Mr. Lance LeFleur, Director
Alabama Department of Environmental Management
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2059

Attn: Mr. James Carlson, PE, Water Division

Re: **FY 2023 MS4 Annual Report**
NPDES Permit No. ALS000006

Dear Mr. Carlson:

Attached is the Fiscal Year 2023 annual report for the ALDOT MS4 Stormwater Management Program (SWMP). This submission is in compliance with Part IV of the ALDOT MS4 permit (NPDES Permit No. ALS000006) reissued on September 30, 2019. The report details the MS4-applicable actions performed by ALDOT and the status of each activity designated by the SWMP Plan (SWMPP) during the period of October 1, 2022, to September 30, 2023. The report applies to the SWMPP versions dated January 10, 2022, and January 30, 2023, respectively, which were in effect during FY 2023. A revision of the SWMPP is being submitted under a separate cover; SWMPP modifications are explained in the annual report.

If you should have any questions concerning the report or wish to discuss any of the content in the report, please contact Dr. Scott Rogers, Environmental Coordination Engineer, at (334) 353-6214.

Sincerely,

Edward N. Austin, PE
Chief Engineer

ENA/KML/SCB/ASA/SWR

**ALABAMA DEPARTMENT OF TRANSPORTATION
MS4 STORMWATER MANAGEMENT PROGRAM
NPDES Permit No. ALS000006**

**ANNUAL REPORT
Fiscal Year 2023**

I. Introduction

A. Background

The U.S. Environmental Protection Agency (EPA) regulates urban stormwater management under the National Pollutant Discharge Elimination System (NPDES). Urban stormwater collects in, flows through, and discharges from a “municipal separate storm sewer system” (MS4). Thus, EPA refers to the mechanism for regulated urban stormwater management as the “MS4 program.” The Alabama Department of Environmental Management (ADEM) carries out the MS4 program at the state level and regulates urban stormwater management for qualifying public entities in Alabama. (The acronym “MS4” can also refer to such a public entity.)

In 2013, ADEM issued to the Alabama Department of Transportation (ALDOT) an individual MS4 permit (NPDES No. ALS000006) covering ALDOT’s MS4-applicable activities throughout Alabama. This MS4 permit was designed specifically for ALDOT and replaced regulatory coverage of ALDOT under MS4 permits issued previously. After a full five-year permit term and an administrative continuation, ADEM reissued this MS4 permit to ALDOT with some modifications on September 30, 2019. (Hereinafter, the 2019 version of the MS4 permit will be referred to as simply “the Permit.”) The Permit went into effect on October 1, 2019, and is intended to stay in effect for a term of five years (i.e., through September 30, 2024).

The Permit applies to areas of the state as specified by Permit item I.A. Requirements of the Permit largely fall under six minimum control measures: Structural Controls Operation, Public Education & Public Involvement (PEPI), Illicit Discharge Detection & Elimination (IDDE), Construction Site Stormwater Runoff Control, Post-Construction Stormwater Management, and Pollution Prevention / Good Housekeeping (PPGH). In addition, the Permit also contains specific MS4 monitoring requirements.

ALDOT developed a stormwater management program (SWMP) to address the requirements of the Permit and other MS4 stormwater management objectives. The document containing details of the SWMP is the “Stormwater Management Program Plan” (SWMPP). The SWMPP explains the ALDOT MS4 stormwater management activities to be conducted over the Permit term, the ALDOT parties associated with particular activities, the goals corresponding to the activities for the Permit term, and the intended timeframes for the completion of activities. The first version of the SWMPP applicable to the term of the Permit was submitted to ADEM on June 30, 2020. Previously, four revisions of the SWMPP (dated January 29, 2021, April 27, 2021, January 10, 2022, and January 30, 2023, respectively) were prepared. MS4-applicable activities performed by ALDOT during Fiscal Year (FY) 2023 pertain to either the January 2022 version or the

January 2023 version of the SWMPP, depending on when activities took place. However, these revisions were minor as ALDOT has not modified its SWMP in any substantial way since the development of the first SWMPP version, so the importance of an activity's applicability to a given SWMPP version is small. Another minor SWMPP revision (dated January 30, 2024) has been prepared; it will be in effect during the balance of FY 2024.

B. Purpose of the Annual Report

ALDOT provides updates with respect to SWMPP implementation through annual reporting. As required by Permit item IV.A.1, ALDOT is to submit an annual report to ADEM by January 31 of each year the Permit is in effect. Each annual report is to cover the previous fiscal year (i.e., October 1 – September 30). Generally, the material included in the report is governed by items IV.A.4 and IV.B of the Permit.

This document is the annual report covering FY 2023 (i.e., October 1, 2022 – September 30, 2023). MS4-applicable stormwater management actions ALDOT performed during FY 2023 and the statuses of SWMPP-identified activities during FY 2023 are explained in Part II of this report. Part III of this report provides ALDOT's evaluation of its SWMP given actions performed and data collected through the end of FY 2023. In Part IV, the future direction of the SWMP is discussed; the discussion in part addresses modifications made to the SWMPP upon review of FY 2023 activities. Appendices that contain information to supplement Parts II through IV are included in this annual report as well. The appendix structure used in this report is designed to largely mirror that of the SWMPP in order to facilitate connectivity between the SWMPP and this report.

II. Actions Performed & Statuses of Activities during FY 2023

In this section, summaries of FY 2023 actions and statuses are presented for each SWMPP activity category. Emphasis is placed on certain actions and statuses rather than on others, as judged appropriate. A comprehensive list of SWMPP activities with corresponding FY 2023 actions and statuses is provided in Appendix A to supplement the discussion that follows. The list also contains expected tracking data for activities as well as references for finding additional information.

A. Stormwater Management Program Plan

ALDOT modified the SWMPP during FY 2023 by preparing the January 2023 revision, as indicated above. Explanations of those modifications are provided in Part IV of this report.

The timely submission of this annual report will satisfy the annual report submission requirement for Calendar Year 2024. Annual reports for the Permit term to date have been submitted on time.

B. Structural Controls Operation

During FY 2023, two structural BMP systems were inspected. In accordance with the SMWPP, these inspections occurred within two years of the BMPs becoming fully operational. Inspection outcomes informed BMP maintenance work performed. Inspection details can be found in a table in Appendix F.

C. Public Education & Public Involvement

ALDOT continued its successful anti-litter public awareness campaign in FY 2023. During FY 2023, 103 radio stations and 17 television stations throughout Alabama broadcasted a campaign public service announcement (PSA). Two messages with PSA-related content were published on the “Drive Safe Alabama” Facebook page, and one PSA-related message was published on the “Drive Safe Alabama” Twitter (i.e., “X”) account. PSA coverage and demographic reach information can be found in Appendix C. Beyond that public awareness campaign, the ALDOT West Central Region brought additional attention to motorist litter issues by holding “Spring Clean Day” in April 2023; the press release issued by ALDOT and a sample article from a media outlet resulting from the press release are provided in Appendix C.

ALDOT also provided ongoing anti-litter public awareness for motorists by means of signage posted on ALDOT roadways throughout the state. During FY 2023, 755 anti-litter signs were active on ALDOT roadways across all ten ALDOT Areas. A breakdown of signs posted by ALDOT Area is given in Appendix C.

ALDOT maintained its agreements with Alabama People Against a Littered State (PALS) and Keep Alabama Beautiful (KALB) throughout FY 2023. ALDOT contributed \$295,000 to PALS and \$249,858 to KALB for FY 2023 activities. Activities conducted by PALS and KALB were in line with expectations set by contracts with ALDOT; Appendix C includes activity reports submitted by PALS and KALB that were reviewed by ALDOT. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed up with PALS and KALB to determine if litter control activities are being performed in that area. Regarding the PALS Adopt-a-Mile program specifically, 893 parties were active participants performing litter pickup on a total of 894.53 miles of roadway as of the end of FY 2023; a breakdown by ALDOT Region of roads adopted is provided in Appendix C.

In partnership with ADEM, ALDOT continued to install “trash sculptures” at ALDOT rest areas. The sculptures are statues of animals containing repurposed plastic water bottle waste and other trash that are intended to raise public awareness of trash impacts on water habitats and ecosystems. During FY 2023, trash sculptures were installed at six rest areas.

Beyond addressing litter, ALDOT continued activities addressing the other target pollutants (i.e., sediment, herbicide, and chemicals and waste materials) as well during FY 2023. ALDOT carried out its Qualified Credentialed Inspector (QCI) training, vegetation management training, and typical good housekeeping training for support facility employees. Outcomes of these training activities are discussed below in Section II.E and Section II.G, and Appendix C provides specific information related to those outcomes.

ALDOT's funding of stormwater management-related university research continued in FY 2023. Eight research projects were actively supported during FY 2023. Appendix C gives a list of research projects funded by ALDOT during and prior to FY 2023; the total ALDOT funding amount for each supported project is provided.

ALDOT maintained significant interaction with the citizens in communities throughout Alabama during FY 2023. Citizen use of ALDOT's online Environmental Concern Submission Form continued to increase, which ALDOT attributes to the FY 2021 Web site revision that provided heightened visibility and accessibility. Over 100 environmental concerns were submitted by citizens using the Environmental Concern Submission Form during FY 2023. Details about the citizen reports and follow-up actions can be found in Appendix C.

ALDOT's use of social media to advance public awareness continued during FY 2023. Three of the Region Twitter (i.e., "X") accounts had followers numbering in the thousands, and the fourth account had hundreds of followers. Region Twitter accounts posted multiple stormwater/ environmental messages during FY 2023. Also, one Region has a Facebook account with thousands of followers. In addition, the ALDOT-owned "Drive Safe Alabama" Facebook account had thousands of followers during FY 2023, and the "Drive Safe Alabama" Twitter account had hundreds of followers. Appendix C provides more details about ALDOT's FY 2023 social media activities.

Regarding engagement at the local level during FY 2023, three meetings with the Coliseum Boulevard Plume community outreach group were held. ALDOT participated in collaboration opportunities through involvement with the Baldwin County MS4 Planning Committee as well as maintained its anti-litter collaboration with the City of Mobile and Mobile area stakeholders through the Litter-Free Mobile Task Force. Moreover, ALDOT maintained cooperative maintenance agreements with various municipalities and counties so that those local authorities could perform litter pickup on ALDOT property. Additional details about ALDOT's local-level activities are given in Appendix C.

ALDOT continued to be an integral member of the Alabama Stormwater Association (ASA) in FY 2023 by maintaining a comprehensive contact list of Alabama MS4 and other stormwater professionals and by playing a significant role in facilitating a virtual seminar. Two ALDOT employees served on the ASA board of directors during FY 2023. ALDOT's involvement in ASA is further detailed in Appendix C.

ALDOT participated in the environmental-oriented efforts of several professional organizations during FY 2023. Employees represented ALDOT as members of International Erosion Control Association (IECA), the American Society of Civil Engineers, the Alabama Chapter of the Soil and Water Conservation Society, and other organizations. Of note, an ALDOT employee served as the IECA MS4 Management Subcommittee Chair and hosted a webinar focused on anti-litter measures during FY 2023. ALDOT participation in professional organizations is further explained in Appendix C.

Regarding additional education opportunities for ALDOT personnel, ALDOT employees participated in at least 19 professional educational events (e.g., conferences, seminars,

workshops) during FY 2023. Appendix C provides a table with these events listed and the ALDOT attendance information for each event.

D. Illicit Discharge Detection & Elimination

During FY 2023, ALDOT continued its review of the major outfall inventory and continued the major outfall dry-weather screening applicable to the Permit term. Outfalls on inventory in the Anniston, Florence, and Huntsville MS4 areas as well as at the Anniston District Office, Tuscumbia Area Office / Tuscumbia District Office, and Huntsville District Office were reviewed; no major outfalls were added to or removed from the inventory. (However, it was discovered during FY 2023 that Anniston District Office outfalls were inventoried and screened during the previous MS4 permit term but were not reported in previous SWMPP versions or annual reports. The SWMPP has been corrected as explained below in Section IV.) All accessible major outfalls reviewed were also screened; one possible illicit discharge was identified and addressed in accordance with the SWMPP. A summary of inventory and screening activities relevant to the Permit can be found in Appendix D.

Beyond the possible illicit discharge discovered during outfall screening, one possible illicit discharge was reported to ALDOT personnel by a citizen. Details about the concern submission can be found in the environmental concerns log given in Appendix C. The possible illicit discharge was addressed in accordance with the SWMPP.

E. Construction Site Stormwater Runoff Control

In FY 2023, ALDOT continued to oversee Construction General Permit coverage and compliance as described in the SWMPP. There were 26 active, permitted construction projects in MS4 areas during FY 2023. Those projects are listed in a table provided in Appendix E.

ALDOT received two concern reports relating to construction site stormwater runoff control during FY 2023. One concern was not related to ALDOT construction activity, and the other concern was addressed in accordance with the SWMPP. More details about the concerns are given in the environmental concerns report log in Appendix C.

As noted in Section II.C above, QCI training was conducted during FY 2023. ALDOT facilitated QCI recertification training for 357 employees and 151 other individuals over four virtual sessions as well as provided the means for 30 employees to obtain initial QCI certification. More information about QCI training is provided in Appendix C.

F. Post-Construction Stormwater Management

As noted above in Section II.B, two structural BMP systems were inspected during FY 2023, and the inspection outcomes informed BMP maintenance work performed. Additional details can be found in Appendix F.

G. Pollution Prevention / Good Housekeeping

Eighteen support facilities were inspected during FY 2023, and the deficiencies noted during inspections were resolved or are in the process of resolution in accordance with facility SPCC Plans. The facility inspections performed and deficiencies observed during inspections are summarized in a table included in Appendix G. No significant revision of the ALDOT-wide support facility SPCC program was made during FY 2023, and no individual facility SPCC Plan was significantly revised.

With respect to support facility good housekeeping training, sessions covering SPCC, universal waste, GHS, and other related topics were conducted at ALDOT support facilities during FY 2023. Appendix C provides a table that indicates the dates of sessions held at specific support facilities for particular types of training along with the number of employees attending each session.

Regarding transportation facility PPGH, applicable maintenance activities (i.e., litter pickup, snow and ice control, drainage structure maintenance, erosion control, and herbicide treatment and surveillance) continued to be performed in manners intended to reduce the potential for negative stormwater runoff impacts during FY 2023. Of note, full-width litter pickup was performed on 2,210.19 shoulder miles throughout Alabama, and 3,394 instances of spot litter pickup occurred as indicated by completed work reports. Other total activity work amounts are given in a table in Appendix G.

As noted above in Section II.C, vegetation management training continued throughout FY 2023. Eleven sessions of the vegetation management training course were held for 272 ALDOT and 83 non-ALDOT participants in all. Details about individual vegetation management training course sessions are provided in a table in Appendix C. Agendas for this training (for Calendar Years 2022 and 2023) are also provided in Appendix C. Eight vegetation management training newsletters were distributed during FY 2023. In addition, a total of 47 employees over nine sessions held during FY 2023 participated in the “Review for Commercial Applicator Examination” course.

H. MS4 Monitoring

In FY 2022, ALDOT continued field implementation of the MS4 monitoring visual observation strategy. Two dry-weather observations and one wet-weather observation were conducted at all six selected monitoring locations in accordance with the visual observation strategy developed. Observation outcomes continued to indicate that runoff flow paths on ALDOT property are well-vegetated overall and do not experience noteworthy erosion. Thus, the monitoring efforts have produced no evidence that ALDOT is a significant contributor to the pollution of waters for which sediment or turbidity is a pollutant of concern. More details about the MS4 monitoring activities conducted during FY 2023 are provided in Appendix H.

III. Evaluation of the Stormwater Management Program

The proficiency that ALDOT has demonstrated in conducting MS4 activities during the first four years of the Permit term (i.e., FY 2020, FY 2021, FY 2022, and FY 2023) indicates that ALDOT is experiencing sustained SWMP success which began in the previous MS4 permit term and has carried over to the current term. Progress made in implementing the SWMPP during FY 2023 has been encouraging.

ADEM conducted a comprehensive audit of ALDOT's SWMP during FY 2021. As of the writing of this annual report, ALDOT has not received any official assessment or rating information with respect to the audit from ADEM, but verbal feedback from ADEM representatives provided at the conclusion of the audit suggested that ALDOT's SWMP would be rated very favorably and that few, in any, modifications of the ALDOT SWMPP would be requested. ALDOT considers this feedback further validation of the sustained success of the SWMP.

ALDOT's evaluation of its MS4 program based on the accomplishments of the first four years of the Permit term follows.

A. Overall Program Compliance Status

Actions expected by either the Permit or the SWMPP to be performed during FY 2023 were performed by ALDOT when possible. The COVID-19 pandemic prevented some activities from taking place and reduced the amounts of other activities performed, but the pandemic caused no unmitigated compliance issues during FY 2023.

B. Major Findings Resulting from the Program

The ALDOT PEPI program continues to be robust. The anti-litter public awareness campaign, anti-litter signage, and fully-deployed watershed boundary signage are strategically targeting citizen motorists at a large scale. The accomplishments of PALS and KALB demonstrate the importance of ALDOT's ongoing support of external anti-litter campaigns to supplement ALDOT's own anti-litter efforts. ALDOT's online exposure and communication via social media with the public continue to increase. The major revision of the ALDOT Web site during FY 2021 was a significant step forward in terms of functional online connection with citizens, as evidenced by the remarkable uptick in citizens using the Environmental Concern Submission Form. ALDOT continues to connect with citizens and with other MS4s at the local level through partnerships such as the Litter-Free Mobile Task Force and through participation in organizations like the Alabama Stormwater Association. The established QCI training and vegetation management training conducted by ALDOT continues to be set up to provide both employees and non-employees training well-regarded by the stormwater professional community.

Findings from environmental concerns submitted by citizens, major outfall screening, and good housekeeping on ALDOT property continue to indicate no major or widespread deficiencies in ALDOT MS4 stormwater management practices. The visual observation strategy for MS4

monitoring is, to date, providing additional support that ALDOT's stormwater management practices are sufficient in preventing pollutants of concern from entering natural waters.

C. Program Strengths & Weaknesses

Well-established, MS4-applicable activities continue to be noteworthy strengths of the ALDOT SWMP. In particular, education of employees, education of the public, involvement with the public, construction stormwater management, PPGH for transportation facilities, and IDDE-motivated major outfall inventory and screening are typically conducted in highly proficient manners and usually achieve expected outcomes or even outcomes beyond those that are required by the Permit. PPGH procedures for ALDOT support facilities continue to be implemented smoothly overall under the formalization that took place during the previous MS4 permit term.

With fully operational BMPs on the post-construction stormwater management BMP inventory, the first official inspections of BMPs occurred during FY 2023. The outcomes of the BMP inspections provide validation of the viability of the inspection procedures in assessing the condition of a given BMP. Further implementation of the procedures is needed to determine if they are indeed adequate for the broad spectrum of BMPs that will be fully operational in time.

Field implementation of the visual observation strategy for MS4 monitoring has shown promise. ALDOT already sees the advantages of examining monitoring locations from a "big picture" perspective rather than trying to discern ALDOT's contribution or lack of contribution to receiving water pollution based on noisy numerical data. ALDOT will continue to assess the viability of the new monitoring approach throughout the Permit term.

D. Overall Program Effectiveness

No evidence has emerged to refute ALDOT's prior assessment that its established SWMP practices are meeting MS4 regulatory requirements as well as ALDOT's stormwater management objectives in a sustained manner. Since the SWMP has not changed substantially in recent years or over different MS4 permit terms, ALDOT is not expecting a different assessment as the Permit term advances, but ALDOT will continue to collect data in future years and draw reasonable conclusions, as appropriate.

IV. Future Direction of the Program

At this point in the Permit term, ALDOT has no reason to develop a major revision of the June 2020 version of the SWMPP given the sustained success of the ALDOT MS4 program. However, relatively minor SWMPP modifications are needed occasionally, which is why two revisions of the SWMPP were prepared during FY 2021, one revision was prepared during FY 2022, one revision was prepared during FY 2023, and another revision is being submitted with this annual report. Modifications made in the January 2023 revision of the SWMPP were discussed in the FY 2022 annual report. The SWMPP modifications made since the January 2023 revision are the following:

- updates of statuses of activities in light of FY 2023 outcomes,
- updates of ALDOT MS4 point-of-contact information because of personnel reassignments that occurred,
- inclusion in Appendix D of a map depicting the locations of major outfalls at the Anniston District Office first inventoried and screened during the previous MS4 permit term (though those inventory and screening outcomes were mistakenly unreported, as indicated above in Section II.D) and then reviewed and screened again during FY 2023, and
- corrections of any detected inadvertent misstatements, grammatical issues, and aesthetic issues.

ALDOT will modify the SWMPP again appropriately as other needs arise.

Appendix A:

Supplemental Material for Section II.A

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

**ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary**

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
Stormwater Management Program Plan					
II.A.1; II.A.2; II.C.1; II.C.2	Stormwater Management Program Plan (SWMPP)	State Design Engineer	Develop SWMPP. Revise SWMPP as needed throughout Permit term.	SWMPP developed. Four revisions (dated 01/29/2021, 04/27/2021, 01/10/2022, and 01/30/2023, respectively) submitted during the Permit term. Another revision (dated 01/30/2024) will be submitted concurrently with this report.	All citations of the SWMPP below refer to the 01/10/2022 version or the 01/30/2023 version, as applicable. See Part IV for explanations of modifications found in the 01/30/2024 version of the SWMPP.
IV.A.1; IV.A.2; IV.A.4; IV.B	MS4 annual reports	State Design Engineer	Compile and submit to ADEM an annual report for the previous fiscal year by January 31 of every year during which Permit is in effect.	Annual report for FY 2023 compiled and submitted to ADEM on time. All annual reports submitted on time during Permit term.	
Structural Controls Operation					
II.B.1.b.1; II.B.1.c; II.B.1.d.1	Inventory & map of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory forms. Update inventory with fully operational structural BMPs. Develop map depicting structural BMP locations; update map as structural BMPs become fully operational.	No significant revision of electronic inventory form during FY 2023. Inventory updated with fully operational BMPs, as needed, throughout FY 2023.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
II.B.1.b.2; II.B.1.b.3; II.B.1.c; II.B.1.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist (inspection form) for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form during FY 2023. 2 structural BMP systems inspected within 2 years of becoming fully operational.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form." See App. F for "Post-Construction Stormwater Management BMP Inspection Summary: Fiscal Year 2023."
II.B.1.b.3; II.B.1.b.4; II.B.1.b.5; II.B.1.c; II.B.1.d.1; II.B.1.d.2	Maintenance of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection maintenance. Stabilize eroded areas of structural BMPs as needed. Remove sediment and debris from structural BMPs as needed. Track maintenance work reports completed for each structural BMP.	Maintenance procedures implemented. Maintenance on 1 structural BMP system performed in response to inspection outcomes.	See App. F for "Post-Construction Stormwater Management BMP Inspection Summary: Fiscal Year 2023."
Public Education & Public Involvement					
II.B.2.a; II.B.2.c.1	Implementation of ALDOT Public Education & Public Involvement (PEPI) program	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Computer Services Bureau Chief; Region Engineers	Implement PEPI program in areas served by the ALDOT MS4. Adjust program as needed.	Program implementation ongoing. No major program adjustments during FY 2023.	See SWMPP (c. 3) for a description of the PEPI program.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a; II.B.2.c.2	Mechanism(s) to provide public with stormwater management information & opportunities for involvement	State Design Engineer; Computer Services Bureau Chief; Region Engineers	Maintain stormwater management content on the ALDOT Web site. Post stormwater/environmental messages online via Twitter, as appropriate. Track the number of MS4-applicable Twitter messages posted.	ALDOT Web site (including environmental-oriented pages) maintained during FY 2023. Stormwater management content published on Web site and updated as necessary. 4 ALDOT Regions had Twitter ("X") accounts during FY 2023. The 3 older Region Twitter accounts had numbers of followers in the thousands as of the end of FY 2023; the newest account had hundreds of followers. Region Twitter accounts posted multiple stormwater/ environmental messages during FY 2023. The "Drive Safe Alabama" Twitter account had hundreds of followers and posted 1 stormwater/ environmental message during FY 2023. 1 Region had a Facebook account with thousands of followers in FY 2023. The "Drive Safe Alabama" Facebook account had thousands of followers and posted 2 stormwater/ environmental messages during FY 2023.	See App. C for "ALDOT Miscellaneous Community Outreach Activities: Fiscal Year 2023" for Twitter and Facebook activity summaries. See SWMPP (App. C) for a sample of typical ALDOT stormwater/environmental Twitter messages.
II.B.2.b.1; II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.2; II.B.2.d	Publish SWMPP & MS4 annual reports online	State Design Engineer; Computer Services Bureau Chief	Publish SWMPP and annual reports on the ALDOT Web site.	Versions of SWMPP when in effect and previous annual report (for FY 2022) published on the ALDOT Web site during FY 2023.	Web site location of SWMPP and annual report as of the end of FY 2023: https://www.dot.state.al.us/programs/ms4.html
II.B.2.b.1; II.B.2.c.2	Mechanism to engage public in the development of SWMPP	State Design Engineer; Computer Services Bureau Chief	Encourage citizens to express concerns about ALDOT's SWMP through the Environmental Concern Submission Form (accessible through the ALDOT Web site).	Environmental Concern Submission Form in use to receive citizen concerns; citizen use continued to increase during FY 2023. Encouragement to express SWMP concerns provided on ALDOT Web site.	Web address of form as of the end of FY 2023: https://www.dot.state.al.us/programs/EnvironmentalConcernForm.html
II.B.2.b.2	Identification of potential pollutants to be targeted by PEPI program	Media & Community Relations Bureau Chief; State Design Engineer; State Construction Engineer; State Maintenance Engineer; Materials & Tests Engineer; Region Engineers	Identify potential pollutants.	No change in potential pollutants (litter, sediment, herbicide, and chemicals & waste materials) identified.	See SWMPP (s. 3.2) for discussion regarding pollutant identification.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Coordination with anti-litter organizations to support litter awareness campaigns & litter pickup activities	State Maintenance Engineer	Maintain agreement with at least one organization throughout Permit term. Track funding of anti-litter organizations (for PSAs, brochures, litter pickup logistics, etc.). Review activities conducted by anti-litter organization(s) supported. Track participation metrics (i.e., applications, participant totals, miles adopted) while an ALDOT-Alabama PALS agreement is in effect.	Agreements with Alabama PALS and Keep Alabama Beautiful maintained during FY 2023. \$295,000 contributed to PALS during FY 2023. \$249,858 contributed to Keep Alabama Beautiful during FY 2023. Activity information sent by PALS and KALB for FY 2023 reviewed. Activities conducted by PALS and KALB were in line with contract expectations. When ALDOT District personnel noted a litter issue in a particular area, ALDOT followed up with PALS and KALB to determine if litter control activities are being performed in that area. During FY 2023, ALDOT processed 9 applications made by parties to participate in the PALS Adopt-A-Mile program. At the end of FY 2023, 893 parties were participating in Adopt-A-Mile, and 894.53 miles had been adopted.	See SWMPP (App. C) for PALS and Keep Alabama Beautiful agreements. See App. C for details of PALS and Keep Alabama Beautiful FY 2023 activities and listings of route segments adopted through the PALS Adopt-A-Mile program.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.3; II.B.2.c.4	Facilitation of an ALDOT anti-litter public awareness campaign	Media & Community Relations Bureau Chief	Continue implementation of the ALDOT public awareness campaign centered around anti-litter PSA. Track TV and radio ads with campaign content produced, social media posts related to campaign, and press releases related to campaign.	PSA strategy continued into FY 2023. Anti-litter PSA broadcasted by 103 radio stations and 17 TV stations throughout Alabama during FY 2023. 2 messages with PSA-related content posted on "Drive Safe Alabama" Facebook account.	See App. C for PSA coverage and demographic reach information.
II.B.2.b.3; II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage with anti-litter messaging for motorists	State Maintenance Engineer	Maintain sign designs and guidelines for sign placement. Track total anti-litter signs deployed in each ALDOT Area.	Sign designs and placement guidelines maintained. 755 anti-litter signs active during FY 2023. Signs distributed among all 10 ALDOT Areas.	See App. C for "ALDOT Active Anti-Litter Signage: Fiscal Year 2023."
II.B.2.b.3; II.B.2.b.4.a.iii; II.B.2.c.2; II.B.2.c.3	Mechanism for citizen reporting of stormwater management-related concerns	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track reports received from the Environmental Concern Submission Form.	Environmental Concern Submission Form maintained. 102 issues reported via Environmental Concern Submission Form during FY 2023. 1 additional issue reported using environmental contact means found on the ALDOT Web site. Citizen reporting continued to increase during FY 2023. Concerns submitted addressed appropriately.	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2023."
II.B.2.b.4.a.i; II.B.2.b.4.a.ii; II.B.2.b.4.a.iv; II.B.2.c.4	ALDOT signage notifying motorists of watershed boundaries	State Maintenance Engineer	Maintain watershed boundary sign designs and guidelines for sign placement. (Deployment depends on availability of ADEM funding.) Track signs deployed.	Deployment of signs completed prior to FY 2023. Upon completion of deployment, 34 signs in total had been posted at the boundaries of 10 watersheds.	
II.B.2.b.4.a.iv	Support of environmental restoration activities	State Design Engineer	Track support (funding, logistics, insight, etc.) of environmental restoration activities.	No support given so far during the Permit term.	
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Construction stormwater awareness program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 30 employees underwent initial QCI certification in FY 2023. 4 sessions of QCI recertification training were facilitated during FY 2023; these sessions had 357 ALDOT and 151 non-ALDOT attendees in total.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2023" and "ALDOT QCI Recertification Training: Fiscal Year 2023."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.2.b.4.b; II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	11 sessions of vegetation management training (with 272 ALDOT and 83 non-ALDOT participants in all) facilitated during FY 2023. 9 sessions of the "Review for Commercial Applicator Examination" course (with 47 employee participants in all) held during FY 2023. 8 newsletters distributed during FY 2023.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2023," for "ALDOT Vegetation Management Training Course: Fiscal Year 2023," and for session agendas for CYs 2022 and 2023. See SWMPP (App. C) for example newsletter.
II.B.2.b.4.c; II.B.2.c.3; II.B.2.c.4	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2023, 15 sessions of SPCC training, 15 sessions of universal waste training, 15 sessions of GHS training, 7 sessions of hazardous materials training for Area coordinators, and 2 sessions of wastewater management-related training were facilitated. In all, 259 employees participated in SPCC training, 259 employees participated in universal waste training, 259 employees participated in GHS training, 11 employees participated in the hazardous materials training for Area coordinators, and 2 employees participated in the wastewater management-related training.	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2023."
II.B.2.c.3	Support & funding of academic research projects	Research & Development Engineer	Track particular projects actively supported by ALDOT and amounts of funding provided for those projects.	8 projects actively supported during FY 2023.	See App. C for "ALDOT Stormwater Management Research: Fiscal Year 2023."
II.B.2.c.3; II.B.2.c.4; II.F.1.b	Efforts to coordinate or collaborate with other MS4s	State Design Engineer; State Maintenance Engineer; Region Engineers	Track ALDOT coordination or collaboration with other MS4s.	During FY 2023, ALDOT participated in multiple activities intended to promote coordination or collaboration between ALDOT and other MS4s.	See App. C for "ALDOT MS4 Coordination Activities: Fiscal Year 2023."
II.B.2.c.4	Participation in professional educational events (e.g., conferences, seminars, workshops) in which employees participate	Training Bureau Chief	Track events with ALDOT participation.	ALDOT participated in at least 19 events during FY 2023.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2023."
II.B.2.c.4	Youth education activities with ALDOT participation	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; Region Engineers	Track activities with ALDOT participation.	During FY 2023, ALDOT personnel conducted 1 youth education activity.	See App. C for "ALDOT Youth Education Activities: Fiscal Year 2023."
II.B.2.c.4	Internal MS4 awareness mechanisms for employees	State Design Engineer; State Construction Engineer; State Maintenance Engineer	Track mechanisms employed.	During FY 2023, ALDOT conducted 1 activity to promote internal MS4 awareness.	See App. C for "ALDOT Internal MS4 Awareness Activities: Fiscal Year 2023."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.2.c.4	Significant participation in environmental-related efforts of applicable professional organizations	Media & Community Relations Bureau Chief; State Design Engineer; State Maintenance Engineer; State Construction Engineer; Materials & Tests Engineer; Training Bureau Chief; Region Engineers	Track efforts of professional organizations in which ALDOT participated.	ALDOT participated with multiple professional organizations in various ways during FY 2023.	See App. C for "ALDOT Participation with Professional Organizations: Fiscal Year 2023."
II.B.2.c.4	Participation in community outreach meetings	Media & Community Relations Bureau Chief	Track meetings with ALDOT participation.	ALDOT participated in 3 community outreach group meetings during FY 2023.	See App. C for "ALDOT Community Outreach Group Meetings: Fiscal Year 2023."
Illicit Discharge Detection & Elimination					
II.B.3.a.1; II.B.3.b.4	Updating of MS4 major outfall inventory & maps	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Update major outfall inventory after ad hoc outfall identification efforts. Update existing maps annually with major outfalls added to inventory.	Inventory review conducted for Anniston, Florence, and Huntsville MS4 areas as well as for Anniston District Office, Tuscumbia Area Office / Tuscumbia District Office, and Huntsville District Office during FY 2023. No major outfalls added to inventory. (However, it was discovered during FY 2023 that Anniston District Office outfalls were inventoried during the previous MS4 permit term but were not reported in SWMPP or annual reports.)	See App. D for "ALDOT Major Outfall Inventory & Screening Summary."
II.B.3.a.2	Implement non-stormwater discharge policies & procedures	State Maintenance Engineer	Implement policies and procedures.	Implementation of established policies and procedures ongoing.	
II.B.3.a.3; II.B.3.b.3	IDDE training for ALDOT personnel	State Maintenance Engineer	Develop training program. Conduct training once per calendar year.	IDDE inventory and screening activities delegated to consultant to date; consultant handles training internally. ALDOT field personnel received general IDDE orientation by attending the annual Maintenance Management Meeting and through other training offerings.	See SWMPP (s. 4.7) for discussion regarding IDDE training.
II.B.3.a.4; II.B.3.b.2	Dry-weather screening of major outfalls	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Screen each major outfall at least once during Permit term. If an outfall is located within a "priority area," screening will be conducted at a frequency appropriate for specific conditions. If a flow is observed during outfall screening, source tracing/identification and reporting procedures will be implemented. Track major outfalls screened during each fiscal year.	All accessible major outfalls screened in the Anniston, Florence, and Huntsville MS4 areas as well as at the Anniston District Office, Tuscumbia Area Office / Tuscumbia District Office, and Huntsville District Office during FY 2023. 1 possible illicit discharge issue observed and addressed in accordance with SWMPP IDDE procedures.	See App. D for "ALDOT Major Outfall Inventory & Screening Summary."
II.B.3.a.5	Source tracing procedure for possible illicit discharges	State Maintenance Engineer	Implement source tracing procedure.	Implementation of established tracing procedure ongoing.	See SWMPP (s. 4.4) for discussion regarding tracing procedure.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.3.a.6	Indicator monitoring strategy for evaluating possible illicit discharges	State Maintenance Engineer	Implement indicator monitoring strategy.	Implementation of established monitoring strategy ongoing.	See SWMPP (s. 4.4) for discussion regarding monitoring strategy.
II.B.3.a.7	Procedures to notify ADEM of possible illicit discharges originating from sources adjacent to the ALDOT MS4	State Maintenance Engineer	Implement notification procedures.	Implementation of established notification procedures ongoing.	See SWMPP (s. 4.6) for discussion regarding reporting procedures.
II.B.3.a.8	Mechanism for citizen reporting of possible illicit discharges	State Design Engineer; Computer Services Bureau Chief	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns.	Environmental Concern Submission Form in use to receive citizen concerns.	
II.B.3.b.5	Recordkeeping of possible illicit discharges reported / discovered	State Design Engineer	Track reports processed and follow-up actions taken.	Other than possible illicit discharge found during outfall screening, 1 report of possible illicit discharge received by ALDOT personnel. Possible illicit discharge investigated, addressed, and tracked in accordance with SWMPP.	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2023."
Construction Site Stormwater Runoff Control					
II.B.4.a.1; II.B.4.b.1	Procedures to require Construction General Permit coverage for ALDOT construction sites	State Construction Engineer; State Design Engineer	Implement procedures.	Procedures incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented.	See SWMPP (ss. 5.3 & 5.4) for discussion regarding procedures.
II.B.4.a.2; II.B.4.b.2	Contract requirements for erosion & sediment control on ALDOT construction sites	State Construction Engineer	Implement requirements.	Requirements continue to be implemented in contracts with ALDOT roadway construction contractors.	See SWMPP (s. 5.4) for discussion regarding requirements.
II.B.4.a.3	Internal policies for proper permit coverage of ALDOT-contracted construction activities	State Construction Engineer; State Design Engineer; State Maintenance Engineer	Implement policies.	Policies for ALDOT-contracted roadway construction activities incorporated into Guide for Developing Construction Plans (State Design Engineer), ALDOT Construction Best Management Practices Plan template (State Construction Engineer), Construction Manual (State Construction Engineer), and Standard Specifications for Highway Construction (State Construction Engineer) continue to be implemented. Policies for third-party construction on ALDOT property developed and incorporated implicitly into Forms MB-05 and MB-07 (State Maintenance Engineer) continue to be implemented.	See SWMPP (ss. 5.3, 5.4, & 5.7) for discussion regarding policies. See SWMPP (App. D) for Forms MB-05 and MB-07.
II.B.4.a.4; II.B.4.d.1	Mechanism for citizen reporting of construction site discharge concerns	State Design Engineer; Computer Services Bureau Chief; State Construction Engineer	Maintain the Environmental Concern Submission Form (accessible through the ALDOT Web site) to receive citizen concerns. Track concerns received from the Environmental Concern Submission Form and follow-up actions.	2 concerns related to construction site stormwater runoff control submitted during FY 2023. (1 concern not related to ALDOT construction activity; 1 concern addressed in accordance with SWMPP.)	See App. C for "ALDOT Environmental Concerns Log: Fiscal Year 2023."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.4.a.5; II.B.4.b.3	Inspection of ALDOT construction sites at appropriate frequencies to evaluate BMP use & maintenance	State Construction Engineer	Implement inspection procedures.	Implementation of procedures detailed in ALDOT Construction Manual and Standard Specifications for Highway Construction ongoing.	See SWMPP (s. 5.4) for details regarding the inspection procedures.
II.B.4.a.6; II.B.4.b.4; II.B.4.d.2	Construction stormwater BMP training program	State Construction Engineer; Training Bureau Chief	Implement QCI training program. Track employees participating in QCI initial certification course. Track sessions of QCI recertification course facilitated and participants in each session.	Program implementation ongoing. 30 employees underwent initial QCI certification in FY 2023. 4 sessions of QCI recertification training were facilitated during FY 2023; these sessions had 357 ALDOT and 151 non-ALDOT attendees in total.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2023" and "ALDOT QCI Recertification Training: Fiscal Year 2023."
II.B.4.a.7; II.B.4.b.5	Referral of unauthorized construction activity to ADEM	State Maintenance Engineer	Implement referral policy.	Implementation of established referral policy ongoing. No referrals made during FY 2023.	See SWMPP (s. 5.7) for discussion regarding policy.
II.B.4.a.8	Policy for site plan reviews & erosion/sediment controls to satisfy Alabama Handbook technical standards	State Construction Engineer	Implement policy.	Policy for ALDOT roadway construction activities incorporated into ALDOT Construction Best Management Practices Plan template continues to be implemented.	See SWMPP (s. 5.3) for discussion regarding policy.
II.B.4.c.2	List of construction sites in MS4-regulated areas	State Construction Engineer	Maintain list with updates as needed annually.	List updated for FY 2023. (26 permitted projects in MS4 areas during FY 2023.)	See App. E for "ALDOT MS4 Active Construction Projects (Transportation Facilities): Fiscal Year 2023."
Post-Construction Stormwater Management					
II.B.5.a.1; II.B.5.b.1	Post-construction program with specific stormwater management goals	State Design Engineer	Implement program.	Implementation of program, including "GFO 3-73: Post-Development Stormwater Management" and design guidance components, ongoing.	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management," "Determining Runoff for Small Storm Events," and "Post-Development Stormwater Risk Assessment."
II.B.5.a.2; II.B.5.a.4; II.B.5.b.1; II.B.5.b.3	Implementation of BMPs (including LID/GI practices) to mimic site predevelopment hydrology to design standard on ALDOT-constructed sites	State Design Engineer	Implement post-construction BMPs on ALDOT-constructed sites.	Implementation of BMPs ongoing. (Projects let for construction bidding on or after 04/01/2015 must be carried out in accordance with GFO 3-73.)	See SWMPP (c. 6) for discussion regarding post-construction program. See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.3; II.B.5.b.2	LID/GI SOP for ALDOT-constructed facilities	State Design Engineer	Implement SOP.	SOP (GFO 3-73) implementation ongoing.	See SWMPP (App. F) for "GFO 3-73: Post-Development Stormwater Management."
II.B.5.a.5	Implementation of management policies (inspection & maintenance) for post-construction BMPs at new ALDOT-constructed facilities	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP inspection and maintenance policies.	Policies implemented.	See SWMPP (ss. 6.5-6.6) for discussion regarding inspection and maintenance policies. See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form."
II.B.5.a.6; II.B.5.b.4; II.B.5.c.2; II.B.5.d.1	Inspection of structural BMPs	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop a checklist for structural BMP inspection. Inspect each structural BMP after fully operational at least once every 2 years. Track inspections of structural BMPs performed.	No significant revision of electronic inspection form during FY 2023. 2 structural BMP systems inspected within 2 years of becoming fully operational.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inspection Form." See App. F for "Post-Construction Stormwater Management BMP Inspection Summary: Fiscal Year 2023."
II.B.5.b.5; II.B.5.c.3	Post-construction BMP operation & maintenance	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement post-construction BMP O&M procedures. Track maintenance work reports completed.	Maintenance procedures implemented. Maintenance on 1 structural BMP system performed in response to inspection outcomes.	See App. F for "Post-Construction Stormwater Management BMP Inspection Summary: Fiscal Year 2023."

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.5.c.1	Inventory of post-construction BMPs (let for bidding after April 2015)	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Develop inventory form. Update inventory with fully operational BMPs.	No significant revision of electronic inventory form during FY 2023. Inventory updated with fully operational BMPs, as needed, throughout FY 2023.	See SWMPP (App. F) for "ALDOT Post-Construction BMP Inventory Form."
Pollution Prevention / Good Housekeeping					
II.B.6.a.1; II.B.6.b.1; II.B.6.c.1	Inventory of support facilities with pollution potential	Materials & Tests Engineer	Update inventory as needed annually.	No modification of inventory during FY 2023.	See SWMPP (App. G) for "ALDOT MS4 Support Facilities."
II.B.6.a.2; II.B.6.b.2; II.B.6.c.2; II.B.6.d.1	Support facility PPGH inspection program	Materials & Tests Engineer	Implement program to inspect support facilities on inventory annually that include checklists and correction procedures. Update program as necessary. Report inspection outcomes.	No significant updates to program during FY 2023. 18 facility inspections during FY 2023. Inspection findings addressed in accordance with SPCC Plans.	See SWMPP (s. 7.2) for discussion regarding program. See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See App. G for "ALDOT MS4 Support Facility Annual Inspections: Fiscal Year 2023."
II.B.6.a.3; II.B.6.b.3; II.B.6.c.3	Good housekeeping SOPs for support facilities	Materials & Tests Engineer	Implement SOPs. Update SOPs as necessary.	Implementation of established SOPs ongoing. No significant updates to SOPs during FY 2023.	See SWMPP (App. G) for formalized SOPs (i.e., Support Facility Procedures Manual). See SWMPP (s. 7.2.2) for discussion regarding SOPs.
II.B.6.a.4; II.B.6.a.7.d; II.B.6.b.4; II.B.6.d.2	Support facility good housekeeping training program	Materials & Tests Engineer; Region Engineers	Implement good housekeeping training program for support facility employees. Track good housekeeping training sessions facilitated and employees participating in each session.	During FY 2023, 15 sessions of SPCC training, 15 sessions of universal waste training, 15 sessions of GHS training, 7 sessions of hazardous materials training for Area coordinators, and 2 sessions of wastewater management-related training were facilitated. In all, 259 employees participated in SPCC training, 259 employees participated in universal waste training, 259 employees participated in GHS training, 11 employees participated in the hazardous materials training for Area coordinators, and 2 employees participated in the wastewater management-related training.	See App. C for "ALDOT MS4 Support Facility Employee Good Housekeeping Training: Fiscal Year 2023."
II.B.6.a.5; II.B.6.a.6; II.B.6.a.8; II.B.6.b.5; II.B.6.c.4	Trash management program	State Maintenance Engineer; Equipment Bureau Chief; Region Engineers	Implement program. Deploy trash receptacles at rest areas for motorists and at ALDOT support facilities for employees. Track maintenance work for full-width litter pickup (shoulder miles cleaned) and spot litter pickup (work reports completed) on roadways. (Additional roadway litter pickup done under contract or interjurisdictional agreement and tracked through other mechanisms.)	Trash receptacles continue to be deployed at rest areas and ALDOT support facilities. During FY 2023, 2,210.19 shoulder miles cleaned and 3,394 spot litter pickup work reports completed.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2023." See SWMPP (s. 7.3.2) for discussion regarding how roadway litter pickup work activities are performed.
II.B.6.a.7; II.B.6.b.6; II.B.6.c.5	Support facility spill prevention & response program	Materials & Tests Engineer; Region Engineers	Implement program. Update program as necessary.	Implementation of general ALDOT spill prevention and response program ongoing; no significant modifications during FY 2023. No significant revision of SPCC Plans for individual support facilities during FY 2023.	See SWMPP (s. 7.3) for overview of assessment procedure.

ALDOT MS4 Stormwater Management Activities:
Fiscal Year 2023 Actions & Statuses Summary

Permit Requirement(s)	Activity	Associated ALDOT Personnel	Permit Term Goal	Actions / Status During FY 2023	Supplemental Information
II.B.6.a.8	Miscellaneous transportation facility maintenance with measures for potential pollution reduction	State Maintenance Engineer	Conduct annual condition assessments of roadway features with respect to stormwater management performance-related attributes. Track maintenance work using pollution reduction methods for snow and ice control (work reports completed), cleaning minor drainage structures (structures inspected/cleaned), repairing minor drainage structures (work reports completed), and erosion control (work reports completed). (Herbicide treatment, spot herbicide treatment, and herbicide treatment surveillance addressed in work associated with Pesticides General Permit.)	Condition assessments continue to be conducted according to established procedure. Maintenance work activities conducted throughout FY 2023; work amounts tracked in accordance with SWMPP.	See App. G for "ALDOT MS4 Transportation Facility Maintenance: Fiscal Year 2023." See SWMPP (s. 7.3) for discussion regarding how activities are performed.
II.B.6.d.2	Vegetation management training program	State Maintenance Engineer; Training Bureau Chief	Implement vegetation management training program. Track vegetation management training sessions facilitated and the participants in each session. Track "Review for Commercial Applicator Examination" course sessions facilitated and employees participating in each session. Track vegetation management training newsletters distributed.	11 sessions of vegetation management training (with 272 ALDOT and 83 non-ALDOT participants in all) facilitated during FY 2023. 9 sessions of the "Review for Commercial Applicator Examination" course (with 47 employee participants in all) held during FY 2023. 8 newsletters distributed during FY 2023.	See App. C for "ALDOT MS4-Applicable Employee Education: Fiscal Year 2023," for "ALDOT Vegetation Management Training Course: Fiscal Year 2023," and for session agendas for CYs 2022 and 2023. See SWMPP (App. C) for example newsletter.
MS4 Monitoring					
II.D.2; II.D.3; II.D.4; III.A.1; III.A.6	Determination of the ALDOT MS4's potential as a practical source of POCs for 303(d) waters, TMDL waters, & receiving waters generally	State Design Engineer; State Maintenance Engineer	Assess ALDOT potential impacts with respect to various POCs on 303(d) waters, TMDL waters, and receiving waters generally in MS4-regulated areas. Reassess ALDOT impact as needed considering collected monitoring data. Forego monitoring with respect to POCs of which the ALDOT MS4 is not a practical source.	Assessment outcome of ALDOT-relevant POCs being siltation and turbidity continued to stand during FY 2023.	See SWMPP (s. 8.3) for discussion regarding assessment.
II.D.3; II.D.4; III.A.1	Determination of the effectiveness of ALDOT stormwater management practices in controlling POC discharges to meet applicable 303(d) & TMDL requirements	State Design Engineer; State Maintenance Engineer	Demonstrate that stormwater management practices employed are controlling any POC discharges to ALDOT-applicable 303(d) and TMDL waters sufficiently; use monitoring data in the demonstration for TMDLs. Adjust practices as needed.	Overall effectiveness of practices supported by monitoring observation data collected during FY 2023.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2023."
III.A.1; III.B	Assessments of the overall effectiveness of stormwater management practices with respect to stormwater management goals	State Design Engineer; State Maintenance Engineer	Conduct annual assessments of practices based on monitoring data collected. Adjust practices as needed in response to assessment.	Overall effectiveness of practices supported by monitoring observation data collected during FY 2023.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2023."
III.A.2; III.A.4; IV.B	Development & implementation of monitoring strategy	State Design Engineer; State Maintenance Engineer	Develop monitoring strategy. Update strategy as needed annually. Track monitoring activities.	Field implementation of monitoring strategy continued during FY 2023. Wet-weather and dry-weather observations conducted at all 6 monitoring locations in accordance with monitoring strategy.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2023." See SWMPP (ss. 8.4-8.5) for discussion regarding monitoring strategy.
III.A.3	Analysis of monitoring data	State Maintenance Engineer	Analyze monitoring data collected.	Data from all observations conducted during FY 2023 analyzed.	See App. H for "MS4 Monitoring Activity Summary: Fiscal Year 2023."
III.A.5	Coordination of monitoring with other MS4s	State Maintenance Engineer	Coordinate with other MS4s as appropriate.	No explicit coordination with other MS4s needed for monitoring so far in the Permit term.

FOR IMMEDIATE RELEASE

April 11, 2023

ALDOT launches Spring Clean Day, combats litter issue

TUSCALOOSA – The Alabama Department of Transportation is pleased to announce its inaugural Spring Clean Day, taking place Friday, April 14.

The event is part of ALDOT's ongoing efforts to promote cleaner and safer roadways. All eight districts within the West Central Region will spend the day picking up litter on various routes. This is in addition to the full-time litter crew stationed within Tuscaloosa County that gathered approximately 50 tons of litter from March 2022 through March 2023.

ALDOT spent \$7.34 million on litter cleanup throughout the state in fiscal year 2022, money which could be better used to improve safety and maintain roads and bridges.

"We urge citizens to consider the impact of their actions on the environment and to encourage others to do the same," said Wallace McAdory III, West Central Region Engineer. "Litter can clog storm drains, pollute waterways and create unsafe driving conditions. The economic costs of cleaning up litter are substantial and can impact tourism, property values and community pride."

ALDOT encourages all Alabamians to participate in this important initiative by organizing litter cleanup activities in their local communities. Whether it's cleaning up a park or school yard, or simply properly disposing of litter, everyone can play a part.

According to the U.S. National Park Service, a tin can takes 50 years to decompose, while a plastic bottle takes 450 years to break down.

There are many ways for residents to keep Alabama beautiful:

- Dispose of trash properly.
- Never throw anything out of the vehicle window.
- Carry a small trash bag in the vehicle.
- Properly secure loads when hauling loose items.

ALDOT partners with Keep Alabama Beautiful, People Against a Littered State (PALS) and the Alabama Law Enforcement Agency to help keep Alabama litter-free.

ALDOT confronts roadside litter with inaugural Spring Clean Day

ALDOT working to clean litter from highways in west Alabama

By Bryan Henry

Published: Apr. 14, 2023 at 5:00 PM CDT

TUSCALOOSA, Ala. (WBRC) - If you traveled on any state highways throughout west Alabama Friday, you may have noticed a slew of ALDOT personnel in yellow. They were on the highways picking up other people's litter, all part of an inaugural campaign to sweep major parts of the state clean.

One crew member estimated by the time he finished on Friday, his team will have filled around 400 bags of litter.

For much of the day along Highway 69 South, Lewis Jones went about his business, picking up litter one piece at a time and didn't mind doing it.

"The way I look at it, it provides job security that we come out and do this," said Jones.

ADVERTISEMENT

Still, Jones says there's no excuse to litter anywhere, any time. After all, the trash puts Jones' life in potential danger on a busy highway.

"You really have to be careful out here. It's dangerous and people are not respecting us," said Jones.

The litter is the very thing ALDOT wants to tackle. The inaugural Spring Clean Day started Friday.

First, in west Alabama, a 50-person crew on Highway 69 alone.

ADVERTISEMENT

"Litter is a real problem for us, not just in terms of its ugliness appearance, but the fact sometimes it can cause safety issues when it clogs up our drainage features," said Lyndi Blackburn, Assistant Engineer for ALDOT.

Blackburn says it's anyone's guess why people litter, but we do know this - ALDOT says it spends more than \$7 million a year statewide just picking up the trash.

"That money could have been used on safety projects," Blackburn said.

One agency leader believes education is the key.

ADVERTISEMENT

"I think we've got to educate our people, need to start early with educatin' our children that littering is not the appropriate thing to do," said ALDOT engineer Wallace McAdory.

Back to Lewis Jones - he knows full well in a few weeks the litter could return, but for now, he wants to leave his corner of the world a little cleaner.

"What I think about is 'wow.' If they only knew what they were doing, if they come out and help us pick up, they wouldn't be throwing outdoors."

Here's another way to look at it: The National Park Service says it takes 50 years for a tin can to decompose and 450 years for a single plastic bottle to break down.

**Specifics as Related to the Contract October 1, 2021-September 30, 2023
First Quarter Reporting Period 10/01/2022 – 12/30/2022**

The contract for 2021-2023 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in June 2021 and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific database, which will be kept and updated by Alabama PALS. (See Database Below). This database upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The database is now updated (as of December 31, 20__) with the ability to view exact numbers and locations of State, Federal, and County adopted miles. (Total miles and groups included in report).

PALS continues to receive a very high level of responses and new applications (**see attachments**) for Adopt-a-Mile and Adopt-a-Stream programs during the 3rd Quarter of 2021-2022. A new Compliance Reporting Form has been included in the PALS / Adopt-a-Mile Newsletter, where groups, individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis. PALS continues to work with ALDOT to identify miles that are not in the new database system, did not transfer from the old database, or were not entered into the old system originally.

2022 Alabama PALS Statewide Governor's Awards Program

The 2022 Governor's Awards Program was held on November 16, 2022. Over 250 leaders, volunteers, city and county representatives attended the 2022 Alabama PALS Governor's Awards Program. 31 Awards were presented.

The 2023 Governor's Awards are scheduled for November 8, 2023.

New Adoptees and Miles Adopted 10/01/22-12/30/22 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly report.

Over 50 new applicants have received signs during the period January 1, 2022-June 30, 2022, the fastest growing period to date.

Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt-a-Mile Signs to be Replaced

PALS continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue to follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM database, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Correspondence

PALS remains in touch with ALDOT District Offices regarding the new protocol for the Adopt-a-Mile program. Margaret feels like all districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District Offices regarding applications, paperwork and erecting of AAM signs. District Offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to read. PALS will contact the respective group.

Proposal for Updating Adopt-a-Mile Procedures

PALS met with Stacey Swindall in late September 2022 to discuss the need to have all AAM documents and applications accepted with signatures for E-sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-Signature, therefore eliminating documents having to be mailed and eliminating paperwork for ALDOT Engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web-based database for the Adopt-a-Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacy Swindall is working with PALS to move both of these proposals forward.

PALS met with Stacey Swindall on July 7, 2022, to discuss new wordage on all new AAM applications, as well as moving ahead with proposed DocuSign use on AAM applications in the future. Upon final approval, PALS will make all necessary changes to have the forms and applications emailed to ALDOT engineers using DocuSign to aid in the elimination of paperwork, as well as speed up the application process for volunteer groups.

The discussion also included the use of ALDOT spec safety vests for volunteer use during cleanups held on US and State Highways. PALS will order the ALDOT spec vests moving forward.

During the meeting, Todd Jones with ALDOT updated the attendees of the positive attributes of going to a web based database for the Adopt-a-Mile program. The project will move forward with input from PALS and ALDOT, and the new database should be completed by early summer of 2023.

Todd Jones / ALDOT gave an update of web-based database for Alabama PALS through and email to Stacey Swindall and PALS staff in August 2022 stating that project had begun and target date would be spring/summer 2023.

Christy Waddell, State Adopt-a-Mile Coordinator, has implemented several new items for maintaining compliance, updates, and correspondence with current and future Adopt-a-Mile participating groups. One is a brochure (enclosed) that will be sent to each adoptee upon their 2-year anniversary with the program. This will indicate if the group still intends to actively participate or be removed from the active roll. Christy is also working to identify additional miles from past years that are not actively participating or are in need of new and updated signage.

The 2022 “Don’t Drop it on Alabama” Statewide Cleanup

The 2022 Spring Cleanup ran April 2022, with some counties extending their respective cleanups in May, June and July 2022. PALS will continue to work with the Association of County Commissions to continue cleanups in 67 counties.

Over 610 tons have reported as picked up during the 2022 cleanup effort to date, with several counties completing cleanup efforts in July. Reports are still being received and PALS will work with each city, county or volunteer group to give them additional time to participate if needed.

The 2023 “Don’t Drop it on Alabama” Spring Cleanup is scheduled for April 2023.

Materials and supplies for the 2023 Spring Cleanup will be distributed in March 2023.

In 2022, the Alabama Community College Systems partnered with local communities to extend the cleanup of all ACCS campuses and respective communities. This partnership will continue in 2023.

Materials and Supplies Furnished for 2023 Spring Cleanup

150,000 Large Trash Bags 2/ PALS Corporate Sponsors’ and Partners’ Logos
2023 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt-a-Mile Brochures
Adopt-a-Stream Brochures
Alabama Clean Campus Brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS / ALDOT Public Service Announcement (2022 ABA Totals Emailed to Stacey Swindall / ALDOT) [2022 ABA totals provided on Jump Drive with this Report](#)

The 2022 PALS / ALDOT PSA ran from July 15th-October 15th, 2022. The 3 month contact with the Alabama Broadcaster’s Association is for the months of July-August 2022.

The 2023 PALS/ALDOT PSA will begin airtime in June 2023.

As in past years, air time and scheduling reports from the ABA will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti-littering PSA on the PALS webpage and Facebook page.

Database for Adopt-a-Mile Program (updated copy on jump drive included in this report)

The Adopt-a-Mile database is now current and working effectively. PALS is currently able to view total, exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the database is working correctly and enabling PALS to best use the database for the benefit of the AAM program.

PALS continues to provide all database updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt-a-Mile database as updated information is collected. In addition to daily attention to the database, a file system has been created and maintained to assist in the creation of an accurate account of all County, State and Federal adopted miles in the future.

2023 Adopt-a-Mile Inspections

The internship program has proven highly effective and will continue each year as specified in the PALS / ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS / AAM database, reflecting and changes, additions, or deletions from current database.

The AAM inspections focused on the North Zone for 2022 and begin in March 2022. The inspections were completed in late June 2022 and all updated data will be entered into the database. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

The South Zone will be the focus for the 2023 Inspection program.

The 2023 Adopt A Mile inspections will begin in Spring/Summer of 2023. PALS is working with the Alabama Community College Systems to coordinate an Intern Program that would benefit a top scholar from the Alabama Community College System.

Materials to be Furnished for 2023 AAM Inspection Intern Program

ALDOT provided maps for each county in the zone listing all highways
List of all adopted miles in each zone
List and contacts of ALDOT offices in zone
HI VIZ Vehicle Safety Lights
HI VIZ Safety vests
PALS / ALDOT Inspection program magnetic vehicle signs
Vehicle furnished by Paul Claborn (Albertville, AL)
Prepaid Gas Cards for Intern

Inspections on South Zone will begin in Spring 2023.

PALS / Adopt-a-Mile Newsletter

The Winter PALS/Adopt-a-Mile Newsletter will be completed and mailed statewide in early January 2023. PALS has the statewide newsletter available in e-letter form online at www.alpals.org.

The PALS/AAM Newsletter is mailed to all Adopt-a-Mile, Adopt-a-Stream, Spring Cleanup participants, Clean Campus Schools, Coastal Cleanup Captains, PALS Members, and PALS County Chairmen, etc.

The total mailing is approximately 5,600. Applications for all “adopta” programs are included in each newsletter and are processed in the PALS office for adoption. Adopt-a-Mile reporting forms are also included in the newsletter.

The Summer Newsletter was mailed statewide in early July 2022.

The Alabama Coastal Cleanup (Data and Promo Items enclosed)

The 2022 Alabama Coastal Cleanup was held on September 17, 2022 and marked Alabama's 35th year Anniversary of participating in the International Coastal Cleanup.

Over 3500 volunteers gathered at 30 zones to participate in the annual coastal cleanup, which is held in conjunction with the International Coastal Cleanup.

Alabama PALS provided all cleanup supplies and materials for all 31 Coastal Zones.

12,000 Large Heavy Duty Trash Bags

Recycling Bags

Tee shirts for Volunteers, Zone Captains, Staff, etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 zones

Data Cards

Bottled Water

Zone Captain Packets

Safety Masks for all Volunteers

Safety Tip Sheets

Safety Vest Availability

Safety Vests meeting new standards will be ordered by Alabama PALS for state and federal Adopt-a-Mile participants in January 2023.

Alabama Pals Adopt-A-Miles
October, November, and December 2022

October Applications

Delta Chi Fraternity – Tuscaloosa County
K9MC Phenix City Chapter – Russell County
ALKNRP – Clarke County (Cannot be approved due to being a dirt road)
Punishers LEMC Mt Cheaha Chapter – Calhoun County
Travis Manion Foundation – Limestone County
Elijah Johnson Memorial – Lauderdale County
Darrick Woodard – Dallas County
R.R. Moton Alumni Educational Center Foundation, Inc. – Talladega County
Guntersville Middle FFA Chapter – Marshall County
Lucy Helland – Shelby County (AAS)

Signs Ordered in October

Cynthia Rogers, DVM – Lee County
Bridgeport Lions Club – Jackson County
Nucor Corporation – DeKalb County (replacement)
Walmart Transportation – Cullman County (replacement)
Recycle Center – Lamar County (replacement)
Bennett Lumber Company – Calhoun County (replacement)
Eta Alpha Pi Sorority, Inc. – Macon County

November Applications

Kiwanis of Andalusia Key Club – Covington County

Signs Ordered in November

Mutha Rucker H3 – Coffee County

Dale Strange – Marshall County

Edmundite Mission NPYP & Staff – Dallas County

AL Prince Hall Masons Council – Jefferson County

BCVSS Environmental Science Club – Baldwin County (AAS)

K9MC Phenix City Chapter – Russell County

December Applications

Wild Alabama – Lawrence County

Eta Nu Chapter of Kappa Alpha Psi Fraternity, Inc. – Mobile County

Signs Ordered in December

Delta Chi Fraternity – Tuscaloosa County

**Specifics as Related to the Contract October 1, 2021-September 30, 2023
Second Quarter Reporting Period 01/01/2023 – 03/31/2023**

The contract for 2021-2023 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in June 2021 and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific database, which will be kept and updated by Alabama PALS. (See Database Below). This database upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The database is now updated with the ability to view exact numbers and locations of State, Federal, and County adopted miles. (Total miles and groups included in report).

PALS continues to receive an extremely high level of responses and new applications (see attachments) for Adopt-a-Mile and Adopt-a-Stream programs during the Second Quarter of 2022-2023. A new Compliance Reporting Form has been included in the PALS / Adopt-a-Mile Newsletter, where groups, individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis

2023 Alabama PALS Statewide Governor's Awards Program

The 2022 Governor's Awards Program was held on November 16, 2022. Over 250 leaders, state agency heads, volunteers, city and county representatives attended the 2022 Alabama PALS Governor's Awards Program. 31 Awards were presented.

The 2024 Governor's Awards are scheduled for November 8, 2023.

New Adoptees and Miles Adopted 01/01/23-03/31/23 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly report.

The period October 1, 2022-March 31, 2023 is the fastest growing AAM period to date.

New ALDOT specified Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt-a-Mile Signs to be Replaced

PALS continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue to follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM database, Margaret will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs.

ALDOT District Correspondence

PALS remains in touch with ALDOT District Offices regarding the new protocol for the Adopt-a-Mile program. Margaret feels like all districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District Offices regarding applications, paperwork and erecting of AAM signs. District Offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to read. PALS will contact the respective group.

Proposal for Updating Adopt-a-Mile Procedures

PALS met with Stacey Swindall in late September 2022 to discuss the need to have all AAM documents and applications accepted with signatures for E-sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-Signature, therefore eliminating documents having to be mailed and eliminating paperwork for ALDOT Engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web-based database for the Adopt-a-Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacy Swindall is working with PALS to move both of these proposals forward.

PALS met with Stacey Swindall on July 7, 2022, to discuss new wordage on all new AAM applications, as well as moving ahead with proposed Docusign use on AAM applications in the future. Upon final approval, PALS will make all necessary changes to have the forms and applications emailed to ALDOT engineers using Docusign to aid in the elimination of paperwork, as well as speed up the application process for volunteer groups.

The discussion also included the use of ALDOT spec safety vests for volunteer use during cleanups held on US and State Highways. PALS will order the ALDOT spec vests moving forward.

During the meeting, Todd Jones with ALDOT updated the attendees of the positive attributes of going to a web based database for the Adopt-a-Mile program. The project will move forward with input from PALS and ALDOT, and the new database should be completed by early summer of 2023.

Todd Jones / ALDOT gave an update of web-based database for Alabama PALS through and email to Stacey Swindall and PALS staff in August 2022 stating that project had begun and target date would be spring/summer 2023.

Christy Waddell, State Adopt-a-Mile Coordinator, has implemented several new items for maintaining compliance, updates, and correspondence with current and future Adopt-a-Mile participating groups. One is a brochure (enclosed) that will be sent to each adoptee upon their 2-year anniversary with the program. This will indicate if the group still intends to actively participate or be removed from the active roll. Christy is also working to identify additional miles from past years that are not actively participating or are in need of new and updated signage.

The 2022 “Don’t Drop it on Alabama” Statewide Cleanup

The 2022 Spring Cleanup ran April 2022, with some counties extending their respective cleanups in May, June and July 2022. PALS will continue to work with the Association of County Commissions to continue cleanups in 67 counties.

Over 610 tons have reported as picked up during the 2022 cleanup effort to date, with several counties completing cleanup efforts in July. Reports are still being received and PALS will work with each city, county or volunteer group to give them additional time to participate if needed.

The 2023 “Don’t Drop it on Alabama” Spring Cleanup is scheduled for April 2023.

All materials and supplies have been distributed statewide for the 2023 Spring Cleanup

In 2022, the Alabama Community College Systems partnered with local communities to extend the cleanup of all ACCS campuses and respective communities. This partnership will continue in 2023.

PALS had to order additional bags for the 2023 statewide effort due to higher than normal demand for materials and supplies.

Materials and Supplies Furnished for 2023 Spring Cleanup

165,000 Large Trash Bags w/ PALS Corporate Sponsors’ and Partners’ Logos
2023 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt-a-Mile Brochures
Adopt-a-Stream Brochures
Alabama Clean Campus Brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS / ALDOT Public Service Announcement (2022 ABA Totals Emailed to Stacey Swindall / ALDOT)

The 2022 PALS / ALDOT PSA ran from July 15th-October 15th, 2022. The 3 month contact with the Alabama Broadcaster’s Association is for the months of July-August 2022.

The 2023 PALS/ALDOT PSA will begin airtime in May 2023.

As in past years, air time and scheduling reports from the ABA will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti-littering PSA on the PALS webpage and Facebook page.

Database for Adopt-a-Mile Program (updated copy on jump drive included in this report)

The Adopt-a-Mile database is now current and working effectively. PALS is currently able to view total, exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the database is working correctly and enabling PALS to best use the database for the benefit of the AAM program.

PALS continues to provide all database updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt-a-Mile database as updated information is collected. In addition to daily attention to the database, a file system has been created and maintained to assist in the creation of an accurate account of all County, State and Federal adopted miles in the future.

2023 Adopt-a-Mile Inspections

The internship program has proven highly effective and will continue each year as specified in the PALS / ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS / AAM database, reflecting and changes, additions, or deletions from current database.

The AAM inspections focused on the North Zone for 2022 and begin in March 2022. The inspections were completed in late June 2022 and all updated data will be entered into the database. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

The South Zone will be the focus for the 2023 Inspection program.

The 2023 Adopt A Mile inspections will begin in Spring/Summer of 2023. PALS is working with the Alabama Community College Systems to coordinate an Intern Program that would benefit a top scholar from the Alabama Community College System.

Materials to be Furnished for 2023 AAM Inspection Intern Program

ALDOT provided maps for each county in the zone listing all highways
List of all adopted miles in each zone
List and contacts of ALDOT offices in zone
HI VIZ Vehicle Safety Lights
HI VIZ Safety vests
PALS / ALDOT Inspection program magnetic vehicle signs
Vehicle furnished by Paul Claborn (Albertville, AL)
Prepaid Gas Cards for Intern

Inspections on South Zone will begin in Spring 2023.

PALS / Adopt-a-Mile Newsletter (Attached)

The Winter PALS/Adopt-a-Mile Newsletter was completed and mailed statewide in early January 2023. PALS has the statewide newsletter available in e-letter form online at www.alpals.org.

The PALS/AAM Newsletter is mailed to all Adopt-a-Mile, Adopt-a-Stream, Spring Cleanup participants, Clean Campus Schools, Coastal Cleanup Captains, PALS Members, and PALS County Chairmen, etc.

The total mailing is approximately 5,600. Applications for all “adopt-a” programs are included in each newsletter and are processed in the PALS office for adoption. Adopt-a-Mile reporting forms are also included in the newsletter.

The Alabama Coastal Cleanup (Data and Promo Items enclosed)

The 2022 Alabama Coastal Cleanup was held on September 17, 2022 and marked Alabama's 35th year Anniversary of participating in the International Coastal Cleanup.

Over 3500 volunteers gathered at 30 zones to participate in the annual coastal cleanup, which is held in conjunction with the International Coastal Cleanup.

Alabama PALS provided all cleanup supplies and materials for all 31 Coastal Zones.

12,000 Large Heavy Duty Trash Bags

Recycling Bags

Tee shirts for Volunteers, Zone Captains, Staff, etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 zones

Data Cards

Bottled Water

Zone Captain Packets

Safety Tip Sheets

Safety Vest Availability

New ALDOT Specific Safety Vests meeting new standards were ordered and are available to all Adopt A Mile groups on State and Federal Highways.

Alabama Pals Adopt-A-Miles
January, February, and March 2023

Recycling bags for counties participating in recycling component

PALS / ALDOT Public Service Announcement (2022 ABA Totals Emailed to Stacey Swindall / ALDOT)

The 2023 PALS/ALDOT PSA through ABA began airtime in May 2023.

As in past years, air time and scheduling reports from the ABA will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti-littering PSA on the PALS webpage and Facebook page.

Database for Adopt-a-Mile Program (updated copy on jump drive included in this report)

The Adopt-a-Mile database is now current and working effectively. PALS is currently able to view total, exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the database is working correctly and enabling PALS to best use the database for the benefit of the AAM program.

PALS continues to provide all database updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt-a-Mile database as updated information is collected. In addition to daily attention to the database, a file system has been created and maintained to assist in the creation of an accurate account of all County, State and Federal adopted miles in the future.

2023 Adopt-a-Mile Inspections

The internship program has proven highly effective and will continue each year as specified in the PALS / ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS / AAM database, reflecting and changes, additions, or deletions from current database.

The AAM inspections focused on the North Zone for 2022 and begin in March 2022. The inspections were completed in late June 2022 and all updated data will be entered into the database. The intern also focused on AAM signs that are in bad or unreadable condition, and PALS will be in contact with adoptees and District and County offices to have old signs removed.

The South Zone will be the focus for the 2023 Inspection program.

The 2023 Adopt A Mile inspections have begun and are being inspected by Osprey Initiative, which is a partner of Alabama PALS and employs college graduates and students that are completing their Masters degree at South Alabama University etc. The inspections in the South Zone will be completed prior to August 1, 2023. A high level of focus will be not only inspecting and rating each mile, but Osprey will also focus on old or signs that need to be removed or updated.

Materials Provided for 2023 AAM Inspection Intern Program

ALDOT provided maps for each county in the zone listing all highways
List of all adopted miles in each zone
List and contacts of ALDOT offices in zone
HI VIZ Vehicle Safety Lights
HI VIZ Safety vests
PALS / ALDOT Inspection program magnetic vehicle signs
Prepaid Gas Cards for Intern

PALS / Adopt-a-Mile Newsletter (Attached)

The Summer PALS/Adopt-a-Mile Newsletter was completed and is in the process of being mailed statewide in early July 2023. PALS has the statewide newsletter available in e-letter form online at www.alpals.org which will be uploaded by July 15, 2023. The PALS/AAM Newsletter is mailed to all Sponsors and Partners, Adopt-a-Mile, Adopt-a-Stream, Spring Cleanup participants, Clean Campus Schools, Coastal Cleanup Captains, PALS Members, and PALS County Chairmen, etc.

The total mailing is approximately 5,600. Applications for all “adopt-a” programs are included in each newsletter and are processed in the PALS office for adoption. Adopt-a-Mile reporting forms are also included in the newsletter.

The Alabama Coastal Cleanup (Data and Promo Items enclosed)

The 2022 Alabama Coastal Cleanup was held on September 17, 2022 and marked Alabama's 35th year Anniversary of participating in the International Coastal Cleanup.

Over 3500 volunteers gathered at 30 zones to participate in the annual coastal cleanup, which is held in conjunction with the International Coastal Cleanup.

Alabama PALS provided all cleanup supplies and materials for all 31 Coastal Zones.

12,000 Large Heavy Duty Trash Bags

Recycling Bags

Mesh bags for boats, kayaks etc.

Tee shirts for Volunteers, Zone Captains, Staff, etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 zones

Data Cards

Bottled Water

Zone Captain Packets

Safety Tip Sheets

The 2023 Alabama Coastal Cleanup will be held on September 16, 2023. PALS anticipates an extremely high level of participation.

Safety Vest Availability

New ALDOT Specific Safety Vests meeting new standards were ordered and are available to all Adopt A Mile groups on State and Federal Highways.

Alabama Pals Adopt-A-Miles
April, May, & June 2023

April Applications

Bobby & Lynn Sapp – Jackson County

Hamilton Lodge #365 – Montgomery County

Jennifer Hurbutt – DeKalb County

Wright Way Estates – Randolph County

Holland Chandler – Jefferson County

Emerald Mountain Residents – Elmore County

US Steel Corp. – Jefferson County

Rooted Journey LLC – Jefferson County

Signs Ordered in April

Punishers LEMC Mt Cheaha Chapter – Calhoun County

Taylor/Terrell Family – Macon County

In Memory of Ricky Glover – Talladega County

May Applications

James “Pop” Tuner – Escambia County

Meeksville Volunteer Fire Department – Pike County

Signs Ordered in June

Pink Shellz – Pi Sigma – Jefferson County

Brooklyn “Brookie” Babb – Cherokee County

Spanish Cove Declutter for Women – Baldwin County

Bobby & Lynn Sapp – Jackson County

Chilton Baptist Church – Clarke County (1 replacement)

**Specifics as Related to the Contract October 1, 2021-September 30, 2023
Fourth Quarter Reporting Period 07/01/2023 – 09/30/2023**

The contract for 2021-2023 between Alabama PALS and ALDOT was finalized and received by Alabama PALS in June 2021 and includes components which both parties feel will best benefit the growth and maintenance of these valuable statewide programs.

ALDOT and PALS have made final changes to a new and more information specific database, which will be kept and updated by Alabama PALS. (See Database Below). This database upgrade has afforded PALS a better and more efficient way in which to monitor compliance for the program, keep better contact with the volunteer adoptees, as well as beginning and creating and implementing a new and efficient inspection process for the program.

All new data received from this point forward should reflect accurate information for each adopted mile. The database is now updated with the ability to view exact numbers and locations of State, Federal, and County adopted miles. (Total miles and groups included in report).

PALS continues to receive an **extremely high** level of responses and new applications (see **attachments**) for Adopt-a-Mile and Adopt-a-Stream programs during the Second Quarter of 2022-2023. A new Compliance Reporting Form has been included in the PALS / Adopt-a-Mile Newsletter, where groups, individuals, PALS Chapters and others can report a group that is not keeping their respective mile of highway cleaned on a regular basis.

2023 Alabama PALS Statewide Governor's Awards Program

The 2023 Governor's Awards Program was held on November 16, 2022. Over 250 leaders, state agency heads, volunteers, city and county representatives attended the 2022 Alabama PALS Governor's Awards Program. 31 Awards were presented.

The 2023 Alabama PALS Governor's Awards are scheduled for November 8, 2023.

New Adoptees and Miles Adopted 07/01/23-09/30/23 (see Attached List)

Attached list of AAM applications and signs erected is attached to this report. Reports for all applications, signs mailed and erected are included in each quarterly report.

2023 is the fastest growing AAM period to date.

New ALDOT specified Safety Vests are available for all adoptees on State and Federal highways, and notices have been sent to all AAM participants regarding the availability of vests.

Adopt-a-Mile Signs to be Replaced

PALS continues to send letters to ALDOT District Engineers regarding the replacement of respective signs for each district, and will continue to follow up on future sign replacement as the requests come into the PALS office. As data is updated and added to the new AAM database, Christy will continue to correspond with all ALDOT district office in regard to removal or replacement of AAM signs. Several signs have been replaced during this period.

ALDOT District Correspondence

PALS remains in touch with ALDOT District Offices regarding the new protocol for the Adopt-a-Mile program. Christy feels like all districts are excited about the protocol for the program and feel like having PALS handle all paperwork and signage enables the adoptees to receive the signs in a timely fashion.

Ongoing contact is made with respective District Offices regarding applications, paperwork and erecting of AAM signs. District Offices of ALDOT have been very willing to assist the PALS office in all aspects.

PALS would like to encourage all ALDOT offices to report to the PALS office, all miles that appear to be picked up on a regular basis, or signs that have faded and become unable to read. PALS will contact the respective group.

Proposal for Updating Adopt-a-Mile Procedures

PALS met with Stacey Swindall in late September 2022 to discuss the need to have all AAM documents and applications accepted with signatures for E-sign program. All documents would be emailed to groups and individuals for E-signatures, then emailed to all ALDOT District Engineers for E-Signature, therefore eliminating documents having to be mailed and eliminating paperwork for ALDOT Engineers. This would also speed up time for the volunteers to receive their AAM signs in the future.

Also discussed during meeting was the need to go to a web-based database for the Adopt-a-Mile Program for the future. PALS has discussed this with Todd Jones with ALDOT and can be developed for future use.

Stacy Swindall is working with PALS to move both of these proposals forward.

PALS met with Stacey Swindall on July 7, 2022, to discuss new wordage on all new AAM applications, as well as moving ahead with proposed DocuSign use on AAM applications in the future. Upon final approval, PALS will make all necessary changes to have the forms and applications emailed to ALDOT engineers using DocuSign to aid in the elimination of paperwork, as well as speed up the application process for volunteer groups.

The discussion also included the use of ALDOT spec safety vests for volunteer use during cleanups held on US and State Highways. PALS will order the ALDOT spec vests moving forward.

During the meeting, Todd Jones with ALDOT updated the attendees of the positive attributes of going to a web based database for the Adopt-a-Mile program. The project will move forward with input from PALS and ALDOT, and the new database should be completed by early summer of 2023.

Todd Jones / ALDOT gave an update of web-based database for Alabama PALS through and email to Stacey Swindall and PALS staff in August 2022 stating that project had begun and target date would be spring/summer 2023.

Christy Waddell, State Adopt-a-Mile Coordinator, has implemented several new items for maintaining compliance, updates, and correspondence with current and future Adopt-a-Mile participating groups. One is a brochure (enclosed) that will be sent to each adoptee upon their 2-year anniversary with the program. This will indicate if the group still intends to actively participate or be removed from the active roll. Christy is also working to identify additional miles from past years that are not actively participating or are in need of new and updated signage.

The 2023 “Don’t Drop it on Alabama” Statewide Cleanup

The 2023 Spring Cleanup was held in April 2023, with some counties extending their respective cleanups in May, June and July 2023. PALS will continue to work with the Association of County Commissions to continue cleanups in 67 counties.

Over 490 tons have reported as picked up during the 2023 cleanup effort to date, with several counties completing cleanup efforts in July. Reports are still being received and PALS will work with each city, county or volunteer group to give them additional time to participate if needed.

All materials and supplies were distributed statewide for the 2023 Spring Cleanup

In 2022, the Alabama Community College Systems partnered with local communities to extend the cleanup of all ACCS campuses and respective communities. This partnership continued in 2023.

PALS had to order additional bags for the 2023 statewide cleanup effort due to higher than normal demand for materials and supplies.

Materials and Supplies Furnished for 2023 Spring Cleanup

165,000 Large Trash Bags w/ PALS Corporate Sponsors' and Partners' Logos
2023 Window Decals
Ad Slicks for promoting cleanup
Reporting Forms
PALS Program Booklets
Adopt-a-Mile Brochures
Adopt-a-Stream Brochures
Alabama Clean Campus Brochures
Safety Regulations and Tips
Recycling bags for counties participating in recycling component

PALS / ALDOT Public Service Announcement (Current ABA Reports Attached)

The 2023 PALS/ALDOT PSA through ABA began airtime in June , July and August 2023.

As in past years, air time and scheduling reports from the ABA will be included in ALDOT reports for that time period.

PALS has uploaded the new ALDOT anti-littering PSA on the PALS webpage and Facebook page.

PALS and ABA are working to produce a new PALS PSA for 2024.

Database for Adopt-a-Mile Program (updated copy on jump drive included in this report)

The Adopt-a-Mile database is now current and working effectively. PALS is currently able to view total, exact number of groups and adopted miles by County, State and Federal miles. PALS continues to work with Todd Jones of ALDOT to ensure that the database is working correctly and enabling PALS to best use the database for the benefit of the AAM program.

PALS continues to provide all database updates to ALDOT on a quarterly basis.

PALS continues to add/delete and change information to the new Adopt-a-Mile database as updated information is collected. In addition to daily attention to the database, a file system has been created and maintained to assist in the creation of an accurate account of all County, State and Federal adopted miles in the future.

2023 Adopt-a-Mile Inspections

The internship program has proven highly effective and will continue each year as specified in the PALS / ALDOT contract.

All new data from the Intern AAM Inspection Program reports will be added to the PALS / AAM database, reflecting and changes, additions, or deletions from current database.

The South Zone will be the focus for the 2023 Inspection program.

The 2023 Adopt A Mile inspections have been completed and were inspected by Osprey Initiative, which is a partner of Alabama PALS and employs college graduates and students that are completing their Masters degree at South Alabama University etc. The inspections in the South Zone were completed in early September 2023 and are included on the enclosed updated data base. A high level of focus was placed on inspecting and rating each mile, but Osprey also focused on old or signs that need to be removed or updated. Pictures of all miles were submitted to PALS, as well as a litter rating for the respective miles.

The partnership with Osprey proved to be the most effective and thorough inspection to date.

PALS will inspect all adopted miles in the Central Zone in 2024.

Materials Provided for 2023 AAM Inspection Intern Program

ALDOT provided maps for each county in the zone listing all highways
List of all adopted miles in each zone
List and contacts of ALDOT offices in zone
HI VIZ Vehicle Safety Lights
HI VIZ Safety vests
PALS / ALDOT Inspection program magnetic vehicle signs

PALS / Adopt-a-Mile Newsletter (Attached)

The Summer PALS/Adopt-a-Mile Newsletter was completed and mailed statewide in early July 2023. PALS has the statewide newsletter available in e-letter form online at www.alpals.org which was uploaded on July 15, 2023. The PALS/AAM Newsletter is mailed to all Sponsors and Partners, Adopt-a-Mile, Adopt-a-Stream, Spring Cleanup participants, Clean Campus Schools, Coastal Cleanup Captains, PALS Members, and County Chairmen, etc.

The total mailing is approximately 5,600. Applications for all “adopt-a” programs are included in each newsletter and are processed in the PALS office for adoption. Adopt-a-Mile reporting forms are also included in the newsletter.

The Alabama Coastal Cleanup (Data and Promo Items enclosed)

The 2022 Alabama Coastal Cleanup was held on September 17, 2022 and marked Alabama's 35th year Anniversary of participating in the International Coastal Cleanup.

Over 3500 volunteers gathered at 30 zones to participate in the annual coastal cleanup, which is held in conjunction with the International Coastal Cleanup.

Alabama PALS provided all cleanup supplies and materials for all 31 Coastal Zones.

12,000 Large Heavy Duty Trash Bags

Recycling Bags

Mesh bags for boats, kayaks etc.

Tee shirts for Volunteers, Zone Captains, Staff, etc.

Alabama Coastal Cleanup Posters

Ad Slicks for all 31 zones

Data Cards

Bottled Water

Zone Captain Packets

Safety Tip Sheets

The 2023 **36th Annual Alabama Coastal Cleanup** was held on September 16, 2023. 31 Zones from Dauphin Island to the FL/AL state line participated.

Safety Vest Availability

New ALDOT Specific Safety Vests meeting new standards were ordered and are available to all Adopt A Mile groups on State and Federal Highways.

Alabama Pals Adopt-A-Miles
July, August, September 2023

July Applications

Robbie Riddle – Talladega County

Veterinary Express of Lake Martin – Tallapoosa County

Hamilton Lodge #365 - Montgomery County

Guardian Belles LERC – Sea Sirens – Baldwin County

Guardian Belles LERC – Sea Sirens – Baldwin County

Narrow Road – Lee County

Order of Eastern Star Chapter Old Ship 343 - Montgomery County (state highway mile)

Order of Eastern Star Chapter Old Ship 343 - Montgomery County (county road mile) – *(road is maintained by the City of Montgomery / cannot be approved)*

Signs Ordered in July

Holloway Insurance Agency – Jefferson County

U. S. Steel – Jefferson County

Meeksville Fire Department – Pike County

Macedonia Missionary Baptist Church (replacement) – Russell County

Phenix City Ruff Ryders – Russell County

CrossBridge Church Youth Group – Jefferson County

August Applications

Boy Scouts of America – Madison County

Boy Scouts of America – Madison County

Legacy of Pearls #1147 order of the Eastern Star – Macon County

Kappa Alpha Psi Decatur-Athens Alabama – Limestone County

Tyson Foods – Barbour County

The Church of Jesus Christ of Latter-Day Saints – Madison County

R. McCaughey & K. Weaver – Clay County

Signs Ordered in August

Hamilton Lodge #365 – Montgomery County (federal road)

Timothy Dowling – Montgomery County

Hamilton Lodge # 365 – Montgomery County (county road)

Beulah Friends of the Community – Lee County (Lee Road 279)

Nila Holiness Church – Jackson County

September Applications

Loachapoka Masonic Lodge #292

Red Mountain Cut Foundation – Jefferson County

Fayette First Methodist Youth – Fayette County

Fayette First Methodist Youth – Fayette County (AAS)

Memory of BJ Pattillo Jr. – Macon County

Dallas County	Oxford	Winston County
Fultondale	Phenix City	Florence
Gardendale	Scottsboro	Muscle Shoals
Guntersville	Selma	Rogersville
Hartselle	Sumter County	

Below represents the data from 20 affiliates providing information for the time period by the deadline for this report. Additional affiliates held cleanup and education events but did not send information before the deadline for this report. When additional affiliates report holding cleanups during this time period that data will be added to the annual spreadsheet.

CLEANUPS

Number of Cleanups Held:	305
Number of Volunteers:	4,575
Number of Bags of Trash/Litter:	10,294
Pounds of Trash/Litter Collected:	231,615
Number of Bags of Recyclables:	1,192
Number of Partner Organizations:	134

EDUCATIONAL/COMMUNITY AWARENESS EVENTS

Number of Education/Awareness Events:	1,317
Number of Volunteers:	315
Number of Adult Attendees:	3,755
Number of Student Attendees:	10,247
Number of Partner Organizations:	46

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

The radio portion of “Trash Talk” continued airing with emphasis on sports focused stations. Paid radio commercials for “Trash Talk” during AM sports talk shows. “Trash Talk”, voiced by Greg McElroy and Cole Cubelic, was highlighted during the Mc & Cubelic Show on WJOX 94.5FM. The spot also aired on other stations as a PSA during the time period. The video component of “Trash Talk” with a football theme began airing via digital and cable stations as well as on streaming channels. The annual “Thankful” campaign also aired on strategically selected cable and streaming channels with a diverse viewership during portions of November and December.

Our collaboration with Alabama Media Group placed digital placards/videos during football season. To increase awareness of Keep Alabama Beautiful we included sports sponsored videos which performed very well. This time period continued the multi-platform creative produced in 2020 “Keep It in the Car” and included “Trash Talk”.

Metrics for the 3-month period are below.

Impressions: 1,686,652

Views: 77,068

Interactions: 75,246

Actual Time Viewed: 196,500 minutes / 3,275 hours (equivalent of 786,000 :15-second commercials)

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

cc: Linnea Austin

KEEP AMERICA BEAUTIFUL AFFILIATE

Post Office Box 574 Meridianville AL 35759

Second Quarter Report - 2023 January/February/March

During January - March 2023 at least 33 Keep Alabama Beautiful affiliates held cleanups and educational/awareness events.

Affiliates Holding Cleanups During January - March 2023

Albertville	Florence	Montgomery
Athens-Limestone County	Gardendale	Opelika

Number of Volunteers:	137
Number of Adult Attendees:	13,750
Number of Student Attendees:	1,254
Number of Partner Organizations:	37

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

Locations in Birmingham and Tuscaloosa along the Interstates were identified as areas to seek to increase litter prevention messaging. "Keep It In The Car" billboards were placed in some of those areas. Keep Alabama Beautiful also sponsored the statewide Arbor Day Poster Contest for 5th Grades students. This program includes litter prevention information.

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

Below represents the data from 16 affiliates providing information for the time period by the deadline for this report. Additional affiliates held cleanup and education events but did not send information before the deadline for this report. When additional affiliates report holding cleanups during this time period that data will be added to the annual spreadsheet.

CLEANUPS

Number of Cleanups Held:	278
Number of Volunteers:	683
Number of Bags of Trash/Litter:	6,887
Pounds of Trash/Litter Collected:	289,254
Number of Bags of Recyclables:	38,125
Number of Partner Organizations:	51

EDUCATIONAL/COMMUNITY AWARENESS EVENTS

Number of Education/Awareness Events:	117
Number of Volunteers:	718
Number of Adult Attendees:	9,107
Number of Student Attendees:	5,913
Number of Partner Organizations:	83

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

Keep Alabama Beautiful participated in the Alabama League of Municipalities Meeting held in Birmingham to promote municipality participation in year-round litter prevention programs and cleanup events across the state. Conversations were held with more than 300 representatives. Litter prevention initiatives will begin in up to 10 new cities/towns before the end of September.

KALB also presented information about litter prevention and cleanup efforts at ADEM's Alabama River Basin Conference.

Public Service Announcements aired on iHeartMedia stations across the state during April-June to coincide with Keep America Beautiful's Annual Great American Cleanup program. The creative produced in 2020 used for this was "Keep It In The Car" and "Keep It In The Boat".

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

CLEANUPS

Number of Cleanups Held:	217
Number of Volunteers:	2,252
Number of Bags of Trash/Litter:	8,281
Pounds of Trash/Litter Collected:	407,620*
Number of Bags of Recyclables:	160
Number of Partner Organizations:	81

*several cleanups used rolloff containers for collection

EDUCATIONAL/COMMUNITY AWARENESS EVENTS

Number of Education/Awareness Events:	72
Number of Volunteers:	206
Number of Adult Attendees:	4,867
Number of Student Attendees:	4,502

KEEP ALABAMA BEAUTIFUL STATEWIDE PROMOTIONS

During the Quarter digital billboards were placed in the Mobile/Coastal Alabama area with the “Keep It in the Car” litter prevention message. Digital billboards were also placed in intercostal areas with a “Fight Dirty in the Water” message to encourage waterway cleanups and litter prevention practices when enjoying recreational activities in Alabama waterways.

“Trash Talk” campaign ads voiced by Cole Cubelic and Greg McElroy aired 78 times in September during morning and afternoon drive times on WJOX-FM. This is the sports themed litter prevention message which also highlights that fines can be imposed for littering.

Our collaboration with Alabama Media Group placed targeted video placards/videos during September utilizing the “Trash Talk” ad, and the “Keep it in the Boat” and “Keep It in the Car” videos.

Metrics for September:

Impressions	1,976,636
Interactions	2639
Actual Time Viewed:	6,007 hours

We are continuing to expand by working with more cities/towns/counties and partnering with local and statewide organizations to develop litter prevention awareness programs.

**ALDOT Youth Education Activities:
Fiscal Year 2023**

Activity	Date(s)	Notes
Guest Lecture: Auburn University	03/17/2023	ALDOT employee spoke at a graduate-level seminar about ALDOT's MS4 program and environmental engineering career opportunities at ALDOT. Approximately 20 students in attendance.

**ALDOT Stormwater Management Research:
Fiscal Year 2023**

Project No.	Project Title	Research Partner	Total ALDOT Funding	Active during FY 2023?
931-080	GIS-Based Environmental Long-Term Monitoring Web Portal Phase III	Univ. of Alabama	\$88,469.00	Yes
931-074	Unmanned Arial Systems for Determining Vegetative Establishment on ALDOT Construction Sites	Auburn Univ.	\$199,976.50	Yes
931-072	Designing and Evaluating Infiltration Swales for Retaining and Infiltrating Roadway Stormwater Runoff	Auburn Univ.	\$299,634.42	Yes
931-054	Geotechnical Health Monitoring and Assessment of Landslides	Auburn Univ.	\$233,602.22	Yes
931-053	Implementation of OMS-Based Scour Prediction and Real-Time Monitoring of Scour Processes for Alabama Bridges	Auburn Univ.	\$222,390.98	Yes
931-017	Best Practices for Construction Site Stormwater Treatment Using Flocculants	Auburn Univ.	\$283,593.35	Yes
931-016	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation on Various Soil Types and Slope Gradients	Auburn Univ.	\$286,778.43	Yes
930-962	Evaluation of ALDOT Erosion Control Practices Using Rainfall Simulation	Auburn Univ.	\$383,526.35	No
930-954	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$130,282.00	No
930-925	Analysis and Potential Solutions to Sediment Deposition in Dean Road Watershed	Auburn Univ.	\$141,145.41	No
930-869	Evaluation of Sediment Barriers Using Large-Scale Techniques	Auburn Univ.	\$459,755.19	No
930-863	Evaluation of High-Rate Settling Technology for Sediment Control in Roadway Construction Sites	Auburn Univ.	\$357,770.25	No
930-853R	Evaluation of Inlet Protection Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,550.04	No
930-841R(S)	Monitoring the Coastal Processes in the Vacinity of Little Lagoon Pass	Univ. of South Alabama	\$428,834.00	Yes
930-837R	Monitoring and Predicting the Effects of Post-Construction Stormwater Runoff from Roadways in Watersheds	Auburn Univ.	\$228,561.81	No
930-826R	Evaluation of ALDOT Ditch Check Sediment Control Practices Using Large-Scale Testing Techniques	Auburn Univ.	\$336,101.63	No
930-811R	Vegetated Filter Strip Performance Evaluation for Cost-Effective Roadway Runoff Treatment in Alabama	Univ. of South Alabama	\$114,187.00	No
930-784	Maintain Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$42,050.00	No
930-767	Agronomic Solutions for Establishment of Roadside Vegetation	Auburn Univ.	\$86,068.00	No
930-751	Techniques for Establishing Vegetation for Long-Term Erosion Control on Disturbed Slopes	Auburn Univ.	\$50,000.00	No
930-678	Vegetation Management for Alabama's Highway Rights-of-Way	Auburn Univ.	\$251,244.00	No
930-655	Development of a Test Facility to Evaluate the Optimal Design of BMPs for Managing Environmental Problems at Construction Sites	Auburn Univ.	\$347,693.28	No
930-486	Mapping, Control and Revegetation of Cogongrass on ALDOT Rights-of-Way	Auburn Univ.	\$225,640.00	No

**ALDOT Environmental Concerns Log:
Fiscal Year 2023**

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
10/10/2022	"West side of I65 and Hwy 90 is a bridge, right across the street from the newly built Life Storage facility. There is a homeless encampment under the bridge. I have seen for a long time now a mountain of debris, litter, shopping carts, and very heavy trash on the very edge of Motlimar Creek. This area is at the foot of my neighborhood attracting crime, drug use, and theft. Please remove the trash before it gets thrown in the water."	Mobile	Mobile; US-90	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
10/20/2022	"Night giving enough of a warning of construction."	Clay	Lineville; AL-9	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
10/23/2022	"Vegetation is too high- impossible to see oncoming traffic on hwy 36 when turning left off the interstate."	Morgan	Hartselle; I-65 at Exit 328	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative.
10/25/2022	"The amount of trash is terrible."	Conecuh	I-65	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
10/26/2022	"A vehicle driving at 70 mph in front of me started dropping litter out of the back right window. They dropped a Pringles can, a soda can, and another Pringles can (all of which hit the front of my truck) before I started recording, and they held a mellow yellow bottle out of the window. When I passed, I saw a woman in her late 20s or early 30s it looks like she had blonde hair that was dyed green. There were children in the backseat. She was driving an older Ford expedition that was a dark color, with obvious wear and sunspots on the roof. I have a picture and video on my phone."	Lee	Opelika; I-85 at Exits 58-62	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Waste Management	Delegated to proper ALDOT representative.
10/30/2022	"Road work gravel top at this time. Driving from Locust Fork to Cleveland a gravel flew up and hit my husbands wind shield and he has a chip in it. Sunday October 30th at approximately 11:44 AM"	Blount	AL-79	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
11/03/2022	"Too many college students are getting hit or killed because of the construction of 21-204 highways. Why can't they build a walkway over the highways so no child could get hit."	Calhoun	Jacksonville; AL-21 & AL-204	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
11/04/2022	"The parking lot across from Brewer Hall has a crosswalk that leads to Brewer Hall and it is not safe. I am a former student who goes to Brewer Hall three days a week and I am always terrified of crossing that crosswalk. Cars speed there, most of them dont pay attention. Something needs to be done."	Calhoun	Jacksonville; AL-21 & AL-204	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
11/06/2022	"The public of the students at JSU have had multiple problems with unsafe roads."	Calhoun	Jacksonville; AL-21 & AL-204	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
11/20/2022	"100+ foot tall pine tree has died posing significant risk to Hwy traffic, communication lines, power lines and residential housing. The state acquired 50 feet from the centerline of the Highway through an eminent domain action and inherited this tree in the process."	Geneva	Hartford; AL-52	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative.
11/22/2022	"Excessive litter on right of way and in the drainage ditch."	Mobile	Mobile; AL-163 near I-10	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Citizen submitted multiple reports regarding same issue.)
12/12/2022	"Newly resurfaced roadway (thank you it was horrible) ISSUE: Drivers can not see lines at all at night with light steady rain/mist, extremely dangerous condition. My vehicle has properly aimed and functional headlights and fog lamps. Lines painted on road are not reflective, there are NO reflector squares placed on roadway either. The middle lines were completely invisible until ~10 feet in front of vehicle, fog line on outside of right lane was not visible at all. Speed had to be reduced to 20 mph to safely continue forward travel. I believe this condition needs to be addressed soon, before someone wrecks due to nearly undrivable conditions, if the rain was more than light and became heavy this roadway would become unusable."	Talladega	Talladega; AL-21 at AL-275	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
12/28/2022	"Significant erosion: Water from the roadway is causing erosion in front of mailbox at driveway. This problem has been addressed once before this year but the problem was not resolved. The gravel used to try and correct the problem has washed into the ditch causing a dam where the water can not flow through the drainage pipe."	Calhoun	Piedmont; AL-9	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
01/06/2023	It appears that whoever sprayed the roadside in front of my home has killed 4 trees. One big pine, 2 small pines, and a very old white oak tree."	Walker	Nauvoo; AL-5	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (Investigated determined that herbicide applied appropriately.)
01/09/2023	"Excessive litter in the entire Dallas County area."	Dallas	<i>Multiple roadway segments</i>	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
01/11/2023	"There is an excessive amount of trash in both the center and both sides of four lane. I believe and have witnessed garbage trucks with open tops broadcasting trash all over the highway. Need to clean up but source needs to be addressed."	Lee	Opelika; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
01/12/2023	"There are fallen trees on the big hill/cliff on the right side of the road. One tree is very large, roots are out of ground, and it is very dangerous."	Jefferson	Birmingham; US-31	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
01/17/2023	"There is a very big pot hole that is in the road you have to swerve over to miss if you don't know it's there. I was driving one night and it was raining I accidentally hit the hole and it bent my wheel I filed a claim on my insurance it was not a collision I want my wheel fixed"	Cullman	CR-222 near I-65	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/18/2023	"Theres dead animals thats been there so long that theyve decayed to the point of bones showing. Theres trash, car bumpers and just junk everywhere."	Tuscaloosa	Tuscaloosa; AL-69 near I-359	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
01/18/2023	"This stretch of highway has become very littered. About a year ago there was a limited effort to clean it up but it doesn't appear to have been done since."	Elmore	Wetumpka; AL-111 & AL-14	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
01/19/2023	"Excessive sand buildup . Large sand bar at entrance to lagoon making very poor water exchange."	Baldwin	Gulf Shores; near AL-182	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. (ALDOT manages this issue in an ongoing project.)
01/19/2023	"Saw a black dodge ram with the license plate number [redacted] throw a bag of trash out the window while driving."	Shelby	Chelsea; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Dumping	Delegated to and addressed by proper ALDOT representative.
01/20/2023	"Outfall at the corner of State Docks Rd and Hwy 20 has significant erosion very close to the roadway and needs repair."	Morgan	Decatur; AL-20	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
01/23/2023	"Erosion of drainage ditch in front of home."	Lauderdale	Florence; US-43	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
01/25/2023	"Large dead deer"	Marshall	Guntersville; Junkins Rd	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
01/26/2023	"Water is running off hill to the left of the house if facing it and running down in the water meter. Ditch in front of the property is catching water but the ditch to the left of the house is not getting to the ditch. It is running along the bottom of the hill toward water meter"	Randolph	Wedowee; AL-48	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
01/27/2023	"Overwhelming litter!"	Cullman	Dodge City; AL-69	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
01/30/2023	"Drainage ditches are clogged with debris during heavy rain drainage overflows across the Highway causing hazardous driving conditions."	Madison	Huntsville; US-431	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
02/01/2023	"Residents in my area aren't provided trash service & burn their garbage."	Pickens	Aliceville; Wood Bridge Rd	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
02/02/2023	"There is a lot of dirt/mud on the road and in ditch area."	Mobile	Mobile; AL-217	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
02/11/2023	"Land an soil erosion. Area's of drainage. Water is leaving ditch and flowing onto road. Erosion has fencing post no longer in the ground."	Covington	Red Level; Rosin Ridge Rd	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
02/13/2023	"Erosion of the road"	Pike	Brundidge; AL-167	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (No erosion detected.)
02/15/2023	"There is so much trash in this area."	Montgomery	Montgomery; US-80	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
02/16/2023	"Lots of standing water even during dry periods."	Tuscaloosa	Northport; US-43	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative. (Multiple submissions regarding same issue.)
02/21/2023	"There is so much trash along these roads...."	Lee	Opelika; I-85 & AL-169	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Multiple submissions regarding same issue.)
02/24/2023	"Excessive amount of lime rock dust/ mud on highway. Causing vehicle problems due to the issues."	Marengo	Demopolis; US-43	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative. (Pollution source outside of ALDOT jurisdiction.)
02/28/2023	"....someone had dropped a white trash bag on the middle of the railroad track to the right of the rail crossing gates."	Jefferson	Homewood; <i>railroad segment</i>	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
03/01/2023	Cloudy, non-stormwater discharge on ALDOT property near granite washing facility.	Houston	Dothan; US-231	Citizen Report	Illicit Discharge Detection; Improper Waste Management	Addressed by proper ALDOT representative. (Source of discharge determined to be under municipality jurisdiction; referred to proper municipal representative.)
03/02/2023	"Debris was continually coming from the back of a Warrior Waste Services vehicle for miles."	Tuscaloosa	Tuscaloosa; I-20/59	Environmental Concern Submission Form	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
03/08/2023	"Chips or sawdust is all along the road in this location and is continually building up on road shoulder. Month or so ago a chip truck turned over...."	Calhoun	Eastaboga; US-78 & AL-202	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Waste Management	Delegated to and addressed by proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
03/14/2023	"Recently built a new store next door and they blocked the culvert. The water has no way to drain and the water is building up in my end of the culvert and after a rain it comes up in my yard."	Tuscaloosa	Coaling; US-11	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
03/15/2023	"During the removal of bridge, the contractor left all concrete and rebar in the creek below and tried to cover up with large gravel."	Shelby	Columbiana; AL-25	Environmental Concern Submission Form	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
03/20/2023	"the roads are horrible and filthy with trash."	Madison	Huntsville; <i>multiple roadway segments</i>	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
03/24/2023	"Someone lost their drive up ramp to the trailer it's in the middle of I65 it's scary"	Limestone	Mooreville; I-65	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
04/02/2023	"Waterway that flows into village creek is surrounded by litter and has become a dumping ground."	Jefferson	Birmingham; <i>multiple roadway segments</i>	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/02/2023	"Pipe exposed after work done by either Birmingham City or Jefferson County that has caused a trench over time which may be compromising the integrity of the land in the area."	Jefferson	Birmingham; Westfield Rd	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/03/2023	"A clearing company is leaving piles of mud throughout the roadway resulting in potential dangerous conditions as well as potential for waterway contamination from sediment runoff."	Walker	Jasper; Reed Rd	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/04/2023	"Concrete drainage ditch is eroding. Everytime it rains it is flooding my driveway and washing dirt away and eroding the state drainage ditch."	Covington	Andalusia; US-29	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/06/2023	"Where two storm drains empty a considerable amount of erosion...."	Cherokee	Centre; US-411	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
04/12/2023	"Tree over road , potential falling hazard on major highway"	Covington	Onycha; US-331	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
04/13/2023	"I'm constantly being followed by a white truck...."	Dale	Dothan; US-231	Environmental Concern Submission Form	Non-Environmental	Advised citizen to notify law enforcement.
04/14/2023	"My friend was fishing late at night on April 12 and saw a tugboat hit the bridge with a barge and kept on going."	Choctaw	Naheola; <i>railroad bridge</i>	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
04/23/2023	"mother and baby goat walking along road"	Baldwin	I-10 near AL/FL line	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
04/24/2023	"There is a Homeless Encampment underneath the freeway and it's a serious public health concern. Fencing was put up but the area is still occupied and needs to be cleaned."	Jefferson	Birmingham; I-65 at 3rd Ave	Environmental Concern Submission Form	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
04/24/2023	"....piled garbage /debris/trash...."	Mobile	Eight Mile; US-45	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
05/04/2023	"I'm right next to the construction to the point that the traffic blocks me in or out of the entrance/exit to my duplex."	Lee	Auburn; AL-147	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
05/04/2023	"....an unknown truck, with no DOT number on the truck, no hazardous markers, and no permit was spraying on a very harsh chemical on the side of the highway and the field beside my home."	Randolph	Woodland; AL-48	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (No evidence of improper herbicide application detected.)
05/09/2023	"Why was the median poisoned?"	Colbert	US-72 near AL/MS line	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (Herbicide applied in accordance with PDMP.)
05/11/2023	If possible, please provide specifications on radionuclide content in road base construction materials.	Autauga	N/A	Environmental Concern Submission Form	Environmental-related Information Request	Delegated to proper ALDOT representative.
05/11/2023	"Billboards constructed within 660 feet of edge of right of way...."	Lee	Auburn; CR-82	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
05/17/2023	"Homeless encampment under the Red Mtn Expressway overpass...."	Jefferson	Birmingham; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
05/23/2023	"The culverts in front of my home are bent and becoming clogged with debris. A lot of the dirt is also coming from around them."	Choctaw	Pennington; AL-156	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
05/23/2023	"Water overflowing onto road and in parking lots...."	Etowah	Gadsden; US-411	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
05/28/2023	"Inadequate drainage...."	Lamar	Millport; AL-17	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
05/31/2023	"The driveway culvert on one side has concrete drainage swale. The outlet side does not. Water from highway has silt accumulation that is preventing proper drainage at the outlet side."	Barbour	Eufaula; AL-165	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
06/01/2023	"The parking lot on the corner of Government and St Emanuel St there's a grease trap from one of the restaurants nearby."	Mobile	Mobile; St Emanuel St	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
06/01/2023	"Unknown Contracted company spraying weed killer along my property."	Morgan	Laceys Spring; US-231	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (No evidence of improper herbicide application detected.)
06/05/2023	"Abandoned vehicle next to the single boat launch. Has been vandalized and may be leaking fluids. It has been there for several months."	Baldwin	Spanish Fort; near US-90/98	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
06/07/2023	"large pine tree leaning toward the road"	Jefferson	Leeds; AL-119	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
06/08/2023	"Grass is too tall."	Madison	Huntsville; AL-53	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
06/08/2023	Materials dumped on side of highway.	Madison	Huntsville; AL-53	Citizen Report	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
06/10/2023	"Because of the construction work on Hwy 82/McFarland Blvd and work being done to improve the runoff/drainage near Applejack Blvd, the stream has been dammed up and the water has now made the flood plain into a small standing lake."	Tuscaloosa	Northport; US-82	Environmental Concern Submission Form	Construction Site Management; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
06/17/2023	"There is significant overgrowth and the rock drainage ditch no longer holds water and overflows directly into our yard no matter how little it rains. While the drainage needs to be addressed, our main concern is how overgrown it has become."	Baldwin	Loxley; Baldwin Beach Express	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
06/19/2023	"The entrance ramp to 59-20 north Fairfield/ Lloyd Nolan needs trash picked up and grass mowed."	Jefferson	Fairfield; I-20/59	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
06/20/2023	"We have concerns about the weed abatement spraying on the North side of the Highway...."	Marion	Vina; AL-19 at CR-13	Environmental Concern Submission Form	Vegetation Management	Delegated to and addressed by proper ALDOT representative. (Herbicide applied in accordance with PDMP.)
06/23/2023	"Milling at Bridge caused the rim on my car to break"	Chilton	I-65	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
06/23/2023	"Old tires, auto parts, oil cans, trash, debris, strewn all along the median!"	Jefferson	Birmingham; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
06/29/2023	"Culvert flow restricted due to build up of pine needles, natural debris."	Tallapoosa	Alexander City; AL-22	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
07/01/2023	"Tree fallen across the road...."	Coosa	Church St	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
07/02/2023	"A tree came down and is blocking Bankhead - no access north or south"	Montgomery	Montgomery; Bankhead Ave	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
07/16/2023	"Fence is down laying in the road."	Jefferson	Birmingham; I-65 near 13th Ave	Environmental Concern Submission Form	Non-Environmental	Delegated to and addressed by proper ALDOT representative.
07/17/2023	"The new culvert that was installed a few months back, its side wall has collapsed and is blocking flow through one of the two pipes that is causing excessive water back up on my property...."	Houston	Dothan; AL-605	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
07/22/2023	"Water drainage clogged with debris "	Pike	CR-2287	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
07/22/2023	"Water is being blocked and causing my lawn to flood during rainfall."	Etowah	Attalla; US-11	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
07/24/2023	"Unused concert material and waste water are being dumped in the drain on Highway 31 in the street and in the drain behind the church causing flooding during a storm."	Jefferson	Warrior; US-31	Environmental Concern Submission Form	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
07/27/2023	"Commercial septic tank truck disposing of waste in RV waste disposal"	Sumter	I-20 Welcome Center	Environmental Concern Submission Form	Improper Waste Management	Delegated to and addressed by proper ALDOT representative.
08/04/2023	"Storm drain/ concrete culvert is busted...."	Blount	Cleveland; AL-79	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
08/04/2023	"I live in Brush Creek Estates near where the bridge is being replaced on Highway 65. The project is creating horrible silt in otherwise crystal clear Brush Creek, which feeds into Shoal Creek, which feeds into the river. "	Lauderdale	Killen; CR-65	Environmental Concern Submission Form	Construction Site Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority. (Citizen submitted multiple reports regarding same issue.)
08/10/2023	"There is a large tree to the right that appears to have been struck by lightning. All the bark is gone and it looks like it is dead. I am afraid it is going to fall and if it does it would fall into HWY 280 and could potentially seriously injure someone."	Jefferson	Mountain Brook; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
08/14/2023	"Too much truck traffic causing noise pollution and environmentally impacting surrounding homes in the community."	Montgomery	Ramer; AL-94	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
08/17/2023	"Vehicle was driving extremely fast, swerving all over the place, not using blinker."	Tuscaloosa	Tuscaloosa; US-82	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
08/19/2023	"I am writing to inquire why the traffic signal...."	Tuscaloosa	Northport; US-82	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.

ALDOT Environmental Concerns Log:
Fiscal Year 2023

Date	Description of Concern	County	Location Description	Report Source	Category of Concern	ALDOT Follow-Up Action(s)
08/21/2023	"The vegetation is nearly four feet high when exiting driveways onto the highway making it difficult to see oncoming traffic."	Barbour	Clayton; AL-51	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
08/31/2023	"Someone cleaning off a residential lot also cleared off the entire bank at Hwy 9 and all that is there now is dirt / mud...."	Cherokee	Cedar Bluff; AL-9	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
09/05/2023	There's a horrible noise on the exit ramp...."	Jackson	Bridgeport; US-72 & AL-277	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
09/06/2023	"I've never seen the highways of Alabama so poorly kept as I have in the last 10 years."	Blount	<i>Multiple roadway segments</i>	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
09/12/2023	"A deer was hit and killed and it died right in front of the house on state side of the fence."	Etowah	Rainbow City; I-59	Environmental Concern Submission Form	Transportation Facility Good Housekeeping	Delegated to and addressed by proper ALDOT representative.
09/14/2023	"My husband had an accident exiting Freedom Marine because he attempted to cross over 431 where it was allowed. The traffic runs so fast that it is hard to judge how far away the cars are."	Marshall	Guntersville; US-431	Environmental Concern Submission Form	Non-Environmental	Delegated to proper ALDOT representative.
09/16/2023	"The culvert has standing water."	Coffee	New Brockton; AL-51	Environmental Concern Submission Form	Hydrology/Hydraulics	Delegated to and addressed by proper ALDOT representative.
09/16/2023	"Biosolids/ Sludge/ Human sewage is being dumped heavily on the fields in this area."	Blount	Hayden; CR-37	Environmental Concern Submission Form	Improper Waste Management	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
09/20/2023	"There are 2 dead trees on state property overhanging our building."	Jefferson	Birmingham; US-280	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Vegetation Management	Delegated to and addressed by proper ALDOT representative.
09/23/2023	"Pipe under the road is either filled with debree or a beaver house."	Elmore	Wetumpka; CR-55	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
09/29/2023	"The road has multiple huge pot holes on the road."	Jackson	CR-62	Environmental Concern Submission Form	Non-Environmental	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.
09/30/2023	"Behind circle k, where the 18 wheelers park, there's a storm drain that's falling in on itself, it's also clogged by plastic bags, I believe there's some on the other side as well."	Autauga	Prattville; AL-14	Environmental Concern Submission Form	Transportation Facility Good Housekeeping; Hydrology/Hydraulics	Location outside of ALDOT jurisdiction. Advised citizen to notify appropriate authority.

**ALDOT Community Outreach Group Meetings:
Fiscal Year 2023**

Date	Group	COG Attendees	ALDOT Attendees	Other Attendees*	Total Attendees	Purpose
11/29/2022	Coliseum Boulevard Plume	6	2	2	10	Overview of Coliseum Boulevard Plume during Calendar Year 2022 and update on project status.
01/10/2023	Coliseum Boulevard Plume	1	2	2	5	New COG member orientation.
04/25/2023	Coliseum Boulevard Plume	3	3	1	7	Field trip for COG members to observe Coliseum Boulevard Plume project area and treatment systems.

* Can include facilitators and consultants of ALDOT.

**ALDOT Miscellaneous Community Outreach Activities:
Fiscal Year 2023**

Activity	Notes
Earth Day Mobile Bay	ALDOT Southwest Region participated in the event held on 04/22/2023.
Rest Area "Trash Sculptures"	ALDOT continued to partner with ADEM in the installation of "trash sculptures" (statues of animals containing repurposed trash like plastic water bottles) at ALDOT rest areas to raise public awareness of trash impacts on water habitats / ecosystems. During FY 2023, trash sculptures were installed at 6 rest areas.
Spring Clean Day	On 04/14/2023, ALDOT West Central Region facilitated a roadway cleanup effort in order to promote awareness of litter challenges and encourage citizens to organize their own cleanup efforts.
Social Media Outreach: Facebook	ALDOT Southwest Region has a Facebook account with approximately 5,600 followers as of the end of FY 2023, though no environmental-oriented messages were posted on the account during FY 2023. The ALDOT-owned Drive Safe Alabama Facebook account (with approximately 2,200 followers as of the end of FY 2023) posted 2 environmental-oriented messages during FY 2023.
Social Media Outreach: Twitter (currently branded as "X")	4 ALDOT Regions had Twitter Accounts as of the end of FY 2023: Southwest Region (approximately 7,100 followers), West Central Region (approximately 2,900 followers), East Central Region (approximately 1,500 followers for the account focused on I-59/20 improvements), and the Southeast Region (approximately 300 followers). Regions use Twitter, in part, to share environmental-oriented messages; West Central Region posted 2 messages during FY 2023. In addition, the ALDOT-owned Drive Safe Alabama Twitter account (with approximately 700 followers as of the end of FY 2023) posted 1 environmental-oriented message during FY 2023.

**ALDOT MS4 Coordination Activities:
Fiscal Year 2023**

Activity	Notes
Alabama Stormwater Association	2 ALDOT employees are on the ASA board of directors; ALDOT has participated in all board of directors meetings since ASA establishment. ALDOT was integral in the planning of a virtual seminar held on 11/29/2022 during which MS4s from throughout the state and various other stormwater professionals collaborated and gained focused stormwater management knowledge. Also, ALDOT maintained the ASA stormwater professionals contact list, which allowed for better coordination among stormwater professionals.
Baldwin County MS4 Planning Committee	ALDOT Southwest Region participates in Baldwin County MS4 Planning Committee collaboration opportunities. During FY 2023, ALDOT and rest of the committee continued to consider possible watershed restoration effort partnerships.
Cooperative Maintenance Agreements with Municipalities & Counties	ALDOT has established cooperative maintenance agreements with various municipalities and counties. Agreements include ones with City of Huntsville, City of Montgomery, and Etowah County. A key component of most agreements is litter pickup. An agreement typically authorizes the city or county in question to perform litter pickup on ALDOT property, allowing ALDOT and the city or county to work jointly and more efficiently in watershed protection.
One Clean Mobile Partnership / Litter-Free Mobile Task Force	Partnership between ALDOT Southwest Region and City of Mobile established in FY 2016 continued during FY 2023. (In August 2021, the One Clean Mobile Partnership was incorporated into the more comprehensive Litter-Free Mobile Task Force.)

**ALDOT Participation with Professional Organizations:
Fiscal Year 2023**

Organization	Activity	Notes
Alabama Chapter of the Soil and Water Conservation Society	Membership	Some ALDOT personnel are members.
Alabama Erosion and Sediment Control Partnership	Assistance in event facilitation	An ALDOT representative participates in the planning of Clear Water Alabama annually.
American Association of State Highway and Transportation Officials	Membership; Leadership roles; Participation in meetings	Some ALDOT employees are members of the Committee on Construction and the Committee on Maintenance. Some ALDOT personnel participated in conference calls, webinars, and conferences.
American Society of Civil Engineers	Membership; Leadership roles; Participation in meetings	ALDOT employees participate actively in the Alabama Section and in the branches that comprise the Alabama Section. Multiple ALDOT employees serve in leadership roles in the branches. With respect to the Alabama Section, an ALDOT employee serves as Region 5 Governor.
International Erosion Control Association	Membership; Leadership roles; Participation in meetings; Assistance in event facilitation	Some ALDOT personnel are members and attend conferences. An ALDOT employee served as chair of the MS4 Management Subcommittee and hosted an MS4 webinar focused on litter during FY 2023.

**ALDOT Internal MS4 Awareness Activities:
Fiscal Year 2023**

Activity	Date(s)	Notes
Internal MS4 Coordination Memorandum	10/20/2022	Memo sent to MS4-participating ALDOT offices to request review of their MS4 program-related activities, coordinate annual report data collection, provide updates regarding progress toward meeting SWMPP goals, and to remind them about upcoming MS4 program activity deadlines.

Supplemental Material for Section II.D

ALDOT Major Outfall Inventory & Screening Summary

ALDOT Major Outfall Inventory & Screening Summary

Last Updated: September 29, 2023

MS4 Area	Major Outfalls on Inventory	Major Outfalls Screened	Possible Illicit Discharges at Major Outfalls	Other Possible Illicit Discharges	Inventory & Screening Outcomes
Anniston	16	16	0	0	No non-stormwater discharges observed during screening. Completed.
Auburn/Opelika *	5	5	0	0	No non-stormwater discharges observed during screening. Completed.
Baldwin County	16	0	0	0	No non-stormwater discharges observed during screening. Completed.
Decatur	16	16	0	0	No non-stormwater discharges observed during screening. Completed.
Dothan	16	16	0	2	1 major outfall removed from inventory. (Outfall no longer exists due to re-development work.) No new non-stormwater discharges observed during screening. 2 non-stormwater discharges reported during the previous MS4 permit term observed again. Completed.
Florence	14	14	0	0	No non-stormwater discharges observed during screening. Completed.
Gadsden	35	35	0	0	No non-stormwater discharges observed during screening. Completed.
Huntsville	57	57	0	1	No non-stormwater discharges observed at outfalls during screening. Damaged sewer line observed and addressed in accordance with IDDE procedures specified in SWMPP. Completed.
Jefferson/Shelby County	138	0	0	0	<i>No activities applicable to the Permit term performed to date.</i>
Mobile	42	42	0	0	No non-stormwater discharges observed during screening. Completed.
Montgomery	28	28	0	0	No non-stormwater discharges observed during screening. Completed.
Phenix City *	6	6	0	1	No new non-stormwater discharges observed during screening. 1 non-stormwater discharge reported during the previous MS4 permit term observed again. Completed.
Tuscaloosa	34	34	1	1	Damaged sewer line observed near 1 major outfall that had been investigated previously and addressed in accordance with IDDE procedures specified in SWMPP. Non-stormwater discharge observed at 1 minor outfall; discharge appeared to be wash water originating from a nearby carwash business; discharge addressed in accordance with IDDE procedures specified in SWMPP. Completed.
<i>ALDOT Support Facilities **</i>	26	21	0	0	All (3) Dothan District Office major outfalls screened; no non-stormwater discharges observed. All (3) Central Office Complex / Montgomery Area Office / Montgomery District Office major outfalls screened; no non-stormwater discharges observed. All (3) Tuscaloosa Area Office / Tuscaloosa District Office major outfalls screened; no non-stormwater discharges observed. All (2) Gadsden District Office major outfalls screened; no non-stormwater discharges observed. All (4) Mobile Area Office / Mobile District Office major outfalls screened; no non-stormwater discharges observed. 1 of 2 Tunnel Office major outfalls on inventory screened; no non-stormwater discharge observed; other Tunnel Office major outfall on inventory <u>no longer accessible</u> because now located on private property. All (1) Anniston District Office major outfalls screened; no non-stormwater discharges observed. All (2) Tuscumbia Area Office / Tuscumbia District Office major outfalls screened; no non-stormwater discharges observed. All (2) Huntsville District Office major outfalls screened; no non-stormwater discharges observed.
PERMIT TERM TOTAL	449	290	1	5	

* The number of major outfalls on inventory for this MS4 Area given in previous annual reports was inaccurate due to a transcription error. The number given in the table is the correct number.

** Major outfalls identified at Central Office Complex / Montgomery Area Office / Montgomery District Office, Tuscumbia Area Office / Tuscumbia District Office, Huntsville District Office, Birmingham Area Office / Birmingham District Office, Calera District Office, Gadsden District Office, Tuscaloosa Area Office / Tuscaloosa District Office, Dothan District Office, and Tunnel Office. Major outfalls also identified at Mobile Area Office / Mobile District Office (4 total) in FY 2022 and at Anniston District Office (1 total) in FY 2023; these outfalls were added to inventory and screened during previous MS4 permit term, though ALDOT had been unaware of oversight in reporting these outfalls in SWMPP and annual reports. Major outfall tally for ALDOT support facilities updated to include 5 additional outfalls.

MS4 Monitoring Activity Summary:
Fiscal Year 2023

**MS4 Monitoring Activity Summary:
Fiscal Year 2023**

Monitoring Location	Dry-Weather Observation Dates	Wet-Weather Observation Dates	Key Observation Outcomes & Notes
US-431 at Brier Fork (Flint River), Madison County	05/26/2023; 09/06/2023	03/23/2023	No issue noted during any observation. Maintenance performed previously continued to demonstrate effectiveness.
US-431 at Beaverdam Creek, Madison County	05/26/2023; 09/06/2023	03/23/2023	No issue noted during any observation. Maintenance performed previously continued to demonstrate effectiveness.
AL-152 at Three Mile Branch, Montgomery County	03/16/2023; 05/05/2023	09/19/2023	No issue noted during any observation.
AL-110 at Jenkins Creek, Montgomery County	03/16/2023; 05/05/2023	09/19/2023	No issue noted during any observation.
US-90 at Halls Mill Creek, Mobile County	04/28/2023; 09/18/2023	03/09/2023	No issue noted during any observation; the location was generally heavily vegetated.
US-98 at D'Olive Creek, Baldwin County	04/28/2023; 09/18/2023	03/09/2023	No issue noted during any observation; the location was generally well-vegetated.
Observation Outcomes Analysis			<p>Observation outcomes for all monitoring locations over three years indicate that runoff flow paths on ALDOT property are well-vegetated overall and do not experience noteworthy erosion. Thus, there is no evidence that ALDOT is a significant contributor to the pollution of waters for which sediment or turbidity is a pollutant of concern. ALDOT's general maintenance approach appears to be effective, though ALDOT makes continual efforts to improve the effectiveness of erosion and sediment control measures.</p>
