

Soil or Aggregate Type Surface

Type of Construction	Material	Test	Frequency of Acceptance Samples and Tests for Job Control	Construction Stages for Obtaining Sample or Test	Sample Size	Procedures		Remarks
						Sampling Method	Test Methods	
Soil or Aggregate Type Surface	Commercial Aggregate	AASHTO T-27	Pretested See ALDOT-249	Before incorporation in work. See ALDOT-195 and ALDOT-249	AASHTO T-27	AASHTO T-2	AASHTO T-27, ALDOT-253	Work Sheet Form BMT-33. Report on Form BMT-6
		AASHTO T-19	Thickness (When required by plans)	Check each 250 ft (75 m) alternating left and right of center line	Check immediately after spreading operation.		AASHTO T-19 ALDOT-105	Report on BMT-16.
*If a material source is shown on the plans or if no specification requirements are set forth for local materials such as Sections 820, 821, 823, these tests may be waived. Thickness same as Commercial Aggregates.	*Local Material	AASHTO T-27 Clay Atterberg Limits	Each 15,000 ft ³ (400 m ³)	After spreading or stockpiles before delivery to work site.	See Soil or Soil Aggregate Base or Subbase Section 301
