leader	Assistant
26	US 80 EB to I-65 SB	Dal Ogle	Judson Young
27	I-65 SB Terminus @ US 80 – South Bypass to US 80	Phillip Day	Dudley Smith
28	US 80 and US 31	Curtis Lowe	Sean Butler

Note: The steps in this checklist have been numbered to match the master checklist. Steps from the master checklist that are not included in this checklist are noted.

General

- Do not let traffic at your location enter the contraflow lanes unless you have contacted the Area Maintenance Engineer and received approval to do so.
- Make sure your vehicle is equipped with an ALDOT two-way radio. This will allow you to communicate when you are in areas that have limited cell coverage.
- This checklist contains references to the Area Maintenance Engineer (AME). The AME will designate someone on his/her staff as your contact for communication. Unless you are advised differently at a later time, that person will be your point of contact anytime there is communication between you and the AME.

AME Contact: ______ Primary Phone #: ______

- When reporting events to the AME, include the time at which the event occurred.
- When reporting times, use the time shown on your cellular device.
- Team Members are to print and carry a copy of the Master Checklist in order to better follow the overall progress of plan, especially during those steps that are omitted from this individual checklist. The Master Checklist should be printed on 11x17 paper for best viewing.
- Team Members are to carry State Highway Maps for distribution to travelers as needed. When they are available. Team Members are to also carry copies of the ALDOT Hurricane Evacuation Brochures for distribution to travelers.
- Team Members should be readily identifiable by travelers as ALDOT employees. Wear safety vests and caps with ALDOT stencils during warm weather. During inclement weather, wear the reversible rain jacket previously supplied.
- When contraflow is used, it should be scheduled for daytime hours. However, Team Members should arrive on-site prepared for an extended period of operation <u>should traffic</u> <u>conditions warrant it</u>. For planning purposes, bring sufficient food, clothing, medicines, etc., for an additional 12 hours of operation.

Level 1 (Beginning of Hurricane Season)

No action required.

*** Steps not included in this checklist: 1

Level 2 (Hurricane Watch declared)

	Completed	Date/Time	Activity
2.			Each Team Leader notified by the Central Office that a hurricane watch is in effect. Team Leader is advised that he/she is on-call.
*>	** Steps	not include	ed in this checklist: 3 and 4
5.			Each Team Leader contacts the Assistant Team Leader.
6.			Each Team Leader makes sure that the following items are on-hand for him/herself and for the Assistant Team Leader: 1) safety vests, 2) flashlights, 3) extra batteries, 4) traffic flags, 5) rainsuits, 6) cooler with drinks, 7) traffic counter, 8) first aid kit and 9) food.
Level	<u>3</u> (Hurrie	cane Warni	ng Declared)
	<u>Completed</u>	Date/Time	Activity
7.			Each Team Leader notified by the Central Office that a hurricane warning is in effect. The Team Leader is provided with most current information on hurricane location, speed, strength and expected time

*** Steps not included in this checklist: 8 thru 10

and location of landfall.

- 11.
 Each Team Leader contacts the Assistant Team Leader. Team Members are to travel as needed so that they are not more than two hours away from their assigned location.
- 12. Each Team Leader contacts the Central Office and advises their status and location from which they will mobilize and provides phone, radio and Southern LINC numbers by which they can be reached.

*** Steps not included in this checklist: 13 thru 17

Level 4 (Implementation of Reverse Laning)

18. The Central Office notifies the Team Leader that I-65 will be reversed, relays the time that the reversal will start and establishes the arrival time at the assigned location.

Page 3 of 8

Completed Date/Time Activity

19. Each Team Leader contacts the Assistant Team Leader, advises that I-65 will be reversed and relays the designated start time and arrival time.

*** Steps not included in this checklist: 20 thru 21

- 22.
 Each Team Leader and Assistant Team Leader arrive at assigned location.
- 23. Each Team Leader reports to the Montgomery Area Maintenance Engineer that they are on site.

*** Steps not included in this checklist: 24

- 25.
 Each Team Leader confers with local Montgomery Area Maintenance personnel and confirms that all traffic control devices are on site and ready to be placed into final position when needed.
- 26. Each Team Leader contacts the Montgomery Area Maintenance Engineer and confirms that the reverse laning procedure is ready to be implemented at the assigned location. Each Team Leader advises the Montgomery Area Maintenance Engineer as to availability of DPS troopers at that location.

*** Steps not included in this checklist: 27 thru 29

30. The Montgomery Area Maintenance Engineer notifies the Team Leader at Location 28 to begin the reverse laning procedure.

*** Steps not included in this checklist: 31

- 32. Location 28 flips down all detour signs, then the ramp from US 31 to US 80 eastbound is barricaded and blocked with vehicles, the Team Leader at Location 28 notifies the Team Leader at Location 26 to begin barricading the ramp carrying traffic from US 80 EB to I-65 SB, then the eastbound traffic on US 80 is diverted onto US 31.
- 33.
 Location 26 verifies that the EB segment between Location 26 and location 28 is clear, then the ramp from US 80 EB to I-65 SB is closed and barricaded.

*** Steps not included in this checklist: 34

35. The Montgomery Area Maintenance Engineer notifies the Team Leader at Location 27 to install traffic control and divert traffic from I-65 SB onto US 80 WB. The Montgomery Area Maintenance Engineer notifies the Team Leaders at 26 and 28 that traffic is being diverted at Location 27.

72.		Location 26 installs traffic control devices on I-65 roadway for crossover and transition.	
73.		The Team Leader at Location 26 notifies the Montgomery Area Maintenance Engineer that traffic control devices have been installed on I-65 SB roadway to divert contraflow traffic through crossover to I- 65 NB roadway.	
*** Steps	not include	ed in this checklist: 74 thru 79	
80.		The Team Leader at Location 26 notifies the Montgomery Area Maintenance Engineer when the initial wave of reversed direction traffic reaches his/her location.	
81. 🗆		Each Team Leader and Assistant Team Leader remain at their assigned location and respond as needed while traffic moves northward. Each Team Leader updates the Montgomery Area Maintenance Engineer as needed.	
82.		Each Team Leader monitors traffic at his/her assigned location. Each Team Leader updates the Montgomery Area Maintenance Engineer as needed. In addition, they report traffic counts when contacted by Central Office.	
*** Steps not included in this checklist: 83 thru 88			
89.		The Montgomery Area Maintenance Engineer notifies each Team Leader when the termination of the reverse laning plan has begun.	
*** Steps	not includ	ed in this checklist: 90 thru 97	
98. 🗆		If an obstruction is encountered by the Assistant Team Leader from Location #1, the Area Maintenance Engineer will contact each Team Leader north of the obstruction, advise him/her that the Assistant Team Leader from Location #1 will be delayed and then relay to him/her the obstruction type, location and estimated clearance time.	
*** Steps not included in this checklist: 99 thru 102			
103. 🗆		The Team Leader at Location 26 is contacted by the driver of the DOT vehicle trailing the end of the reversed traffic when he/she reaches that Team Leader's location.	
104. 🗆		The Team Leader at Location 26 notifies the Montgomery Area Maintenance Engineer that the DOT trailing vehicle has passed his/her location and that termination of the reverse laning plan is beginning.	

<u>Comple</u>	eted Date/Time	Activity
		The Montgomery Area Maintenance Engineer notifies the Team
		Leaders at Location 27 and Location 28 that the DOT trailing vehicle
		has arrived at Location 26 and that termination of the reverse laning
		plan is beginning.
105. 🗆		The Montgomery Area Maintenance Engineer notifies Location 26 that
		rolling roadblock has been initiated and to remove all traffic control
		devices, barricades, cover or flip signs, and secure message boards on
		I-65 and US 80 ramp.
106. 🗆		Location 26 removes traffic control devices/barricades from I-65 NB
		and SB roadway.
107. 🗆		The Team Leader at Location 26 notifies The Montgomery Area
		Maintenance Engineer that all traffic control devices/barricades have
		been removed and I-65 NB and SB roadway is clear. Signs are
		covered or flipped up. Variable Message Boards are secured.
*** St	eps not inclu	ded in this checklist: 108
109. 🗆		The Montgomery Area Maintenance Engineer notifies the Team Leader
		at Location 27 to remove traffic control devices.
		The Montgomery Area Maintenance Engineer notifies the Team Leader
		at Location 28 to remove traffic control devices.
110. 🗆		Traffic control devices at Location 27 and Location 28 are removed.
		Signs are covered or flipped up. Variable message boards are secured.
111. 🗆		The Team Leaders at Location 27 and Location 28 notify the
		Montgomery Area Maintenance Engineer that traffic control has been
		removed.
112. 🗆		The Team Leader, Assistant Team Leader and State Troopers remain
		at assigned locations until released by the Montgomery Area
		Maintenance Engineer to prevent traffic from operating in contraflow
		mode.
*** Steps not included in this checklist: 113		
114. 🗆		The Montgomery Area Maintenance Engineer notifies the Team Leader
		to release the DOT personnel from their assigned location.
*** St	eps not inclu	ded in this checklist: 115 thru 116
