Attn: Mr. James Carlson, PE, Water Division

Re: **FY 2020 MS4 Annual Report**
NPDES Permit No. ALS000006

Dear Mr. Carlson:

Attached is the Fiscal Year 2020 annual report for the ALDOT MS4 Stormwater Management Program (SWMP). This submission is in compliance with Part IV of the ALDOT MS4 permit (NPDES Permit No. ALS000006) reissued on September 30, 2019. The report details the MS4-applicable actions performed by ALDOT and the status of each activity designated by the SWMP Plan (SWMPP) during the period of October 1, 2019, to September 30, 2020. The report applies to the SWMPP version dated June 30, 2020. A revision of the SWMPP is being submitted under a separate cover; SWMPP modifications are explained in the annual report.

If you should have any questions concerning the report or wish to discuss any of the content in the report, please contact Dr. Scott Rogers, Environmental Coordination Engineer, at (334) 353-6214.

Sincerely,

Edward N. Austin, PE
Chief Engineer

ENA/WFA/SCB/WDH/SWR

Attachment: FY 2020 MS4 Annual Report

**ALABAMA DEPARTMENT OF TRANSPORTATION
MS4 STORMWATER MANAGEMENT PROGRAM
NPDES Permit No. ALS000006**

**ANNUAL REPORT
Fiscal Year 2020**

I. Introduction

A. Background

The U.S. Environmental Protection Agency (EPA) regulates urban stormwater management under the National Pollutant Discharge Elimination System (NPDES). Urban stormwater collects in, flows through, and discharges from a “municipal separate storm sewer system” (MS4). Thus, EPA refers to the mechanism for regulated urban stormwater management as the “MS4 program.” The Alabama Department of Environmental Management (ADEM) carries out the MS4 program at the state level and regulates urban stormwater management for qualifying public entities in Alabama. (The acronym “MS4” can also refer to such a public entity.)

In 2013, ADEM issued to the Alabama Department of Transportation (ALDOT) an individual MS4 permit (NPDES No. ALS000006) covering ALDOT’s MS4-applicable activities throughout Alabama. This MS4 permit was designed specifically for ALDOT and replaced regulatory coverage of ALDOT under MS4 permits issued previously. After a full five-year permit term and an administrative continuation, ADEM reissued this MS4 permit to ALDOT with some modifications on September 30, 2019. (Hereinafter, the 2019 version of the MS4 permit will be referred to as simply “the Permit.”) The Permit went into effect on October 1, 2019, and is intended to stay in effect for a term of five years (i.e., through September 30, 2024).

The Permit applies to areas of the state as specified by Permit item I.A. Requirements of the Permit largely fall under six minimum control measures: Structural Controls Operation, Public Education & Public Involvement (PEPI), Illicit Discharge Detection & Elimination (IDDE), Construction Site Stormwater Runoff Control, Post-Construction Stormwater Management, and Pollution Prevention / Good Housekeeping (PPGH). In addition, the Permit also contains specific MS4 monitoring requirements.

ALDOT developed a stormwater management program (SWMP) to address the requirements of the Permit and other MS4 stormwater management objectives. The document containing details of the SWMP is the “Stormwater Management Program Plan” (SWMPP). The SWMPP explains the ALDOT MS4 stormwater management activities to be conducted over the Permit term, the ALDOT parties associated with particular activities, the goals corresponding to the activities for the Permit term, and the intended timeframes for the completion of activities. The first version of the SWMPP applicable to the term of the Permit was submitted to ADEM on June 30, 2020. One revision of the SWMPP dated January 29, 2021, has been prepared. Thus, MS4-applicable activities performed by ALDOT during Fiscal Year (FY) 2020 pertain to the June 30, 2020, version of the SWMPP.

B. Purpose of the Annual Report

ALDOT provides updates with respect to SWMPP implementation through annual reporting. As required by Permit item IV.A.1, ALDOT is to submit an annual report to ADEM by January 31 of each year the Permit is in effect. Each annual report is to cover the previous fiscal year (i.e., October 1 – September 30). Generally, the material included in the report is governed by items IV.A.4 and IV.B of the Permit.

This document is the annual report covering FY 2020 (i.e., October 1, 2019 – September 30, 2020). MS4-applicable stormwater management actions ALDOT performed during FY 2020 and the statuses of SWMPP-identified activities during FY 2020 are explained in Part II of this report. Part III of this report provides ALDOT's evaluation of its SWMP given actions performed and data collected through the end of FY 2020. In Part IV, the future direction of the SWMP is discussed; the discussion in part addresses modifications made to the SWMPP upon review of FY 2020 activities. Appendices that contain information to supplement Parts II through IV are included in this annual report as well. The appendix structure used in this report is designed to largely mirror that of the SWMPP in order to facilitate connectivity between the SWMPP and this report.

II. Actions Performed & Statuses of Activities during FY 2020

In this section, summaries of FY 2020 actions and statuses are presented for each SWMPP activity category. Emphasis is placed on certain actions and statuses rather than on others, as judged appropriate. A comprehensive list of SWMPP activities with corresponding FY 2020 actions and statuses is provided in Appendix A to supplement the discussion that follows. The list also contains expected tracking data for activities as well as references for finding additional information.

The COVID-19 pandemic began during FY 2020 and continued throughout the remainder of FY 2020. ALDOT was able to carry out many of its planned FY 2020 MS4 program activities despite the pandemic, but some activities could not be conducted because of public health and employee safety concerns.

A. Stormwater Management Program Plan

ALDOT modified the SWMPP during FY 2020. Explanations of those modifications are provided in Part IV of this report.

The timely submission of this annual report will satisfy the annual report submission requirement for Calendar Year 2020. Annual reports for the Permit term to date have been submitted on time.

B. Structural Controls Operation

During FY 2020, electronic versions of post-construction BMP inventory and inspection forms were developed for the June 30, 2020, version of the SWMPP. The forms were not significantly

revised after SWMPP development. No structural BMPs were fully operational in MS4 areas as of the end of FY 2020, so no structural BMP inventory, inspection, or maintenance activity took place in the field. Section II.F below discusses post-construction stormwater management actions further.

C. Public Education & Public Involvement

ALDOT continued its successful anti-litter public awareness campaign in FY 2020. During FY 2020, 127 radio stations and 26 television stations throughout Alabama broadcasted a campaign public service announcement (PSA) a total of approximately 16,000 times. Five social media posts with PSA-related content were published on two platforms (Twitter and Facebook), reaching a total of approximately 35,000 people. A press release about the PSA was distributed to over 400 media outlets. The press release, a sample media publication discussing the PSA, and a report detailing the coverage and demographic reach of the PSA can be found in Appendix C.

ALDOT also provided ongoing anti-litter public awareness for motorists by means of signage posted on ALDOT roadways throughout the state. During FY 2020, 715 anti-litter signs were active on ALDOT roadways across all ten ALDOT Areas. A breakdown of signs posted by ALDOT Area is given in Appendix C.

Also with respect to signage, ALDOT in FY 2020 continued the strategic deployment of signage to inform motorists of their entering an important watershed. As of the end of FY 2020, signs had been deployed on ALDOT roads at 11 different locations to announce motorist entrance into one of seven watersheds (i.e., Chattahoochee River, Escatawpa River, Mobile River, Perdido River, Tallapoosa River, Tennessee River, or Tombigbee River).

ALDOT maintained its agreements with Alabama People Against a Littered State (PALS) and Keep Alabama Beautiful (KALB) during FY 2020. ALDOT contributed \$278,660 to PALS and \$187,988 to KALB for FY 2020 activities. Activities conducted by PALS and KALB were in line with expectations set by contracts with ALDOT; Appendix C includes activity reports submitted by PALS and KALB that were reviewed by ALDOT. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed up with PALS and KALB to determine if litter control activities are being performed in that area. Regarding the PALS Adopt-a-Mile program specifically, 807 parties were active participants performing litter pickup on a total of 816.08 miles of roadway as of the end of FY 2020; a breakdown by ALDOT Region of roads adopted is provided in Appendix C.

Beyond addressing litter, ALDOT continued activities addressing the other target pollutants (i.e., sediment, herbicide, and chemicals and waste materials) as well during FY 2020. ALDOT carried out its vegetation management training programs and typical good housekeeping training for support facility employees, as expected; the outcomes of these programs are discussed below in Section II.G and Section II.H, respectively. Appendix C provides information regarding FY 2020 activities conducted in these programs.

However, ALDOT was not able to facilitate Qualified Credentialed Inspector (QCI) recertification training during FY 2020 because of the COVID-19 pandemic. Instead, inspectors had QCI certification extended through the end of FY 2020 and into FY 2021 in lieu of undergoing recertification with ADEM's approval. Though recertification training was not facilitated, 95 employees were able to undergo initial QCI certification. More discussion about QCI training can be found in Section II.E below.

ALDOT participated in and facilitated education activities targeted for youth during FY 2020, though some activities in which ALDOT usually participates could not be held because of the COVID-19 pandemic. For instance, ALDOT could not participate in water festivals for schoolchildren as those events were cancelled. However, ALDOT Mobile Area personnel were able to give tours of the Mobile Tunnel before the pandemic began; approximately 700 school-age children got to tour the tunnel and learn about tunnel operations, some of which are water resources or environmental in nature. More details are provided in Appendix C.

ALDOT's funding of stormwater management-related university research continued in FY 2020. Five research projects were actively supported during FY 2020. Appendix C gives a list of research projects funded by ALDOT during and prior to FY 2020; the total ALDOT funding amount for each supported project is provided.

ALDOT maintained significant interaction with the citizens in communities throughout Alabama during FY 2020. ALDOT maintained Web-based mechanisms as means to educate and engage with the public, including the Environmental Concern Submission Form. Nine environmental concerns were submitted by citizens using the Environmental Concern Submission Form. Four additional concerns were reported through environmental contact means found on the ALDOT Web site. Details about the citizen reports and follow-up actions can be found in Appendix C.

ALDOT's use of Twitter to advance public awareness continued to grow during FY 2020. Three ALDOT Regions posted a total of at least four stormwater/environmental messages on Twitter. All Region Twitter accounts had followers numbering in the thousands as of the end of FY 2020. Appendix C provides more details about Region Twitter activities.

No community outreach group meetings were held during FY 2020 owing to the COVID-19 pandemic, but ALDOT was still able to engage at the local level in important ways. ALDOT participated in the Collaborative Environmental Network of Alabama by sharing insight about ALDOT's environmental challenges and practices in forums attended by fellow MS4s, utility companies, business leaders, faith leaders, environmental advocates, and other stakeholders. ALDOT continued collaboration with The Nature Conservancy and the Mobile Bay National Estuary Program. Also, ALDOT Southwest Region maintained the One Clean Mobile partnership with the City of Mobile, and ALDOT Alexander City Area continued participation in the Calhoun County Stormwater Cooperative. In addition, ALDOT maintained cooperative maintenance agreements with the City of Huntsville, the City of Montgomery, and Etowah County so that those local authorities could perform litter pickup on ALDOT property. Additional details about ALDOT's local-level activities are given in Appendix C.

ALDOT continued to be an integral member of the Alabama Stormwater Association (ASA) in FY 2020 by maintaining a comprehensive contact list of Alabama MS4 and other stormwater professionals and by playing significant roles in facilitating a seminar (held virtually due to COVID-19) so that those professionals could gain technical knowledge and collaborate. Two ALDOT employees served on the ASA board of directors during FY 2020. ALDOT's involvement in ASA is further detailed in Appendix C.

ALDOT participated in the environmental-oriented efforts of several professional organizations during FY 2020. Employees represented ALDOT as members of national organizations like the International Erosion Control Association and the American Society of Civil Engineers, state-level organizations like the Alabama Chapter of the Soil and Water Conservation Society, and local-level organizations like the Choccolocco Creek Watershed Alliance. ALDOT participation in professional organizations is further explained in Appendix C.

Regarding additional education opportunities for ALDOT personnel, ALDOT employees participated in at least 11 professional educational events (e.g., conferences, seminars, workshops) during FY 2020. Appendix C provides a table with these events listed and the ALDOT attendance information for each event.

D. Illicit Discharge Detection & Elimination

During FY 2020, ALDOT began a review of the major outfall inventory and commenced the major outfall dry-weather screening applicable to the Permit term. Outfalls on inventory in the Dothan, Auburn/Opelika, and Phenix City MS4 areas and at the Dothan District Office were reviewed; one major outfall that had been located in the Dothan MS4 area was removed from the inventory. All major outfalls in the Dothan, Auburn/Opelika, and Phenix City MS4 areas and at the Dothan District Office were screened during FY 2020. Three non-stormwater flows in all were observed during these screening efforts, but they were flows that had been observed and reported during the previous MS4 permit term. A summary of inventory and screening activities relevant to the Permit and the updated outfall inventory maps for the Dothan MS4 area can be found in Appendix D.

One possible illicit discharge concern was submitted during FY 2020 by a citizen using the Environmental Concern Submission Form; the location associated with the concern was outside of ALDOT jurisdiction. Details about that concern submission can be found in the environmental concerns log given in Appendix C.

E. Construction Site Stormwater Runoff Control

In FY 2020, ALDOT continued to oversee Construction General Permit coverage and compliance as described in the SWMPP. There were 35 active, permitted construction projects in MS4 areas during FY 2020. Those projects are listed in a table provided in Appendix E.

ALDOT received one concern submission relating to construction site stormwater runoff control, but this concern was determined not to be related to ALDOT construction activity. More details about the concern submission are given in the environmental concerns log in Appendix C.

As noted in Section II.C above, ALDOT was not able to facilitate Qualified Credentialed Inspector (QCI) recertification training during FY 2020 because of the COVID-19 pandemic and, therefore, extended inspector QCI certification through the end of FY 2020 and into FY 2021. Though recertification training was not facilitated, 95 employees were able to undergo initial QCI certification.

F. Post-Construction Stormwater Management

During FY 2020, ALDOT continued implementing post-construction stormwater management, employing policies and design guidance formalized prior to the Permit term. Also, electronic versions of post-construction BMP inventory and inspection forms were developed and included in Appendix F of the June 30, 2020, version of the SWMPP. Those forms were not significantly revised after SWMPP development. No post-construction BMPs were fully operational in MS4 areas as of the end of FY 2020, so no field activity relevant to post-construction stormwater management occurred.

G. Pollution Prevention / Good Housekeeping

Eighteen support facilities were inspected during FY 2020, and the deficiencies noted during inspections were resolved or are in the process of resolution in accordance with facility SPCC Plans. The facility inspections performed and deficiencies observed during inspections are summarized in a table included in Appendix G. No significant revision of the ALDOT-wide support facility SPCC program was made during FY 2020. Two support facilities revised their individual facility SPCC Plans during FY 2020.

With respect to support facility good housekeeping training, sessions covering SPCC, universal waste, and GHS were conducted at ALDOT support facilities during FY 2020. Appendix C provides a table that indicates the dates of sessions held at specific support facilities for particular types of training along with the number of employees attending each session.

Regarding transportation facility PPGH, applicable maintenance activities (i.e., litter pickup, snow and ice control, drainage structure maintenance, erosion control, and herbicide treatment and surveillance) continued to be performed in manners intended to reduce the potential for negative stormwater runoff impacts during FY 2020. Of particular note, full-width litter pickup was performed on 19,241.01 shoulder miles throughout Alabama, and 4,383 instances of spot litter pickup occurred as indicated by completed work reports. Other total activity work amounts are given in a table in Appendix G.

As noted above in Section II.C, vegetation management training continued throughout FY 2020. Fourteen sessions of the vegetation management training course were held for a total of 431 participants. Details about individual vegetation management training course sessions are provided in a table in Appendix C. Agendas for this training (for Calendar Years 2019 and 2020) are also provided in Appendix C. Seven vegetation management training newsletters were distributed during FY 2020. In addition, a total of 41 employees over four sessions held during FY 2020 participated in the “Review for Commercial Applicator Examination” course.

H. MS4 Monitoring

In FY 2020, ALDOT developed a visual observation strategy for MS4 monitoring that is explained in the SWMPP. Preparations began to implement this strategy after the SWMPP was developed. Six locations across Alabama where an ALDOT road intersects a stream associated with a 303(d) or TMDL designation and siltation or turbidity is named as a pollutant of concern were selected as monitoring locations. These locations are the following:

- U.S. Highway 431 at Brier Fork (Flint River) in Madison County,
- U.S. Highway 431 at Beaverdam Creek in Madison County,
- Alabama Highway 152 at Three Mile Branch in Montgomery County,
- Alabama Highway 110 at Jenkins Creek in Montgomery County,
- U.S. Highway 90 at Halls Mill Creek in Mobile County, and
- U.S. Highway 98 at D'Olive Creek in Baldwin County.

The monitoring locations are depicted on a map provided in Appendix H.

III. Evaluation of the Stormwater Management Program

The success ALDOT experienced in implementing its SWMP in the previous MS4 permit term implies that ALDOT will experience similar success implementing the redeveloped SWMP during the term of the Permit, especially given that the Permit resembles greatly the MS4 permit issued in 2013. Many activities from the previous permit term have simply been carried over or have even been improved for the term of the Permit. Progress made in implementing the SWMPP during FY 2020 has been encouraging, despite the unavoidable obstacles resulting from the COVID-19 pandemic. ALDOT's evaluation of its MS4 program based on the accomplishments of the first year of the Permit term follows.

A. Overall Program Compliance Status

Actions expected by either the Permit or the SWMPP to be performed during FY 2020 were performed by ALDOT when possible. The COVID-19 pandemic prevented some activities from taking place and reduced the amounts of other activities performed, but the pandemic caused no unmitigated compliance issues during FY 2020.

B. Major Findings Resulting from the Program

ALDOT's findings early in the Permit term mostly mirror those of the previous MS4 permit term, as expected. The PEPI program continues to be robust. The ALDOT anti-litter public awareness campaign, anti-litter signage, and watershed boundary signage are strategically targeting citizen motorists at a large scale. The accomplishments of PALS and KALB demonstrate the importance of ALDOT's ongoing support of external anti-litter campaigns to supplement ALDOT's own anti-litter efforts. ALDOT's online exposure and communication via social media with the public continue to increase. ALDOT continues to connect with citizens and with other MS4s at the local level through partnerships such as One Clean Mobile and through participation in organizations like the Alabama Stormwater Association. While COVID-

19 disrupted QCI training during FY 2020, the established QCI training and vegetation management training conducted by ALDOT continues to be set up to provide both employees and non-employees training well-regarded by the stormwater professional community. Findings from environmental concerns submitted by citizens, major outfall screening, and good housekeeping on ALDOT property continue to indicate no major or widespread deficiencies in ALDOT MS4 stormwater management practices.

C. Program Strengths & Weaknesses

Well-established, MS4-applicable activities continue to be noteworthy strengths of the ALDOT SWMP. In particular, education of employees, education of the public, involvement with the public, construction stormwater management, and PPGH for transportation facilities are typically conducted in highly proficient manners and usually achieve expected outcomes or even outcomes beyond those that are required by the Permit. At the beginning of the previous MS4 permit term, ALDOT's formulated IDDE program was untested, but it proved to be viable over that MS4 permit term. The IDDE program seems to be as viable early in the term of the Permit, especially with respect to major outfall inventory and screening. PPGH procedures for ALDOT support facilities continue to be implemented smoothly overall under the formalization that took place during the previous MS4 permit term.

ALDOT's MS4 Monitoring program during the previous MS4 permit term was more reasonable than monitoring efforts conducted under MS4 permits issued before 2013, but the issues concerning the monitoring data collected during that MS4 permit term led ALDOT to develop the visual monitoring strategy for the term under the Permit. No monitoring data was collected during FY 2020, so the effectiveness of the visual monitoring strategy cannot be determined yet. The Post-Construction Stormwater Management program implementation has progressed as expected since the previous MS4 permit term, but no post-construction BMPs were fully operational in MS4 areas as of the end of FY 2020. Full field implementation of post-construction BMPs will be needed to adequately gauge the effectiveness of the program.

D. Overall Program Effectiveness

No evidence has emerged during the short time the Permit has been in effect to refute ALDOT's prior assessment that its established SWMP practices are meeting MS4 regulatory requirements as well as ALDOT's stormwater management objectives in a sustained manner. Since the SWMP is in many ways unchanged relative to that of the previous MS4 permit term, ALDOT is not expecting a different assessment as the Permit term advances, but ALDOT will continue to collect data in future years and draw reasonable conclusions as appropriate.

IV. Future Direction of the Program

At this point in the Permit term, ALDOT has no reason to develop a major revision of the June 30, 2020, version of the SWMPP given the sustained success of the ALDOT MS4 program. However, multiple, relatively minor SWMPP modifications are needed based on further review of the SWMPP after FY 2020. Thus, an SWMPP revision dated January 29, 2021, was prepared,

as mentioned in Section I.A. above. Modifications in that revision mostly fall into one of the following categories:

- updates of statuses of activities in light of FY 2020 outcomes,
- updates of ALDOT MS4 point-of-contact information because of personnel reassignments that occurred after June 30, 2020,
- updates in Appendix D of the SWMPP of the MS4 area maps given the outcomes of major outfall inventory review during FY 2020 (discussed above in Section II.D),
- inclusion in Appendix H of the SWMPP of a map depicting the six selected monitoring locations (discussed above in Section II.H),
- discussion in Chapter 6 of the SWMPP regarding how the ALDOT MS4 program already addresses expected post-construction stormwater management requirements of the Coastal Zone Act Reauthorization Amendments in the forthcoming reissuance of the Construction General Permit, and
- corrections of any detected inadvertent misstatements, grammatical issues, and aesthetic issues.

Appendix A:

Supplemental Material for Section II.A

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

**ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary**

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
Stormwater Management Program Plan					
II.A.1; II.A.2; II.C.1; II.C.2	Stormwater Management Program Plan (SWMP)	State Design Engineer	Develop SWMP. Revise SWMP as needed throughout Permit term.	SWMP developed. No revision of SWMP during FY 2020, but one revision (dated 01/29/2021) submitted.	All citations of the SWMP below refer to the 06/30/2020 version. See Part IV for explanations of modifications found in the 01/29/2021 version of the SWMP.
IV.A.1; IV.A.2; IV.A.4; IV.B	MS4 annual reports	State Design Engineer	Compile and submit to ADEM an annual report for the previous fiscal year by January 31 of every year during which Permit is in effect.	Annual report for FY 2020 compiled and submitted to ADEM on time. All annual reports submitted on time during Permit term.	
Structural Controls Operation					
II.B.1.b.1; II.B.1.c; II.B.1.d.1	Inventory & map of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory forms. Update inventory with fully operational structural BMPs. Develop map depicting structural BMP locations; update map as structural BMPs become fully operational.	No significant revision of electronic inventory form developed during FY 2020. No BMPs on inventory. (No BMPs let for bidding after April 2015 fully operational.)	See SWMP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
II.B.1.b.2; II.B.1.b.3; II.B.1.c; II.B.1.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist (inspection form) for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form developed during FY 2020. No revision of inspection form developed. No inspections performed. (No BMPs fully operational.)	See SWMP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.1.b.3; II.B.1.b.4; II.B.1.b.5; II.B.1.c; II.B.1.d.1; II.B.1.d.2	Maintenance of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection maintenance. Stabilize eroded areas of structural BMPs as needed. Remove sediment and debris from structural BMPs as needed. Track maintenance work reports completed for each structural BMP.	Maintenance procedures implemented. No BMP maintenance activity performed. (No BMPs fully operational.)	
Public Education & Public Involvement					
II.B.2.a; II.B.2.c.1	Implementation of ALDOT Public Education & Public Involvement (PEPI) program	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Computer Services Bureau Chief; Region Engineers	Implement PEPI program in areas served by the ALDOT MS4. Adjust program as needed.	Program implementation ongoing. No major program adjustments after submittal of SWMP on 06/30/2020.	See SWMP (c. 3) for a description of the PEPI program.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a; II.B.2.c.2	Mechanism(s) to provide public with stormwater management information & opportunities for involvement	State Design Engineer; Computer Services Bureau Chief; Region Engineers	Maintain stormwater management content on the ALDOT Web site. Post stormwater/environmental messages online via Twitter, as appropriate. Track the number of MS4-applicable Twitter messages posted.	Stormwater management content published on Web site and updated as necessary. During FY 2020, 3 ALDOT Regions posted a total of at least 4 stormwater/environmental messages on their Twitter accounts. All accounts had numbers of followers in the thousands as of the end of FY 2020.	See App. C for "ALDOT Miscellaneous Community Outreach Activities: Fiscal Year 2020" for Twitter activity summaries. See SWMPP (App. C) for a sample of typical ALDOT stormwater/environmental Twitter messages.
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.2; II.B.2.d	Publish SWMPP & MS4 annual reports online	State Design Engineer; Computer Services Bureau Chief	Publish SWMPP and annual reports on the ALDOT Web site.	06/30/2020 version of SWMPP and previous annual report (FY 2019) published on the ALDOT Web site prior to FY 2020 annual report submittal. (01/29/2021 version of SWMPP and FY 2020 annual report published on Web site during FY 2021.)	Web site address as of the end of FY 2020: https://www.dot.state.al.us/dsweb/divped/EnvironmentalCoordination/index.html
II.B.2.b.1; II.B.2.c.2	Mechanism to engage public in the development of SWMPP	State Design Engineer; Computer Services Bureau Chief	Encourage citizens to express concerns about ALDOT's SWMP through the Environmental Concern Submission Form (accessible through the ALDOT Web site).	Environmental Concern Submission Form in use to receive citizen concerns. Encouragement to express SWMP concerns provided on ALDOT Web site.	Web address of form as of the end of FY 2020: https://miscwapps.dot.state.al.us/EConcern/
II.B.2.b.2	Identification of potential pollutants to be targeted by PEPI program	Media & Community Relations Bureau Chief; State Design Engineer; State Construction Engineer; State Maintenance Engineer; Materials & Tests Engineer; Region Engineers	Identify potential pollutants.	No change in potential pollutants (litter, sediment, herbicide, and chemicals & waste materials) identified.	See SWMPP (s. 3.2) for discussion regarding pollutant identification.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Coordination with anti-litter organizations to support litter awareness campaigns & litter pickup activities	State Maintenance Engineer	Maintain agreement with at least one organization throughout Permit term. Track funding of anti-litter organizations (for PSAs, brochures, litter pickup logistics, etc.). Review activities conducted by anti-litter organization(s) supported. Track participation metrics (i.e., applications, participant totals, miles adopted) while an ALDOT-Alabama PALS agreement is in effect.	Agreements with Alabama PALS and Keep Alabama Beautiful maintained. \$278,660 contributed to PALS during FY 2020. \$187,988 contributed to Keep Alabama Beautiful during FY 2020. Activity information sent by PALS and KALB for FY 2020 reviewed. Activities conducted by PALS and KALB were in line with contract expectations. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed-up with PALS and KALB to determine if litter control activities are being performed in that area. During FY 2020, ALDOT processed 24 applications made by parties to participate in the PALS Adopt-A-Mile program. At the end of FY 2020, 807 parties were participating in Adopt-A-Mile, and 816.08 miles had been adopted.	See SWMPP (App. C) for PALS and Keep Alabama Beautiful agreements. See App. C for details of PALS and Keep Alabama Beautiful FY 2020 activities and listings of route segments adopted through the PALS Adopt-A-Mile program.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Facilitation of an ALDOT anti-litter public awareness campaign	Media & Community Relations Bureau Chief	Continue implementation of the ALDOT public awareness campaign centered around anti-litter PSA. Track TV and radio ads with campaign content produced, social media posts related to campaign, and press releases related to campaign.	Anti-litter PSA broadcasted by 127 radio stations and 26 TV stations throughout Alabama almost 16,000 times during FY 2020. 5 social media posts with PSA-related content published by 5 different entities on 2 platforms reached approximately 35,000 people. Press release about PSA distributed to over 400 media outlets.	See App. C for press release, a sample media publication regarding PSA, and a report detailing PSA coverage and demographic reach.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage with anti-litter messaging for motorists	State Maintenance Engineer	Maintain sign designs and guidelines for sign placement. Track total anti-litter signs deployed in each ALDOT Area.	Sign designs and placement guidelines maintained. 715 anti-litter signs active during FY 2020. Signs distributed among all 10 ALDOT Areas.	See App. C for "ALDOT Active Anti-Litter Signage: Fiscal Year 2020."
II.B.2.b.3; II.B.2.b.4.a.iii; II.B.2.c.2; II.B.2.c.3	Mechanism for citizen reporting of stormwater management-related concerns	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track reports received from the Environmental Concern Submission Form.	Environmental Concern Submission Form maintained. 7 citizens submitted one-time concerns via Environmental Concern Submission Form during FY 2020; 2 additional citizens submitted the form multiple times to report the same issue. (4 additional concerns submitted using environmental contact means found on the ALDOT Web site.) Concerns submitted addressed appropriately.	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2020."
II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage notifying motorists of watershed boundaries	State Maintenance Engineer	Maintain watershed boundary sign designs and guidelines for sign placement. (Deployment depends on availability of ADEM funding.) Track signs deployed.	Sign designs and placement guidelines maintained. As of the end of FY 2020, signs have been installed at 11 different locations (at the boundaries of 7 Alabama watersheds).	See SWMPP (App. C) for pictures of some signs deployed and the sign deployment plan.
II.B.2.b.4.a.iv	Support of environmental restoration activities	State Design Engineer	Track support (funding, logistics, insight, etc.) of environmental restoration activities.	No support given so far during the Permit term.	
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Construction stormwater awareness program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 95 employees underwent initial QCI certification in FY 2020. Because of the COVID-19 pandemic, 403 certified inspectors had QCI certification extended through the end of FY 2020 and into FY 2021 in lieu of undergoing recertification training facilitated by ALDOT.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2020" and "ALDOT QCI Recertification Training: Fiscal Year 2020."
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	14 sessions of vegetation management training (with 330 ALDOT and 101 non-ALDOT participants in all) facilitated during FY 2020. 4 sessions of the "Review for Commercial Applicator Examination" course (with 41 employee participants in all) held during FY 2020. 7 newsletters distributed during FY 2020.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2020," for "ALDOT Vegetation Management Training Course: Fiscal Year 2020," and for session agendas for CYs 2019 and 2020. See SWMPP (App. C) for example newsletter.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2020, 30 sessions of SPCC training, 30 sessions of universal waste training, and 30 sessions of GHS training were facilitated. 447 employees participated in SPCC training, 447 employees participated in universal waste training, and 447 employees participated in GHS training. (Hazardous materials training for ALDOT Area coordinators was not facilitated during FY 2020.)	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2020."
II.B.2.c.3	Support & funding of academic research projects	Research & Development Engineer	Track particular projects actively supported by ALDOT and amounts of funding provided for those projects.	5 projects actively supported during FY 2020.	See App. C for "ALDOT Stormwater Management Research: Fiscal Year 2020."
II.B.2.c.3; II.B.2.c.4; II.F.1.b	Efforts to coordinate or collaborate with other MS4s	State Design Engineer; State Maintenance Engineer; Region Engineers	Track ALDOT coordination or collaboration with other MS4s.	During FY 2020, ALDOT participated in multiple activities intended to promote coordination or collaboration between ALDOT and other MS4s.	See App. C for "ALDOT MS4 Coordination Activities: Fiscal Year 2020."
II.B.2.c.4	Participation in professional educational events (e.g., conferences, seminars, workshops) in which employees participate	Training Bureau Chief	Track events with ALDOT participation.	ALDOT participated in at least 11 events during FY 2020.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2020"
II.B.2.c.4	Youth education activities with ALDOT participation	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; Region Engineers	Track activities with ALDOT participation.	ALDOT personnel participated in multiple environmental-oriented youth education activities during FY 2020 (though these activities were fewer in number than usual due to COVID-19 pandemic).	See App. C for "ALDOT Youth Education Activities: Fiscal Year 2020."
II.B.2.c.4	Internal MS4 awareness mechanisms for employees	State Design Engineer; State Construction Engineer; State Maintenance Engineer	Track mechanisms employed.	ALDOT facilitated multiple activities to promote internal MS4 awareness during FY 2020.	See App. C for "ALDOT Internal MS4 Awareness Activities: Fiscal Year 2020."
II.B.2.c.4	Significant participation in environmental-related efforts of applicable professional organizations	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Region Engineers	Track efforts of professional organizations in which ALDOT participated.	ALDOT participated with multiple professional organizations in various ways during FY 2020.	See App. C for "ALDOT Participation with Professional Organizations: Fiscal Year 2020."
II.B.2.c.4	Participation in community outreach meetings	Media & Community Relations Bureau Chief	Track meetings with ALDOT participation.	No meetings with ALDOT participation during FY 2020 (due to COVID-19 pandemic).	
Illicit Discharge Detection & Elimination					

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.3.a.1; II.B.3.b.4	Updating of MS4 major outfall inventory & maps	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Update major outfall inventory after ad hoc outfall identification efforts. Update existing maps annually with major outfalls added to inventory.	Inventory review conducted for Dothan, Auburn/Opelika, and Phenix City MS4 areas as well as for Dothan District Office during FY 2020. 1 outfall previously in Dothan MS4 area removed from inventory. Maps updated.	See App. D for "ALDOT Major Outfall Inventory & Screening Summary" and for updated Dothan MS4 Area maps. Inventory is kept on file at ALDOT.
II.B.3.a.2	Implement non-stormwater discharge policies & procedures	State Maintenance Engineer	Implement policies and procedures.	Implementation of established policies and procedures ongoing.	
II.B.3.a.3; II.B.3.b.3	IDDE training for ALDOT personnel	State Maintenance Engineer	Develop training program. Conduct training once per calendar year.	IDDE inventory and screening activities delegated to consultant to date; consultant handles training internally. ALDOT field personnel receive general IDDE orientation through other training offerings.	See SWMPP (s. 4.7) for discussion regarding IDDE training.
II.B.3.a.4; II.B.3.b.2	Dry-weather screening of major outfalls	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Screen each major outfall at least once during Permit term. If an outfall is located within a "priority area," screening will be conducted at a frequency appropriate for specific conditions. If a flow is observed during outfall screening, source tracing/identification and reporting procedures will be implemented. Track major outfalls screened during each fiscal year.	All major outfalls in the Dothan, Auburn, and Phenix City MS4 Areas as well as at the Dothan District Office screened during FY 2020. 3 non-stormwater flows observed. (These flows first reported during the previous MS4 permit term.)	See App. D for "ALDOT Major Outfall Inventory & Screening Summary."
II.B.3.a.5	Source tracing procedure for possible illicit discharges	State Maintenance Engineer	Implement source tracing procedure.	Implementation of established tracing procedure ongoing.	See SWMPP (s. 4.4) for discussion regarding tracing procedure.
II.B.3.a.6	Indicator monitoring strategy for evaluating possible illicit discharges	State Maintenance Engineer	Implement indicator monitoring strategy.	Implementation of established monitoring strategy ongoing.	See SWMPP (s. 4.4) for discussion regarding monitoring strategy.
II.B.3.a.7	Procedures to notify ADEM of possible illicit discharges originating from sources adjacent to the ALDOT MS4	State Maintenance Engineer	Implement notification procedures.	Implementation of established notification procedures ongoing.	See SWMPP (s. 4.6) for discussion regarding reporting procedures.
II.B.3.a.8	Mechanism for citizen reporting of possible illicit discharges	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns.	Environmental Concern Submission Form in use to receive citizen concerns.	
II.B.3.b.5	Recordkeeping of possible illicit discharges reported / discovered	State Design Engineer	Track reports processed and follow-up actions taken.	In addition to possible illicit discharges observed during major outfall screening, 1 report of possible illicit discharge received via Environmental Concern Submission Form. (Location associated with report outside of ALDOT jurisdiction.)	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2020."
Construction Site Stormwater Runoff Control					

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.4.a.1; II.B.4.b.1	Procedures to require Construction General Permit coverage for ALDOT construction sites	State Construction Engineer; State Design Engineer	Implement procedures.	Procedures incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented.	See SWMPP (ss. 5.3 & 5.4) for discussion regarding procedures.
II.B.4.a.2; II.B.4.b.2	Contract requirements for erosion & sediment control on ALDOT construction sites	State Construction Engineer	Implement requirements.	Requirements continue to be implemented in contracts with ALDOT roadway construction contractors.	See SWMPP (s. 5.4) for discussion regarding requirements.
II.B.4.a.3	Internal policies for proper permit coverage of ALDOT-contracted construction activities	State Construction Engineer; State Design Engineer; State Maintenance Engineer	Implement policies.	Policies for ALDOT-contracted roadway construction activities incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented. Policies for third-party construction on ALDOT property developed and incorporated implicitly into Forms MB-05 and MB-07 (State Maintenance Engineer) continue to be implemented.	See SWMPP (ss. 5.3, 5.4, & 5.7) for discussion regarding policies. See SWMPP (App. D) for Forms MB-05 and MB-07.
II.B.4.a.4; II.B.4.d.1	Mechanism for citizen reporting of construction site discharge concerns	State Design Engineer; Computer Services Bureau Chief; State Construction Engineer	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track concerns received from the Environmental Concern Submission Form and follow-up actions.	1 concern related to construction site stormwater runoff control submitted during FY 2020. (Concern not related to ALDOT construction activity.)	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2020."
II.B.4.a.5; II.B.4.b.3	Inspection of ALDOT construction sites at appropriate frequencies to evaluate BMP use & maintenance	State Construction Engineer	Implement inspection procedures.	Implementation of procedures detailed in ALDOT Construction Manual and Standard Specifications for Highway Construction ongoing.	See SWMPP (s. 5.4) for details regarding the inspection procedures.
II.B.4.a.6; II.B.4.b.4; II.B.4.d.2	Construction stormwater BMP training program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 95 employees underwent initial QCI certification in FY 2020. Because of the COVID-19 pandemic, 403 certified inspectors had QCI certification extended through the end of FY 2020 and into FY 2021 in lieu of undergoing recertification training facilitated by ALDOT.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2020" and "ALDOT QCI Recertification Training: Fiscal Year 2020."
II.B.4.a.7; II.B.4.b.5	Referral of unauthorized construction activity to ADEM	State Maintenance Engineer	Implement referral policy.	Implementation of established referral policy ongoing. No referrals made during FY 2020.	See SWMPP (s. 5.7) for discussion regarding policy.
II.B.4.a.8	Policy for site plan reviews & erosion/sediment controls to satisfy Alabama Handbook technical standards	State Construction Engineer	Implement policy.	Policy for ALDOT roadway construction activities incorporated into ALDOT Construction Best Management Practices Plan template continues to be implemented.	See SWMPP (s. 5.3) for discussion regarding policy.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.4.c.2	List of construction sites in MS4-regulated areas	State Construction Engineer	Maintain list with updates as needed annually.	List updated for FY 2020. (35 permitted projects in MS4 areas during FY 2020.)	See App. E for "ALDOT MS4 Active Construction Projects (Transportation Facilities): Fiscal Year 2020."
Post-Construction Stormwater Management					
II.B.5.a.1; II.B.5.b.1	Post-construction program with specific stormwater management goals	State Design Engineer	Implement program.	Implementation of program, including "GFO 3-73: Post-Development Stormwater Management" and design guidance components, ongoing.	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management," "Determining Runoff for Small Storm Events," and "Post-Development Stormwater Risk Assessment."
II.B.5.a.2; II.B.5.a.4; II.B.5.b.1; II.B.5.b.3	Implementation of BMPs (including LID/GI practices) to mimic site predevelopment hydrology to design standard on ALDOT-constructed sites	State Design Engineer	Implement post-construction BMPs on ALDOT-constructed sites.	Implementation of BMPs ongoing. (Projects let for construction bidding on or after 04/01/2015 must be carried out in accordance with GFO 3-73.)	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.3; II.B.5.b.2	LID/GI SOP for ALDOT-constructed facilities	State Design Engineer	Implement SOP.	SOP (GFO 3-73) implementation ongoing.	See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.5	Implementation of management policies (inspection & maintenance) for post-construction BMPs at new ALDOT-constructed facilities	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP inspection and maintenance policies.	Policies implemented.	See SWMPP (s. 6.5-6.6) for discussion regarding inspection and maintenance policies. See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.5.a.6; II.B.5.b.4; II.B.5.c.2; II.B.5.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form developed during FY 2020. No inspections performed. (No BMPs fully operational.)	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.5.b.5; II.B.5.c.3	Post-construction BMP operation & maintenance	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP O&M procedures. Track maintenance work reports completed.	Maintenance procedures implemented. No BMP maintenance activity performed. (No BMPs fully operational.)	
II.B.5.c.1	Inventory of post-construction BMPs (let for bidding after April 2015)	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory form. Update inventory with fully operational BMPs.	No significant revision of electronic inventory form developed during FY 2020. No BMPs on inventory. (No BMPs let for bidding after April 2015 fully operational.)	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
Pollution Prevention / Good Housekeeping					
II.B.6.a.1; II.B.6.b.1; II.B.6.c.1	Inventory of support facilities with pollution potential	Materials & Tests Engineer	Update inventory as needed annually.	No modification of inventory during FY 2020.	See SWMPP (App. G) for "ALDOT MS4 Support Facilities."
II.B.6.a.2; II.B.6.b.2; II.B.6.c.2; II.B.6.d.1	Support facility PPGH inspection program	Materials & Tests Engineer	Implement program to inspect support facilities on inventory annually that include checklists and correction procedures. Update program as necessary. Report inspection outcomes.	No significant updates to program during FY 2020. 18 facility inspections during FY 2020. Inspection findings addressed in accordance with SPCC Plans.	See SWMPP (s. 7.2) for discussion regarding program. See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See App. G for "ALDOT MS4 Support Facility Annual Inspections: Fiscal Year 2020."
II.B.6.a.3; II.B.6.b.3; II.B.6.c.3	Good housekeeping SOPs for support facilities	Materials & Tests Engineer	Implement SOPs. Update SOPs as necessary.	Implementation of established SOPs ongoing. No significant updates to SOPs during FY 2020.	See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See SWMPP (s. 7.2.2) for discussion regarding SOPs.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.B.6.a.4; II.B.6.a.7.d; II.B.6.b.4; II.B.6.d.2	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2020, 30 sessions of SPCC training, 30 sessions of universal waste training, and 30 sessions of GHS training were facilitated. 447 employees participated in SPCC training, 447 employees participated in universal waste training, and 447 employees participated in GHS training. (Hazardous materials training for ALDOT Area coordinators was not facilitated during FY 2020.)	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2020."
II.B.6.a.5; II.B.6.a.6; II.B.6.a.8; II.B.6.b.5; II.B.6.c.4	Trash management program	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement program. Deploy trash receptacles at rest areas for motorists and at ALDOT support facilities for employees. Track maintenance work for full-width litter pickup (shoulder miles cleaned) and spot litter pickup (work reports completed) on roadways. (Additional roadway litter pickup done under contract or interjurisdictional agreement and tracked through other mechanisms.)	Trash receptacles continue to be deployed at rest areas and ALDOT support facilities. During FY 2020, 19,241.01 shoulder miles cleaned and 4,383 spot litter pickup work reports completed.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2020." See SWMPP (s. 7.3.2) for discussion regarding how roadway litter pickup work activities are performed.
II.B.6.a.7; II.B.6.b.6; II.B.6.c.5	Support facility spill prevention & response program	Materials & Tests Engineer; Region Engineers	Implement program. Update program as necessary.	Implementation of general ALDOT spill prevention and response program ongoing; no significant modifications during FY 2020. Significant revision of SPCC Plans for 2 individual support facilities during FY 2020.	See SWMPP (s. 7.3) for overview of assessment procedure.
II.B.6.a.8	Miscellaneous transportation facility maintenance with measures for potential pollution reduction	State Maintenance Engineer	Conduct annual condition assessments of roadway features with respect to stormwater management performance-related attributes. Track maintenance work using pollution reduction methods for snow and ice control (work reports completed), cleaning minor drainage structures (structures inspected/cleaned), repairing minor drainage structures (work reports completed), and erosion control (work reports completed). (Herbicide treatment, spot herbicide treatment, and herbicide treatment surveillance addressed in work associated with Pesticides General Permit.)	Condition assessments continue to be conducted according to established procedure. Maintenance work activities conducted throughout FY 2020; work amounts tracked in accordance with SWMPP.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2020." See SWMPP (s. 7.3) for discussion regarding how activities are performed.
II.B.6.d.2	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	14 sessions of vegetation management training (with 330 ALDOT and 101 non-ALDOT participants in all) facilitated during FY 2020. 4 sessions of the "Review for Commercial Applicator Examination" course (with 41 employee participants in all) held during FY 2020. 7 newsletters distributed during FY 2020.	See App. C for "ALDOT Vegetation Management Training Course: Fiscal Year 2020" and for session agendas for CYs 2019 and 2020. See SWMPP (App. C) for example newsletter.
MS4 Monitoring					
II.D.2; II.D.3; II.D.4; III.A.1; III.A.6	Determination of the ALDOT MS4's potential as a practical source of POCs for 303(d) waters, TMDL waters, & receiving waters generally	State Design Engineer; State Maintenance Engineer	Assess ALDOT potential impacts with respect to various POCs on 303(d) waters, TMDL waters, and receiving waters generally in MS4-regulated areas. Reassess ALDOT impact as needed considering collected monitoring data. Forego monitoring with respect to POCs of which the ALDOT MS4 is not a practical source.	Assessment performed by considering the potential of ALDOT activities in MS4 areas as possible, significant sources of 303(d)/TMDL POCs. Determined that possible ALDOT-relevant POCs are siltation and turbidity.	See SWMPP (s. 8.3) for discussion regarding assessment.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2020 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2020	Supplemental Information
II.D.3; II.D.4; III.A.1	Determination of the effectiveness of ALDOT stormwater management practices in controlling POC discharges to meet applicable 303(d) & TMDL requirements	State Design Engineer; State Maintenance Engineer	Demonstrate that stormwater management practices employed are controlling any POC discharges to ALDOT-applicable 303(d) and TMDL waters sufficiently; use monitoring data in the demonstration for TMDLs. Adjust practices as needed.	No monitoring data collected yet during the Permit term.	See previous annual reports for details of monitoring activities performed during previous MS4 permit term.
III.A.1; III.B	Assessments of the overall effectiveness of stormwater management practices with respect to stormwater management goals	State Design Engineer; State Maintenance Engineer	Conduct annual assessments of practices based on monitoring data collected. Adjust practices as needed in response to assessment.	No monitoring data collected yet during the Permit term.	See previous annual reports for details of monitoring activities performed during previous MS4 permit term.
III.A.2; III.A.4; IV.B	Development & implementation of monitoring strategy	State Design Engineer; State Maintenance Engineer	Develop monitoring strategy. Update strategy as needed annually. Track monitoring activities.	Monitoring strategy developed. 6 monitoring locations selected.	See App. H for a map depicting monitoring locations selected. See SWMPP (ss. 8.4-8.5) for discussion regarding monitoring strategy.
III.A.3	Analysis of monitoring data	State Maintenance Engineer	Analyze monitoring data collected.	No monitoring data collected yet during the Permit term.	See previous annual reports for details of monitoring activities performed during previous MS4 permit term.
III.A.5	Coordination of monitoring with other MS4s	State Maintenance Engineer	Coordinate with other MS4s as appropriate.	No explicit coordination with other MS4s needed for monitoring so far in the Permit term.

Cost of Littering on the Rise in Alabama *Campaign to Highlight Increased Fines*

(MONTGOMERY, Ala.) – Litter continues to be an issue along Alabama roadways, and the Alabama Department of Transportation (ALDOT) has launched an anti-litter campaign that highlights the recent increase in litter fines and penalties.

The Alabama Department of Transportation spent almost \$7 million last year to clean up litter along the roadways. To deter littering, the Alabama Legislature increased littering fines in 2019.

For those caught dropping trash on Alabama, the fines have doubled. The minimum fine is now \$500, up from \$250 for a first conviction. The second conviction is \$1,000 and up to 100 hours community service.

“Trash Costs Cash,” is the title of a public service announcement produced by ALDOT that is running on television and radio stations statewide and on social media sites like Facebook and YouTube. The PSA highlights the high cost of littering fines, challenging people to think about those costs before throwing out their fast-food wrapper.

Roadside litter includes, but is not limited to:

- Fast food trash
- Beverage containers, such as tin cans or plastic bottles,
- Cigarette butts
- Tires

“Litter can harm our environment and have a negative impact on road safety and the natural beauty of our state,” said Allison Green, Drive Safe Alabama coordinator, ALDOT. “If we each play our part in keeping our state clean, we won’t be impacted by the rising litter fines. More ALDOT funding can be spent on improving the roads we drive instead of litter pickup.”

There are many ways that residents can help keep Alabama beautiful:

'Trash Costs Cash': ALDOT campaign highlights costs of littering

According to the ALDOT, almost \$7 million was spent in 2019 to clean up litter along the roadways. (Source: KPLC)

By [WSFA Staff](#) | August 7, 2020 at 6:28 AM CDT - Updated August 7 at 6:28 AM

MONTGOMERY, Ala. (WSFA) - The Alabama Department of Transportation has launched a public service campaign, "Trash Costs Cash", to highlight the high costs of littering fines and to challenge people to think before throwing out trash.

According to the ALDOT, almost \$7 million was spent in 2019 to clean up litter along the roadways.

ALDOT says litter includes, but is not limited to:

- Fast food trash
- Beverage containers, such as tin cans or plastic bottles,
- Cigarette butts
- Tires

Fine and penalties for littering in Alabama were increased after the state said it continued to experience issues with litter long its roadways.

In 2019, the Alabama legislature increased littering fines. For those caught littering the minimum fine is \$500, up from \$250. A second conviction is \$1,000 and up to 1000 hours of community service.

"Litter can harm our environment and have a negative impact on road safety and the natural beauty of our state," said Allison Green, Drive Safe Alabama coordinator, ALDOT. "If we each play our part in keeping our state clean, we won't be impacted by the rising litter fines. More ALDOT funding can be spent on improving the roads we drive instead of litter pickup."

ALDOT wants to remind the public that they can keep Alabama beautiful by:

- Dispose of trash properly
- Never throw anything out of the vehicle window
- Carry a small trash bag in your vehicle to dispose of trash

- Properly secure loads when hauling loose items
- Volunteer with People Against a Littered State (PALS) and apply to Adopt-A-Mile.

**Specifics as Related to Contract October 1, 2019-September 30, 2021
First Quarter Reporting Period 10/01/2019 – 12/31/2020**

The contract for 2019-21 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in July 2019, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of December 31, 2019) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (see **attachments**) for Adopt A Mile and Adopt a Stream programs during the First Quarter of 2019-20. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2019 Alabama PALS Statewide Governor's Awards Program

The 2019 Statewide Governors Awards program was held at the Renaissance Hotel in Montgomery on November 13, 2019. 40 + awards were presented in categories including, Adopt A Mile, Adopt A Stream, Clean Campus, Spring Cleanup Awards, Volunteer of the Year, Coastal Cleanup, City, County and others. Over 250 statewide volunteers attended the luncheon. PALS presented to awards to volunteers representing 23 Alabama counties.

The 2020 Alabama PALS Governor's Awards will be held in November 2020 at The Renaissance Hotel in Montgomery.

New Adoptees and Miles Adopted 10/01/19-12/31/19 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report.

Reports for all applications, signs mailed and erected are included in each quarterly reports.

Safety Vests are available for all adoptees on State and Federal highways, and letters have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

Margaret continues to send sent letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Office Correspondence

Margaret remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a more timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

The 2019 “Don’t Drop It On Alabama” Statewide Cleanup

The 2019 Statewide “Don’t Drop It On Alabama” Spring Cleanup was held on April 18-25. Over 660 tons of litter have been reported as being picked up. Approximately 80 % of all Report Forms have been received. PALS distributed over 175,000 trash bags and additional supplies (see below) to 65 counties in preparation for the 2019 cleanup.

With assistance from Coca Cola UNITED, Plastic Recycling was incorporated into the 2019 Spring Cleanup in Marshall, Tuscaloosa and Cullman counties, as well as several municipalities.

Lists and contact information for each county’s Adopt a Mile groups were sent to each county coordinator for contacting for participation in the 2018 cleanup.

The 2020 Spring Cleanup will run the entire month of April 2020.

Materials and Supplies Furnished for 2019 Spring Cleanup

175,000 Large Trash Bags w/ PALS Corporate Sponsors and Partners Logo's
2019 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt A Mile brochures
Adopt A Stream brochures
Alabama Clean Campus Program brochures
Adopt an Area brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS/ALDOT Public Service Announcement (ABA Reports Enclosed)

The 2019 PALS/ALDOT PSA ran in June 2019. The 3 month contract with the Alabama Broadcasters Association was for the months of June-- August 2019..

The 2019 PSA's received air time on Radio and Television slots for the 3 month period and received over \$ 240,000 worth of statewide air time for the \$ 25,000 investment.

As in past years, air time and scheduling reports from the Alabama Broadcasters Association will be included in ALDOT reports for that time period.

PALS will work with ABA to develop a new PSA for 2020, which will air statewide in June- August 2020.

PALS has uploaded the new ALDOT anti littering PSA on the PALS webpage and Facebook page.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file

system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

Adopt a Mile Inspections

The 2019 Adopt A Mile Inspection Program was completed in June 2019. All North Zones were inspected and entered into the Adopt A Mile data base in July 2019. With these entries, all data and inspections are up to date and recorded.
This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contract.

All new data from the Intern AAM Inspection Program reports will added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

The AAM inspections will focus on the South Zones for 2020.

Materials Furnished for AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways
List of all adopted miles in each North County (state/federal)
List and contacts of ALDOT offices in South Zone
HI VIZ Vehicle Safety Lights
HI VIZ Safety Vests
PALS/ALDOT Inspection program magnetic vehicle signs
Digital Cameras
Vehicle furnished by Paul Claborn (Albertville, AL)
Prepaid Gas Cards for Intern

PALS/Adopt A Mile Newsletter (Enclosed)

The Summer PALS/Adopt A Mile Newsletter was completed and mailed in early mid June 2019. PALS has the statewide in e-letter form online at alpals.org.
The PALS/Adopt A Mile Winter Newsletter was mailed to all Adopt A Mile, Adopt A Stream, Adopt An Area, Spring Cleanup participants, Clean Campus schools, Coastal Cleanup Captains, PALS members and PALS County Chairmen etc. in June 2019. The total mailing is approximately 6,600. Applications for all "adopta" programs are included in each newsletter and are processed in the PALS office for adoption. Adopt a Mile reporting forms are also included in the newsletter.

The Winter PALS/ALDOT Newsletter will be mailed out in early January 2020.

The Alabama Coastal Cleanup

The 2019 Alabama Coastal Cleanup was held on September 15 2019. Recycling of plastic bottles and aluminum cans items was incorporated into the cleanup during this 2019 cleanup. PALS coordinated the recycling effort with Osprey, Thompson Engineering and Weeks Bay, which provided manpower for the recycling efforts. The cleanup covered Alabama coastal state highways, beaches, bays, bayous, and bridges from Dauphin Island to the Al/FI state line.

The 2019 Alabama Coastal Cleanup turned out 5,500 volunteers, covered 240 miles of shoreline and produced over 47,000 pounds of litter and debris removed from these areas. Recycling Hubs were filled with rigid plastics and aluminum, resulting in over 1 ton of clean and usable recyclables.

In addition to the coastal zones, highway 59 municipalities continued to play a major role in the cleanup effort, with volunteers participating along highway 59 in their respective municipalities.

The 2020 Alabama Coastal Cleanup will be held on September 19, 2020.

Alabama PALS provides all cleanup supplies and materials for 30 Coastal Zones.

15,000 Large Heavy Duty Trash Bags

6,700 tee shirts for Volunteers, Zone Captains, staff etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 Zones

Data cards

Bottled Water

Zone Captain Packets

Chattahooche Valley Community College

**Specifics as Related to Contract October 1, 2019-September 30, 2021
Second Quarter Reporting Period 01/01/2020 – 03/30/2020**

The contract for 2010-21 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in July 2019, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of March 2020) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (**see attachments**) for Adopt A Mile and Adopt a Stream programs during the Second Quarter of 2019-20. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2020 Alabama PALS Statewide Governor's Awards Program

The 2019 Statewide Governors Awards program was held at the Renaissance Hotel in Montgomery AL on November 8, 2019. Awards were presented for, Adopt A Mile, Adopt A Stream, Clean Campus, Spring Cleanup Awards, Volunteer of the Year, Coastal Cleanup, City, County and others. Over 280 statewide volunteers attended the luncheon. PALS presented to awards to volunteers representing 21 Alabama counties.

The 2020 Alabama PALS Governor's Awards Program will be held on November 18, 2020 at the Renaissance Hotel in Montgomery Alabama.

New Adoptees and Miles Adopted 01/01/20-03/30/20
(see Attached List)

All applications and signs erected is attached to this report. Applications, signs mailed and erected are included in each quarterly

Safety Vests are available for all adoptees on State and Federal highways, and letters have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

Margaret continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

The 2020 Adopt A Mile Inspection program will focus on continuing to identify old/faded signs for replacement or removing.

ALDOT District Office Correspondence

Margaret remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a more timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

Adopt a Mile Inspections

The 2019 Adopt A Mile North Zone Inspection began in March 2019 and has been completed. All updated and new data is currently being updated.

All South Zone miles will be inspected in 2020 and will begin in April 2020.

Groups with signs that need replaced have been sent correspondence regarding having new signs printed and erected if the respective group wants to remain in program.

This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contact.

All new data from the Intern AAM Inspection Program reports will added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

Materials Furnished for AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways

List of all adopted miles in each North County (state/federal)

List and contacts of ALDOT offices in South Zone

Prepaid Gas Cards for Intern

PALS/Adopt A Mile Newsletter (copy Attached)

The Winter PALS/Adopt A Mile Newsletter was completed and mailed in early January 5, 2020. PALS now has the newsletter in e-letter form. The newsletter is now also available online at alpals.org

The Alabama Coastal Cleanup

The 2020 Alabama Coastal Cleanup will be held on September 19, 2020.

The 2019 Alabama Coastal Cleanup was held on Saturday September 21, 2019.

The 32nd Anniversary of the Alabama Coastal Cleanup was held on September 21, 2018. Recycling of all plastic and aluminum items was incorporated into the cleanup during this 32nd anniversary. PALS coordinated the recycling effort with Thompson Engineering, Osprey and Weeks Bay Refuge, which provided manpower for the recycling efforts. The cleanup covered Alabama coastal state highways, beaches, bays, bayous, and bridges from Dauphin Island to the Al/Fl state line.

The 2019 32nd Anniversary Alabama Coastal Cleanup turned out over 5,500 volunteers, covered 240 miles of shoreline and produced over 44,000 pounds of litter and debris removed from these areas. In addition to the coastal zones, highway 59 municipalities continued to play a major role in the cleanup effort, with volunteers participating along highway 59 in their respective municipalities.

2019 marked a historic year for the Alabama Coastal Cleanup. Alabama celebrated 32 years of participation in the International Coastal Cleanup. Over 1.8 million lbs. of litter and debris have been removed from Alabama's beaches, bayous, backwaters and highways during the 32 year history of the Alabama Coastal Cleanup.

Alabama PALS provided all cleanup supplies and materials for 30 Coastal Zones for the 2019 Alabama Coastal Cleanup.

Large Heavy Duty Trash Bags
Large Recycling Bags
6,500 tee shirts for Volunteers, Zone Captains, staff etc.
Alabama Coastal Cleanup Posters
Ad Slicks for all 31 Zones
Data cards
Bottled Water
Zone Captain Packets
Banners for all Zones
Safety and Cleanup Instruction Sheets

January, February, March 2020

**Specifics as Related to Contract October 1, 2019-September 30, 2021
Third Quarter Reporting Period 04/01/2020 – 06/31/2020**

The contract for 2019-21 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in July 2019, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of December 31, 2019) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (see **attachments**) for Adopt A Mile and Adopt a Stream programs during the First Quarter of 2019-20. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2019 Alabama PALS Statewide Governor's Awards Program

The 2019 Statewide Governors Awards program was held at the Renaissance Hotel in Montgomery on November 13, 2019. 40 + awards were presented in categories including, Adopt A Mile, Adopt A Stream, Clean Campus, Spring Cleanup Awards, Volunteer of the Year, Coastal Cleanup, City, County and others. Over 250 statewide volunteers attended the luncheon. PALS presented to awards to volunteers representing 23 Alabama counties.

The 2020 Alabama PALS Governor's Awards will be held in November 18, 2020 at The Renaissance Hotel in Montgomery.

New Adoptees and Miles Adopted 10/01/19-12/31/19 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report.

Reports for all applications, signs mailed and erected are included in each quarterly reports.

Safety Vests are available for all adoptees on State and Federal highways, and letters have been sent to all AAM participants regarding the availability of vests.

Adopt A Mile Signs to be Replaced

Margaret continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM data base, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Office Correspondence

Margaret remains in touch with ALDOT District offices regarding the new protocol for the Adopt A Mile program. Margaret feels like all Districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a more timely fashion.

Ongoing contact is made with respective District offices regarding applications, paperwork and erecting of AAM signs. District offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to be read. PALS will contact the respective group.

The 2019 “Don’t Drop It On Alabama” Statewide Cleanup

The 2019 Statewide “Don’t Drop It On Alabama” Spring Cleanup was held on April 18-25. Over 660 tons of litter have been reported as being picked up. Approximately 80 % of all Report Forms have been received. PALS distributed over 175,000 trash bags and additional supplies (see below) to 65 counties in preparation for the 2019 cleanup.

With assistance from Coca Cola UNITED, Plastic Recycling was incorporated into the 2019 Spring Cleanup in Marshall, Tuscaloosa and Cullman counties, as well as several municipalities.

Lists and contact information for each county’s Adopt a Mile groups were sent to each county coordinator for contacting for participation in the 2018 cleanup.

The 2020 Spring Cleanup will run the entire month of April 2020.

Materials and Supplies Furnished for 2020 Spring Cleanup

175,000 Large Trash Bags w/ PALS Corporate Sponsors and Partners Logo's
2019 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt A Mile brochures
Adopt A Stream brochures
Alabama Clean Campus Program brochures
Adopt an Area brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS/ALDOT Public Service Announcement (ABA Reports Enclosed)

The NEW 2020 PALS/ALDOT PSA will run June -August 2020. The 3 month contract with the Alabama Broadcasters Association is for the months of June– August 2020..

The 2019 PSA's received air time on Radio and Television slots for the 3 month period and received over \$ 240,000 worth of statewide air time for the \$ 25,000 investment.

As in past years, air time and scheduling reports from the Alabama Broadcasters Association will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti littering PSA on the PALS webpage and Facebook page.

Data Base for Adopt A Mile Program (updated copy on jump drive included in this report)

The Adopt a Mile data base is now current and working effectively. PALS is currently able to view and total exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the data base is working correctly and enabling PALS to best use the data base for the benefit of the Adopt a Mile program.

PALS continues to provide all data base updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt A Mile data base as updated information is collected. In addition to daily attention to the data base, a file system has been created and maintained to assist in creating an accurate account of all County and State and Federal adopted mile in the future.

Adopt a Mile Inspections

The 2020 Adopt A Mile Inspection Program was completed in June 2020. All South Zones adopted miles were inspected and will be entered into the Adopt A Mile data base in July 2020. With these entries, all data and inspections are up to date and recorded.

This internship program has proven highly effective and will continue each year as specified in the PALS/ALDOT contract.

All new data from the Intern AAM Inspection Program reports will added to the PALS/AAM data base, reflecting any changes, additions or deletions from current data base.

The AAM inspections will focus on the Central Zone for 2021.

Materials Furnished for AAM Inspection Intern Program

ALDOT provided maps of each county in South Zone listing all highways

List of all adopted miles in each North County (state/federal)

List and contacts of ALDOT offices in South Zone

HI VIZ Vehicle Safety Lights

HI VIZ Safety Vests

PALS/ALDOT Inspection program magnetic vehicle signs

Digital Cameras

Vehicle furnished by Paul Claborn (Albertville, AL)

Prepaid Gas Cards for Intern

PALS/Adopt A Mile Newsletter

The Summer PALS/Adopt A Mile Newsletter will be completed and mailed statewide in early July 2020. PALS has the statewide in e-letter form online at alpals.org.

The PALS/Adopt A Mile Winter Newsletter was mailed to all Adopt A Mile, Adopt A Stream, Adopt An Area, Spring Cleanup participants, Clean Campus schools, Coastal Cleanup Captains, PALS members and PALS County Chairmen etc. in June 2019. The total mailing is approximately 6,600. Applications for all "adopta" programs are included in each newsletter and are processed in the PALS office for adoption. Adopt a Mile reporting forms are also included in the newsletter.

The Alabama Coastal Cleanup

The 2019 Alabama Coastal Cleanup was held on September 15 2019. Recycling of plastic bottles and aluminum cans items was incorporated into the cleanup during this 2019 cleanup. PALS coordinated the recycling effort with Osprey, Thompson Engineering and Weeks Bay, which provided manpower for the recycling efforts. The cleanup covered Alabama coastal state highways, beaches, bays, bayous, and bridges from Dauphin Island to the Al/Fl state line.

The 2019 Alabama Coastal Cleanup turned out 5,500 volunteers, covered 240 miles of shoreline and produced over 47,000 pounds of litter and debris removed from these areas. Recycling Hubs were filled with rigid plastics and aluminum, resulting in over 1 ton of clean and usable recyclables.

In addition to the coastal zones, highway 59 municipalities continued to play a major role in the cleanup effort, with volunteers participating along highway 59 in their respective municipalities.

The 2020 Alabama Coastal Cleanup will be held on September 19, 2020.

Alabama PALS provides all cleanup supplies and materials for 30 Coastal Zones.

15,000 Large Heavy Duty Trash Bags

Recycling Bags

6,700 tee shirts for Volunteers, Zone Captains, staff etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 Zones

Data cards

Bottled Water

Zone Captain Packets

Safety Masks for all Volunteers

**Specifics as Related to Contract October 1, 2019-September 30, 2021
Fourth Quarter Reporting Period 07/01/2020 – 09/30/2020**

The contract for 2019-21 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in July 2019, and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific data base, which will be kept and updated by Alabama PALS. (See Data Base Below) This data base upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The data base is now updated (as of December 31, 2019) with the ability to view exact numbers and locations of State, Federal and County adopted miles. Total miles, groups included in report)

PALS continues to receive a very high level of responses and new applications (**see attachments**) for Adopt A Mile and Adopt a Stream programs during the Fourth Quarter of 2019-20. A new Compliance Reporting Form has been included in the PALS/ Adopt A Mile newsletter, where groups and individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new data base system, did not transfer from the old data base, or were not entered into the old system originally.

2019 Alabama PALS Statewide Governor's Awards Program

The 2019 Statewide Governors Awards program was held at the Renaissance Hotel in Montgomery on November 13, 2019. 40 + awards were presented in categories including, Adopt A Mile, Adopt A Stream, Clean Campus, Spring Cleanup Awards, Volunteer of the Year, Coastal Cleanup, City, County and others. Over 250 statewide volunteers attended the luncheon. PALS presented to awards to volunteers representing 23 Alabama counties.

The 2020 Alabama PALS Governor's Awards will be held in November 18, 2020 at The Renaissance Hotel in Montgomery.

PALS is considering changing the procedure for 2020 Governor's Awards Program due to Covid-19. If changes are made, Alabama PALS will schedule the presentation of all awards on a local basis for all winning nominations. Awards will be presented at County Commissions, City Council, schools etc. meetings.

KEEP AMERICA BEAUTIFUL AFFILIATE

Post Office Box 574 Meridianville, Alabama 35759

Attached is the report for the time period of October 1, 2019 to September 30, 2020. The weight of the litter removed by the affiliates reporting during the past year by approximately 60,170 volunteers during 865 cleanups is more than 749,520 pounds of litter.

This year was set to be a banner year with a record number of Spring/Summer cleanups scheduled which had to be canceled due to public health concerns regarding COVID-19.

During the year we continued our partnership with Keep the Tennessee River Beautiful and other organizations to hold several waterway cleanups. Our goal for the year was to establish at least two other river/lake organizations focusing only on their respective bodies of water. A partnership to form Keep the Tombigbee Clean has been formed and pushed to 2021. We also are in the beginning talks to establish Keep the Locust Fork River Clean. We plan to continue to focus not only on preventing roadside litter, but also to prevent litter in our waterways and watersheds.

We are making efforts to distribute our litter prevention curriculum to all groups affiliated with Keep Alabama Beautiful. This curriculum has lesson plans and activities applicable for preschool through high school courses. Last year 561 awareness events were held by at least 367 volunteers presenting to approximately 5,559 adults and 93,662 students.

We furthered our outreach with very successful promotions during August - September. Messages of "Keep It in The Boat", "Keep It in The Car" and "Don't Forget Your Trash" were strategically focused statewide digitally with a combined impact of 7,143,875 impressions with 82,440 interactions, and 79,518 direct visits to our website with 4,293 hours of exposure. We also aired 458 commercials statewide during a 4-week period. We plan to use the same produced commercials during 2021.

Keep Alabama Beautiful continues to grow across the state encouraging residents to become citizens and take action to prevent / cleanup litter. At this time we are beginning programs in 21 new cities/towns.

We appreciate so much our partnership with ALDOT and everything you do to help us better serve our purpose. Hope you will be able to join us at the Keep Alabama Beautiful State Affiliate Meeting & Awards next year. As soon as I have the exact date, I will let you know.

If you have questions or if I can be of assistance, please contact me at 256.990.2538.

Sincerely,

Denise Taylor

Denise Taylor
Executive Director

* Because of the COVID-19 pandemic, ALDOT was not able to hold QCI recertification training course sessions during FY 2020, so ADEM authorized the extension of QCI certification into FY 2021 for inspectors who would have typically been required to undergo recertification. The table displays tallies of inspectors for whom certification was extended in lieu of tallies of course participants. See attached ALDOT request for the waiving of QCI recertification training requirements and ADEM message granting certification continuation for inspectors.

ALABAMA DEPARTMENT OF TRANSPORTATION CONSTRUCTION BUREAU

Phone: 334-242-6218 FAX: 334-264-3727

Kay Ivey
Governor

John R. Cooper
Transportation Director

May 6, 2020

Mr. James Carlson, P.E.
Chief Stormwater Management Branch
Water Division
1400 Coliseum Blvd.
Montgomery, AL 36110-2400

Mr. Carlson:

Due to the COVID-19 pandemic and the significant impact to the safety of state workers, The Alabama Department of Transportation (ALDOT) is petitioning the Alabama Department of Environmental Management (ADEM) for a one (1) year extension to all inspectors under the ALDOT Qualified Credential Inspection Program (QCIP). Currently, under the ALDOT QCIP all inspectors' certifications will expire May 31, 2020. The 2020 QCI Annual Refresher Classes were scheduled for March/April/May, but due to the direction of the Governor, all classes were canceled. We have explored options for rescheduling classes later in the year, but with the safety of the state workers in mind and social distancing requirements for the foreseeable future, it does not appear promising. The ALDOT QCIP trains approximately 500 inspectors annually. It takes roughly three (3) months to book the training facilities, schedule the classes, and assign inspectors to the classes. There is no guarantee that training facilities will be available as they book several months in advance. ALDOT teaches approximately twenty (20) classes in three (3) months. Due to the social distancing requirements of six (6) foot spacing and the limited facility capacity, it will require us to double the number of classes and months required to complete. Essentially, what would normally take three (3) months now grows to six (6) months. It is unclear at what point the travel and training ban will be lifted, but if it was at the earliest June, it would take till August to schedule the classes. Then training would last for the next six (6) months, ending in approximately February of 2021, and our next set of classes would begin in March of 2021. We would be overlapping scheduling and creating the curriculum for the 2021 classes. Due to the expiration of the Construction General Permit in 2021 and the issuance of the new permit, the curriculum for 2021 is crucial for any new permit requirements. The Annual QCI Refresher Training is only part of the duties of the Environmental Construction Section, and the above mentioned would jeopardize our ability to provide compliance oversight to meet the obligations of the Construction General Permit.

ALDOT has explored several alternate options, but due to the lack of resources and expertise in the online format, as well as the competency and logistics of these options, all appear to be futile. The Department does not have the ability to create an online class

currently. ALDOT prefers the in-person class due lack the of accountability during online courses and the difficulty gauging the overall competence of the inspectors in which we use to evaluate and improve the class for the following year. We have explored an option to hand mail approximately 500 copies of the 4-hr presentation on disk. Email is not an option as the files are too big. There is a lot of information supplied verbally during the presentation, so a significant amount of importance may be missed. Also, we supply all inspectors with a resource manual, which is approximately 160 pages, and it would be extremely costly to ship. Inspectors would have to find time to use the limited resources in the field offices to complete the course. We are also currently approaching the busiest construction time of the year, which will make it much more difficult to get inspectors off the projects to recertify. Lack of inspectors on the projects could cause unacceptable delays or create compliance issues due to the lack of oversight on the project.

ALDOT is committed to environmental compliance as stewards of the environment as well as providing for the safety and wellbeing of the state employees and the traveling public. Due to the recent COVID-19 pandemic and resulting complications, ALDOT respectfully requests your consideration of an alternate solution for the 2020 ALDOT Qualified Credential Inspection Program.

Kind regards,

A handwritten signature in blue ink, appearing to read "Richard Klinger".

Richard Klinger, P.E.
Environmental Construction Engineer
Construction Bureau
Alabaman Department of Transportation

Subject: RE: ALDOT 2020 QCIP Petition
Date: Tuesday, May 12, 2020 3:37:30 PM

Mr. Klinger,

The Alabama Department of Environmental Management (ADEM) has reviewed the Alabama Department of Transportation (ALDOT) request regarding a one (1) year extension for all inspectors under the ALDOT Qualified Credential Inspection (QCI) Program. ADEM appreciates the commitment to environmental compliance by ALDOT and all inspectors that are associated with ALDOT projects.

Due to the unprecedented circumstances that we are all currently having to work under, ADEM finds that an extension on QCI certifications that will expire May 31, 2020, until the next annual QCI training period for ALDOT, in March – May of 2021, is acceptable. In addition to granting the extension, ADEM is requesting ALDOT to obtain a signed form from each QCI inspector, acknowledging the extension and the need to continue their annual QCI training in 2021, to keep their certification. Please retain a copy of the signed certification.

Please use the language below for the certification form to be signed by each inspector:

Due to the current health emergency, ADEM has authorized ALDOT to offer a continuation of your QCI certification until March – May 2021, when ALDOTs QCI annual training courses will be held, as an alternative QCI certification to meet environmental compliance standards.

I hereby certify, that I agree to and will continue to adhere to storm water pollution prevention regulations and requirements and continue to ensure by proper inspection that best management practices related to erosion and sediment control measures are fully implemented and regularly maintained at permitted site(s) in accordance with sound sediment and erosion control practices to ensure the protection of water quality.

If you should have any questions, please feel free to contact me.

* See "ALDOT MS4-Applicable Employee Education: Fiscal Year 2020" for HAZWOPER training conducted.

**ALDOT Youth Education Activities:
Fiscal Year 2020***

Activity	Date(s)	Notes
Mobile Tunnel Tours	Oct. 2019 - Mar. 2020	ALDOT Mobile Area personnel gave tours to groups of school-age children to demonstrate ALDOT operations taking place in and around the Mobile Tunnel and explain engineering principles at work. Some tunnel operations are water resources or environmental in nature. 21 tours were conducted for a total of approximately 700 children during FY 2020. (Tours were suspended in March 2020 due to the COVID-19 pandemic.)
Guest Lecture: Auburn University	03/04/2020	ALDOT employee spoke to an undergraduate-level civil engineering class about the environmental issues and challenges ALDOT experiences and methods ALDOT employs to manage them. Approximately 30 students in attendance.
Guest Lecture: University of Alabama at Birmingham	04/03/2020	ALDOT employee spoke at a graduate-level seminar (virtually) about the civil engineering-related work, including environmental engineering activities, performed at ALDOT. Approximately 10 students in attendance.

* Many youth education activities in which ALDOT typically participates were not held during FY 2020 due to the COVID-19 pandemic.

**ALDOT Stormwater Management Research:
Fiscal Year 2020**

Project No.	Project Title	Research Partner	Total ALDOT Funding	Active during FY 2020?
931-017	Best Practices for Construction Site Stormwater Treatment Using Flocculants	Auburn Univ.	\$283,593	YES
931-016	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation on Various Soil Types and Slope Gradients	Auburn Univ.	\$286,778	YES
930-962	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation	Auburn Univ.	\$383,526	YES
930-954	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$130,282	YES
930-925	Analysis and Potential Solutions to Sediment Deposition in Dean Road Watershed	Auburn Univ.	\$141,145	NO
930-869	Evaluation of Sediment Barriers Using Large-Scale Techniques	Auburn Univ.	\$459,755	YES
930-863	Evaluation of High-Rate Settling Technology for Sediment Control in Roadway Construction Sites	Auburn Univ.	\$357,770	NO
930-853R	Evaluation of Inlet Protection Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,550	NO
930-837R	Monitoring and Predicting the Effects of Post-Construction Stormwater Runoff from Roadways in Watersheds	Auburn Univ.	\$228,561	NO
930-826R	Evaluation of ALDOT Ditch Check Sediment Control Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,101	NO
930-811R	Vegetated Filter Strip Performance Evaluation for Cost-Effective Roadway Runoff Treatment in Alabama	Univ. of South Alabama	\$114,187	NO
930-784	Maintain Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$42,050	NO
930-767	Agronomic Solutions for Establishment of Roadside Vegetation	Auburn Univ.	\$86,068	NO
930-751	Techniques for Establishing Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$50,000	NO
930-678	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$251,244	NO
930-655	Development of a Test Facility to Evaluate the Optimal Design of BMPs for Managing Environmental Problems at Construction Sites	Auburn Univ.	\$347,693	NO
930-486	Mapping, Control and Revegetation of Cogongrass on ALDOT Rights-of-Way	Auburn Univ.	\$225,640	NO

**ALDOT Environmental Concerns Log:
Fiscal Year 2020**

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
10/03/2019	"The litter along I-565 is currently at an all time high. I'm not sure what is going on - if it is recent mowing that has shredded litter that was never picked up but there is hardly a space that doesn't have some type of litter on it along the interstate."	Madison	Huntsville; I-565 "Between exit 9 (Wall Triana/Madison Blvd) to downtown."	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple reports for this location during FY 2020.)
10/06/2019	"Private advertising signs placed at intersections on public right of way. It has become an eyesore and a problem for maintaining the rights of way not to mention a distraction and safety concern to drivers. Is it legal and allowed to place private advertising signs on public right of way?"	Houston	Cottonwood; "Cottonwood Road / Hwy 53"	Environmental Concern Submission Form	Non-Environmental	Relayed to appropriate ALDOT personnel.
10/16/2019	"Dust and stormwater pollution and dust from limestone surface material. My question is, 'is there nobody that is interested in protecting the environment and the lungs of citizens?'"	Mobile	Mobile; "Smith Young Road"	Environmental Concern Submission Form	Construction Activities	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/02/2020	Observed flooding on property and suspected issue was due to development activities conducted by ALDOT or Town of Gordo.	Pickens	Gordo; near AL-159 & US-82	Citizen Report	Hydrology/Hydraulics	Reviewed and discussed hydrology design outcomes and site conditions. Determined ALDOT activities unlikely to have caused alleged flooding issue. Made design specifications and analysis results available to citizen in response to Freedom of Information Act request.
01/20/2020	"Septic Tank Truck was seen ;leaving business address leaking waste. Pictures were taken and posted online"	Talladega	Lincoln; "Holly Hills Rd"	Environmental Concern Submission Form	Illicit Discharge	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/20/2020	"There is standing water and this is unfortunately a high trash area. The water makes it hard to pick up the trash as well as it being a possible mosquito breeding area."	Mobile	Mobile; "under the I-10 overpass on each side of Navco Rd"	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative where ALDOT had authority. (Some areas at location in question under jurisdiction of municipality.) (Citizen submitted multiple reports for this location during FY 2020.)
02/06/2020	Citizen of City of Birmingham observed flooding that may be due to ALDOT construction activities.	Jefferson	Birmingham; I-59/20 near 17th St N	City of Birmingham	Construction Activities	Delegated to and addressed by proper ALDOT representative. (Flooding issue largely due to excessive rainfall event.)

ALDOT Environmental Concerns Log:
Fiscal Year 2020

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
02/23/2020	"Significant debris piling up on the river under the bridge against the bridges structure columns. Its blocking almost half of the river on multiple columns. Small piles have been removed in the past but its never been this large. It cant be good for structure support/pressure. I have pics if needed."	Shelby	Birmingham; US-280 "bridge over Cahaba River"	Citizen Report	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
03/11/2020	"Mud all over the road coming from a construction site."	Madison	Madison; "Just north of the intersection of Wall Triana Hwy SW and Boeing Blvd SW"	Environmental Concern Submission Form	Construction Activities	Location outside of ALDOT jurisdiction.
03/11/2020	"Ever since y'all built this new road and bridge our land has gotten flooded when it rains. There was no standing rain for 50 years until y'all redone the rode and diverted all the water towards our house. It is washing away our driveway flooding our land and getting worse."	Talladega	Munford; "meadowview circle" [near AL-21]	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/20/2020	"The ditch on Duke Dr. is clogged. Rain runoff is pouring directly into my backyard with no where to go. This is causing the flooding of several homes and shed on Norman Dr. We have small kids and don't want to see them or anyone hurt. Please help."	Russell	Fort Mitchell; "Duke Dr @ Norman Dr"	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
06/03/2020	"If taking exit 166 on I-59 north- at stop sign at top of ramp if looking up Hwy 231 North you cannot see if it's clear for traffic due to large Crepe Myrtles. I had someone almost hit me barreling down the road going south on Hwy 231. I couldn't see them until I was already out in the intersection."	St. Clair	Ashville; "I-59 N to US-231 N intersection at exit 166"	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
08/28/2020	Clogged culvert at end of residential driveway causing water impoundment.	Lee	Salem; Lee Co Rd 124	Citizen Report	Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
09/09/2020	Observed excessive water impoundment on property that may have been caused by roadway drainage design or construction issue.	Jefferson	Warrior; N Main St	ADEM	Hydrology/Hydraulics	Delegated to proper ALDOT representative. Determined ALDOT work unlikely to have caused alleged water impoundment issue. Advised citizen that municipality has jurisdiction.

**ALDOT Miscellaneous Community Outreach Activities:
Fiscal Year 2020**

Activity	Notes
Collaboration: The Nature Conservancy	ALDOT, The Nature Conservancy, and local partners explored ways to improve water quality in Shades Creek and Village Creek in the Birmingham area. (Formal collaboration began in 2017.)
Collaborative Environmental Network of Alabama: Phase III Forum #1 (10/31/2019)	ALDOT along with other stakeholders with environmental influence actively participated in the forum to explore effective approaches for collaboration among different types of stakeholders.
Collaborative Environmental Network of Alabama: Phase III Forum #2 (12/05/2019)	ALDOT along with other stakeholders with environmental influence actively participated in the forum to explore effective approaches for collaboration among different types of stakeholders.
Collaborative Environmental Network of Alabama: Phase III Forum #3 (02/13/2020)	ALDOT along with other stakeholders with environmental influence actively participated in the forum to explore effective approaches for collaboration among different types of stakeholders. An ALDOT employee was a co-presenter in a talk about the mission and work of the Alabama Stormwater Association.
Mobile Bay National Estuary Program Project Implementation Meeting (05/20/2020)	ALDOT and other stakeholders discussed watershed plans, restoration projects, and impacts of COVID-19 on program work.
Mobile Bay National Estuary Program Project Implementation Meeting (08/13/2020)	ALDOT and other stakeholders discussed watershed plans, restoration projects, and impacts of COVID-19 on program work.
Social Media Outreach: ALDOT East Central Region Twitter Account	Region has a specific account dedicated to I-59/20 improvements. Posts give the public information on ALDOT construction practices. This specific Twitter account had approximately 1,800 followers as of the end of FY 2020.
Social Media Outreach: ALDOT Southwest Region Twitter Account	ALDOT Southwest Region uses Twitter to share general environmental information with the public and promote environmental activities. 3 environmental-oriented messages were posted during FY 2020. The Twitter account had approximately 6,900 followers as of the end of FY 2020.
Social Media Outreach: ALDOT West Central Region Twitter Account	ALDOT West Central Region uses Twitter to share general environmental information with the public and promote environmental activities. 1 anti-litter message was posted in FY 2020; 44,727 saw this message based on data available. The Twitter account had approximately 1,900 followers as of the end of FY 2020.

**ALDOT MS4 Coordination Activities:
Fiscal Year 2020**

Activity	Notes
Alabama Stormwater Association	2 ALDOT employees are on the ASA board of directors; ALDOT has participated in all board of directors meetings since ASA establishment. ALDOT was integral in the planning of a virtual seminar held on 04/29/2020 during which MS4s from throughout the state and various other stormwater professionals collaborated and gained focused stormwater management knowledge. Also, ALDOT maintained the ASA stormwater professionals contact list, which allowed for better coordination among stormwater professionals.
Calhoun County Stormwater Cooperative	ALDOT Alexander City Area participates in ongoing collaboration. Participation in meeting on 04/13/2020.
Cooperative Maintenance Agreement: ALDOT & City of Huntsville	The agreement authorizes City of Huntsville to perform litter pickup and mowing on ALDOT property, allowing ALDOT and City of Huntsville to work jointly and more efficiently in watershed protection.
Cooperative Maintenance Agreement: ALDOT & City of Montgomery	The agreement authorizes City of Montgomery to perform litter pickup on ALDOT property, allowing ALDOT and City of Montgomery to work jointly and more efficiently in watershed protection.
Cooperative Maintenance Agreement: ALDOT & Etowah County	The agreement authorizes Etowah County (namely Etowah County Detention Center) to perform litter pickup on ALDOT property, allowing ALDOT and Etowah County to work jointly and more efficiently in watershed protection.
Freshwater Land Trust Endangered Species Tour	ALDOT Birmingham Area personnel participated in a tour starting on 10/18/2020 to connect with other Jefferson County stakeholders and better understand the sensitivity of darter habitats and measures needed to protect them.
Litter Control Assistance: Anniston	ALDOT Alexander City Area donated litter pickup logistical items (trash pickers, safety vests, etc.) to the City of Anniston during FY 2020.
Local Emergency Planning Committee: Tuscaloosa County	ALDOT is a member of the LEPC along with other Tuscaloosa-area MS4s. Tuscaloosa Area personnel participate in LEPC meetings. Coordination regarding Pollution Prevention / Good Housekeeping is performed with other MS4s as part of LEPC work.
One Clean Mobile Partnership	Continuing partnership between ALDOT Southwest Region and City of Mobile established in FY 2016.

**ALDOT Participation with Professional Organizations:
Fiscal Year 2020**

Organization	Activity	Notes
Alabama Chapter of the Soil & Water Conservation Society	Membership	Some ALDOT personnel are members.
American Association of State Highway and Transportation Officials	Membership; Leadership roles; Participation in meetings	Some ALDOT employees are members of the Committee on Construction. Some ALDOT personnel participated in conference calls, webinars, and conferences.
American Society of Civil Engineers	Membership; Leadership roles; Participation in meetings	ALDOT employees participate actively in the Alabama Section and in the branches that comprise the Alabama Section. Multiple ALDOT employees serve in leadership roles in the branches. An ALDOT employee serves as President of the Alabama Section.
Choccolocco Creek Watershed Alliance	Membership; Participation in meetings; Assistance in event facilitation	ALDOT Alexander City Area personnel participate in meetings regularly and provided input as a watershed stakeholder. On occasion, ALDOT personnel contribute to facilitation of events, such as conferences and rain barrel workshops.
International Erosion Control Association	Membership; Leadership roles; Participation in meetings; Assistance in event facilitation	Some ALDOT personnel are members and attend conferences. An ALDOT employee serves on the IECA Municipal Wet Weather Stormwater (MS4) Conference planning committee.
Transportation Research Board	Article publication	An ALDOT employee co-authored an article in the July/August 2020 issue of <i>TR News</i> about integrating stormwater infrastructure into DOT processes; the employee's focus was on ALDOT's integrating post-construction stormwater management into the roadway design process.

**ALDOT Internal MS4 Awareness Activities:
Fiscal Year 2020**

Activity	Date	Notes
Internal MS4 Coordination Memorandum	10/01/2019	Memo sent to MS4-participating ALDOT offices to request review of their MS4 program-related activities, coordinate annual report data collection, provide updates regarding progress toward meeting SWMPP goals, and to remind them about upcoming MS4 program activity deadlines.
Communication during development of SWMPP revision	multiple	In the development of previous SWMPP versions, coordination meetings would be held among MS4-participating ALDOT parties. During the development of the June 30, 2020, version of the SWMPP, such meetings were not possible due to the COVID-19 pandemic. Thus, ad hoc, one-on-one communication (e.g., phone call, e-mail) was employed in lieu of in-person meetings.

ALDOT Major Outfall Inventory & Screening Summary

IDDE Outfall Map Index

ALDOT MS4 Area Map Update:
Dothan MS4 Area

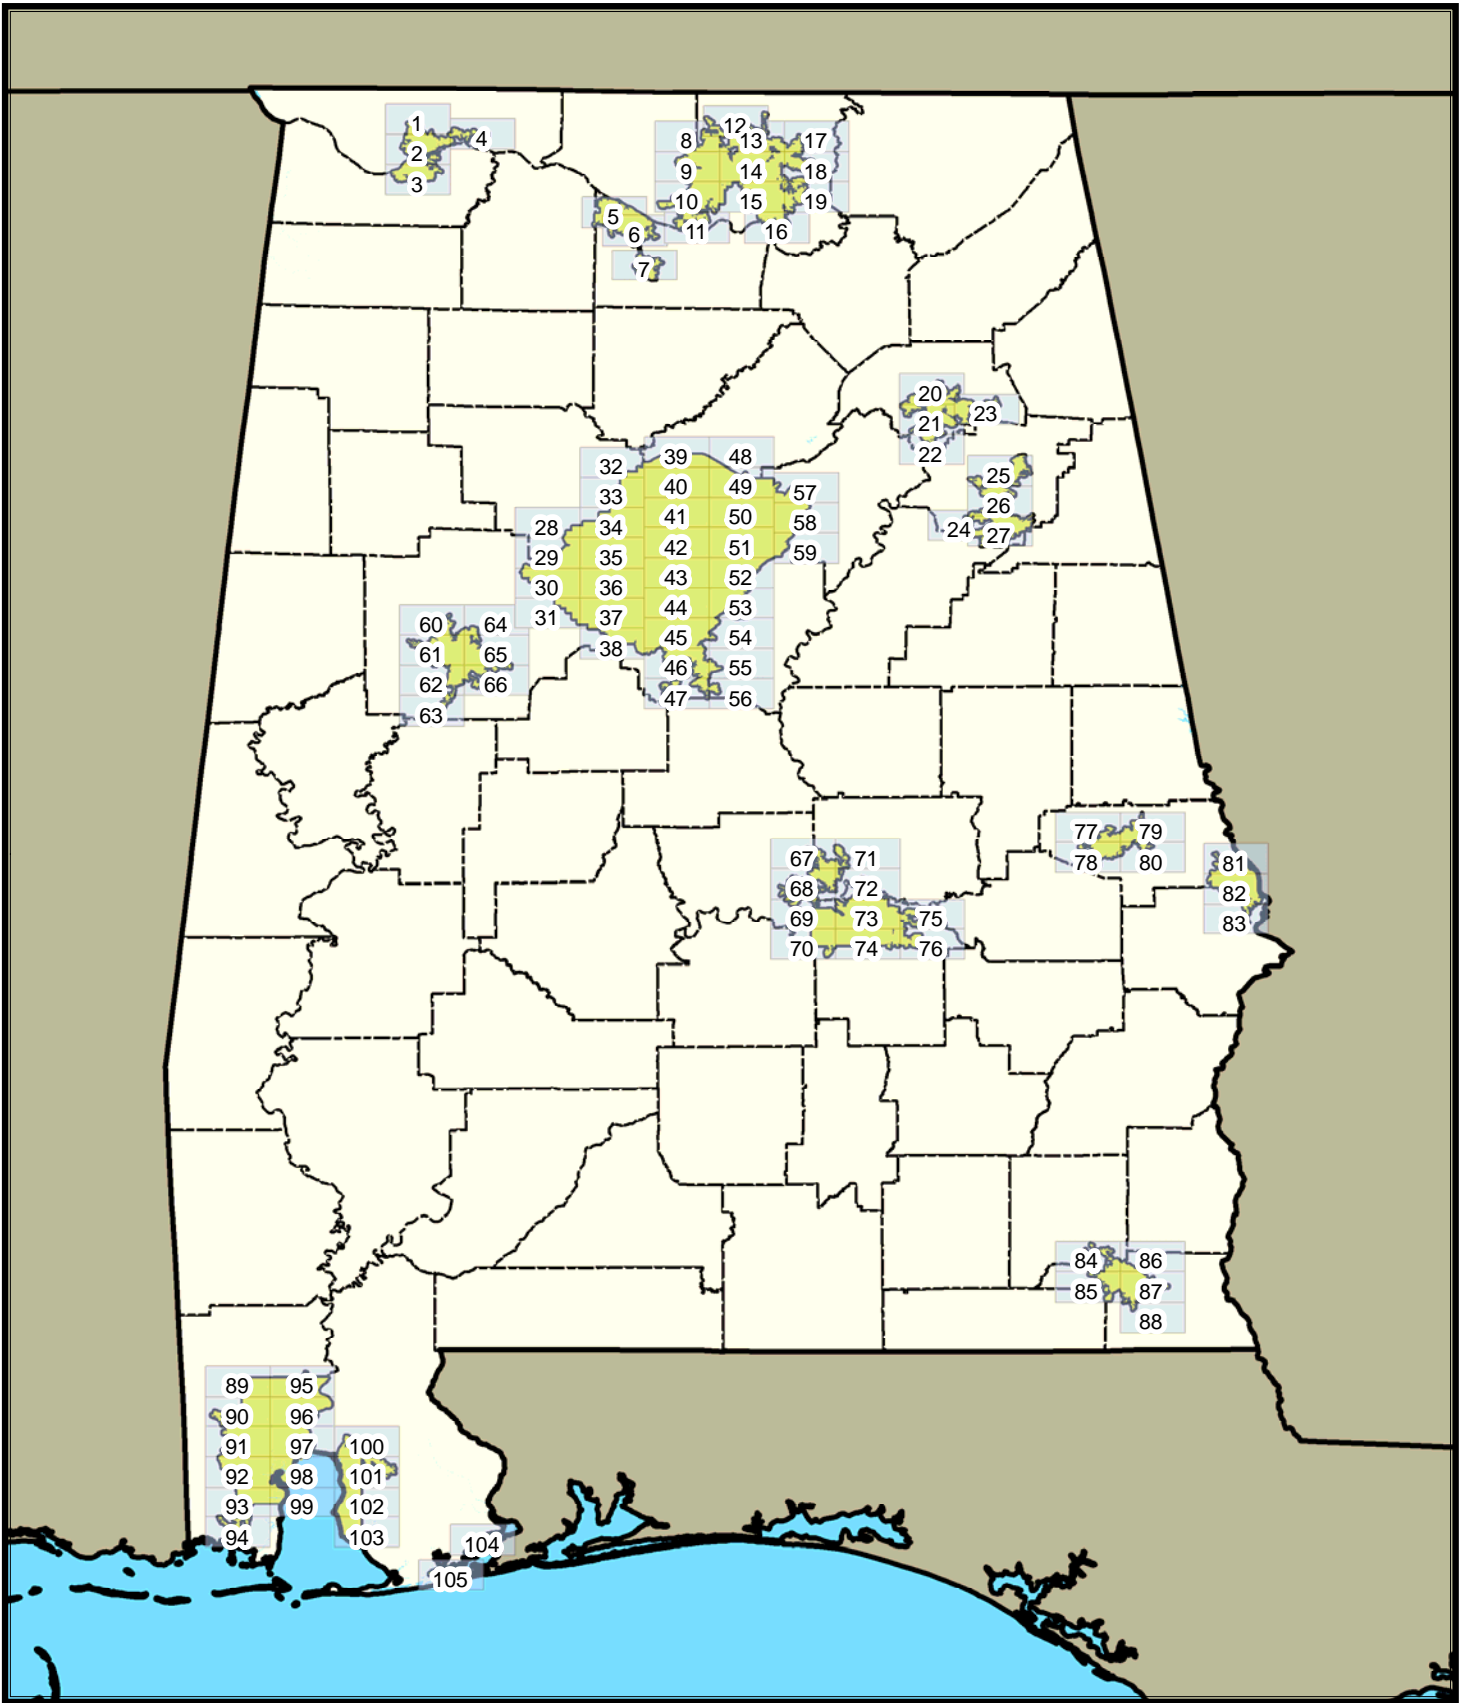

ALDOT Major Outfall Inventory & Screening Summary

Last Updated: January 29, 2021

MS4 Area	Major Outfalls on Inventory	Major Outfalls Screened	Possible Illicit Discharges at Major Outfalls	Other Possible Illicit Discharges	Inventory & Screening Outcomes
Anniston	16	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Auburn/Opelika *	5	5	0	0	No non-stormwater discharges observed during screening. Completed.
Baldwin County	16	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Decatur	16	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Dothan	16	16	0	2	1 major outfall removed from inventory. (Outfall no longer exists due to re-development work.) No new non-stormwater discharges observed during screening. 2 non-stormwater discharges reported during the previous MS4 permit term observed again. Completed.
Florence	14	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Gadsden	35	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Huntsville	57	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Jefferson/Shelby County	138	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Mobile	42	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Montgomery	28	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Phenix City *	6	6	0	1	No new non-stormwater discharges observed during screening. 1 non-stormwater discharge reported during the previous MS4 permit term observed again. Completed.
Tuscaloosa	34	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
<i>ALDOT Support Facilities **</i>	21	3	0	0	All (3) Dothan District Office major outfalls screened. No non-stormwater discharges observed.
PERMIT TERM TOTAL	444	30	0	3	

*The number of major outfalls on inventory for this MS4 Area given in previous annual reports was inaccurate due to a transcription error. The number given in the table is the correct number.

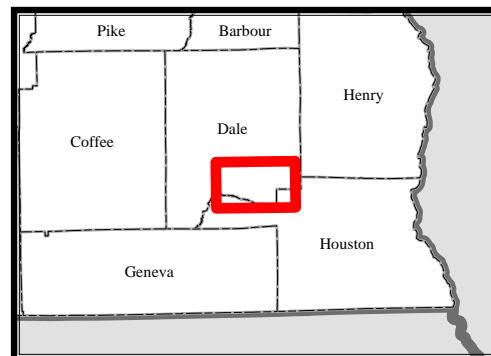

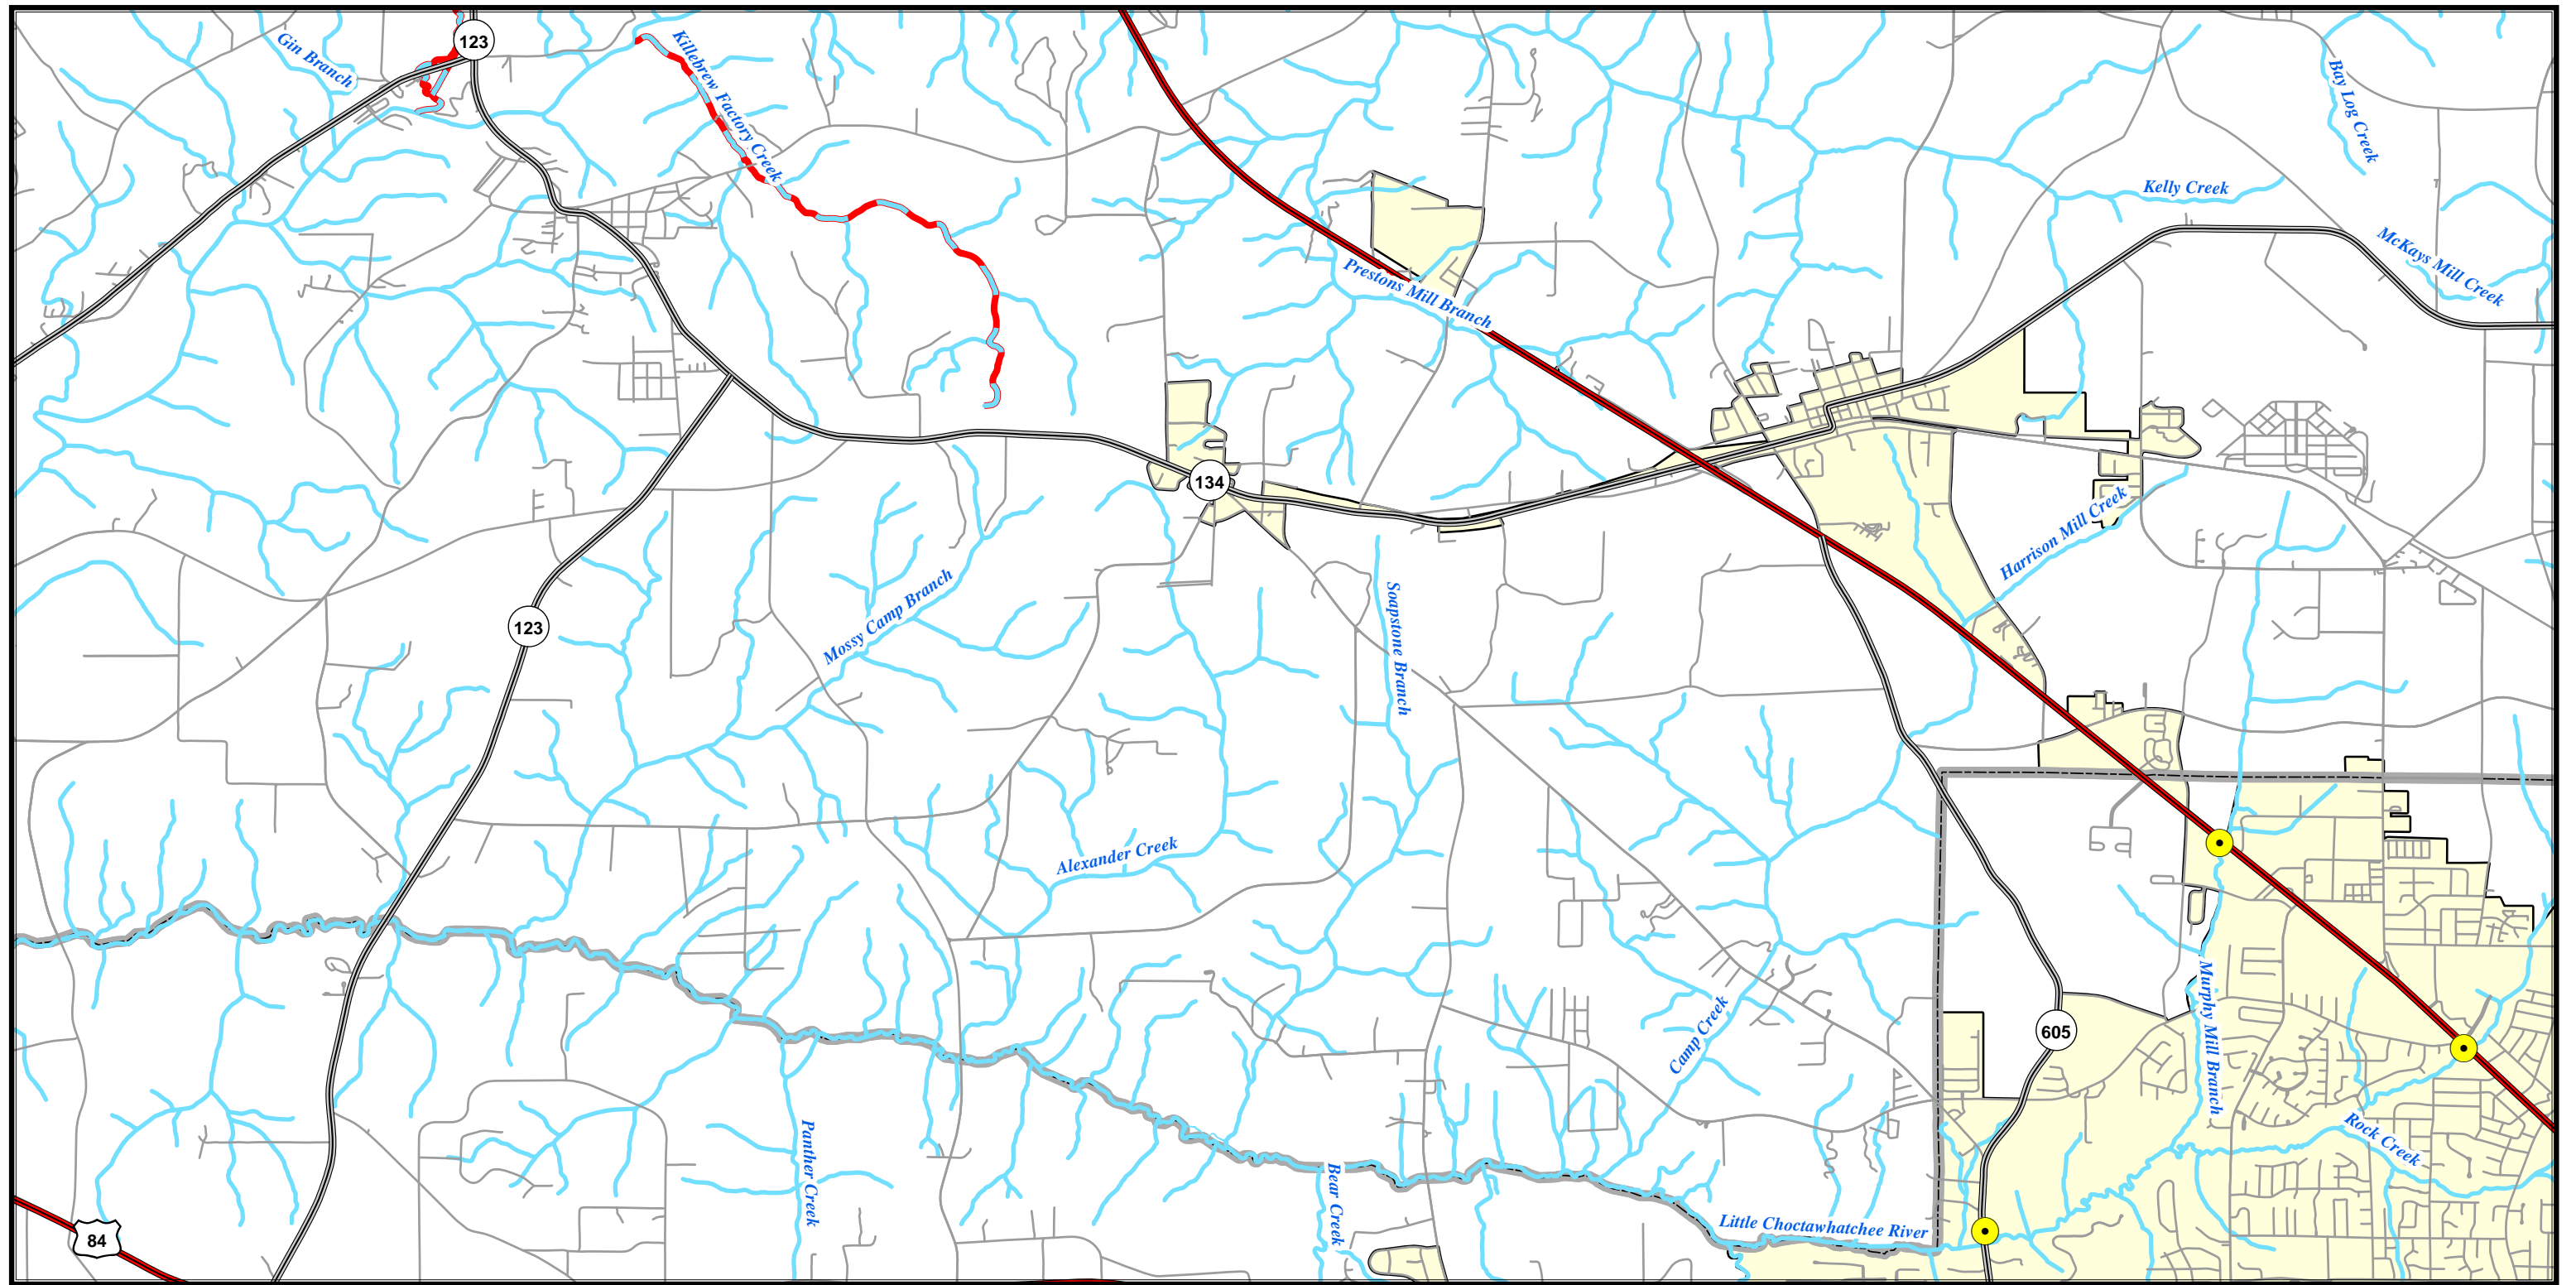

** Major outfalls identified at Central Office Complex / Montgomery Area Office / Montgomery District Office, Tusculumbia Area Office / Tusculumbia District Office, Huntsville District Office, Birmingham Area Office / Birmingham District Office, Calera District Office, Gadsden District Office, Tuscaloosa Area Office / Tuscaloosa District Office, Dothan District Office, and Tunnel Office.

**ALDOT MS4 Support Facility Annual Inspections:
Fiscal Year 2020**

Facility Name	Inspection Date(s)	Summary of Observed Deficiencies
Central Office Complex	12/10/2019; 12/11/2019	See attached.
Huntsville District Office	08/25/2020	Water accumulation in containment sumps and fuel ports.
Gadsden District Office	08/24/2020	No environmental concerns.
Tuscumbia Area Office	09/02/2020	No environmental concerns.
Tuscumbia District Office		
Birmingham Area Office	08/31/2020	Herbicide leak from truck in herbicide storage.
Birmingham District Office		
Calera District Office	08/31/2020	No environmental concerns.
Anniston District Office	08/13/2020	Automotive batteries not dated with accumulation time.
Tuscaloosa Area Office	09/24/2020	Scrap Tire Quarterly Reports not available. ADEM 558 (30-Day Walkthrough Inspection) not available. Class C Operator certificate not available. Two (2) 55-gal oil drums not stored on secondary containment.
Tuscaloosa District Office		
Speigner District Office	06/24/2020	No environmental concerns.
Montgomery Area Office	12/10/2019	Auto shop used oil tank unlabeled; containment had debris. Containers with no cap/lid. Containers with incorrect or no labeling. No permit for wash station discharge to sanitary sewer. ADEM Form 8700-12 submitted late.
Montgomery District Office		
Dothan District Office	05/21/2020	No environmental concerns.
Mobile Area Office	09/29/2020	Box of bulbs with no accumulation date. ASTs showed signs of rusting. Drum of degreaser needed lid that seals properly.
Mobile District Office		
Tunnel Office	09/29/2020	No environmental concerns.

Date: December 10, 2019

Location	Reasons of Concern	Manual Reference	Recommendation	Item Corrected During Audit		Repeat Finding	
				Yes	No	Yes	No
Nuclear Gauge Room	Bucket of used batteries was not labeled.	2.2.1	Label container with "Used Batteries" or "Waste Batteries" or "Universal Waste - Batteries".	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Asphalt Lab	Container of broken thermometers was not labeled as hazardous waste.	4.3.4	Place a "Hazardous Waste" label on the container.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
HW Storage Unit	Two containers of waste hydrochloric acid were not dated.	4.3.1	Date all containers of hazardous waste when they are placed in the hazardous waste storage unit.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Supply area storeroom and Cleaning Crew closet.	Unlabeled spray bottles		Label on containers	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Base Course Soil Lab/ Room 8	No SDS for Chlorox Cleanup		Maintain SDSs for chemicals used in the lab/area.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
				<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Date: December 11, 2019

Location	Reasons of Concern	Manual Reference	Recommendation	Item Corrected During Audit		Repeat Finding	
				Yes	No	Yes	No
Traffic Signal Shop	One box of used bulbs was not securely closed.	2.2.2	Boxes of used bulbs should be kept securely closed.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Sign Shop	One used bulb on floor near compressor. Bulb left by contractor that was changing out bulbs.	2.2.2	Used bulbs should be stored in structurally sound, closed containers.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Sign Shop	Plastic gallon jug with no cap, unknown contents.		Store chemicals in closed, labeled containers.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Signal Shop	Requested SDSs for Sta-Bil fuel stabilizer and denatured alcohol. Neither SDS was available.		Maintain copies of SDSs for each chemical/product used in each area.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Bridge	Requested SDSs for ferric chloride and CRC Wasp and Hornet spray. Neither SDS was available.		Maintain copies of SDSs for each chemical/product used in each area.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Transportation Planning	Requested SDSs for CRC Insect Repellant and Pure Bright Bleach. Neither SDS was available.		Maintain copies of SDSs for each chemical/product used in each area.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Date: December 11, 2019

Location	Reasons of Concern	Manual Reference	Recommendation	Item Corrected During Audit		Repeat Finding	
				Yes	No	Yes	No
Main Building	3 Boxes of used bulbs were not dated.	2.2.4	Date the box when the first bulb is placed inside.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Warehouse	Debris/trash is present in the containment units of the ASTs located in the warehouse area.		Remove and properly dispose of debris/trash.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Motor Pool	A copy of the City permit for discharging the wash water could not be provided.		Locate copy of the City permit and review any requirements stipulated for the discharge.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Warehouse	Open plastic container, with no label, used to store fuel near diesel AST in warehouse.		Store fuel only approved containers.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Main Building	Requested SDSs for AquaTrol and Pine-Sol. Neither were provided on day of audit, but were sent later.		Maintain SDSs for all chemicals used at the facility	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
				<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Date: December 11, 2019

Location	Reasons of Concern	Manual Reference	Recommendation	Item Corrected During Audit		Repeat Finding	
				Yes	No	Yes	No
Office	8700-12 was submitted to ADEM on August 26, 2019, after the August 15, 2019 due date.	1.5	Submit 8700-12 each year by the August 15th deadline.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Shop	One small label was present on the used oil tote.	1.2	Provide larger labels (that can be read from 25 feet) on each side of used oil tote.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Storage Area	Box of used bulbs was not closed.	2.2.2	Keep box closed at all times except when adding bulbs.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
USTs	Did not provide results of catchment basin testing	7.4.1	Request copies of test results from vendor and maintain in the file.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Vehicle Wash Station	Facility could not provide documentation that City has approved discharge of vehicle wash water		Continue to attempts to obtain permit from City for wastewater discharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vehicle Wash Station	Unlabeled container of purple fluid.	8.2	Label all chemical containers.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Date: December 11, 2019

Location	Reasons of Concern	Manual Reference	Recommendation	Item Corrected During Audit		Repeat Finding	
				Yes	No	Yes	No
Storage Room	Dirt Buster - did not have SDS		Maintain copies of SDSs for each chemical used at the facility	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
USTs	Line leak detection test conducted in February 2019 indicated "inconclusive" results. The system was reportedly repaired, but a passing test report was not provided.		Locate missing test report.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
